

OUR FACULTY

ATELC is supported by a highly qualified team of clinicians and educators representing key specialties across emergency care, obstetrics, neonatology, and general medicine. Each faculty member contributes their expertise to deliver structured, evidence-based training aimed at enhancing the clinical competencies of healthcare professionals. With a commitment to quality, precision, and continuous improvement, our team works collaboratively to strengthen emergency and maternal care services. Their leadership and dedication ensure that every training program meets the highest standards of professional excellence.

DME FACULTY

Dr. Viswanathan K. V., Director of Directorate of Medical Education Kerala, Thiruvananthapuram, is the visionary force behind our Centre. A distinguished surgeon from Government Medical College Thiruvananthapuram, he has also served as our nodal officer, playing a pivotal role in establishing and strengthening our academic and training activities. An excellent teacher and a skilled laparoscopic simulation instructor, Dr. Viswanathan is deeply committed to advancing medical education through innovation and hands-on training. His guidance and leadership continue to inspire both faculty and students.

Dr Viswanathan K V

Director

DME, Thiruvananthapuram

She is a highly experienced obstetrician and a key faculty member for the Obstetric Training Program for Doctors and Nurses. She plays an important role in strengthening maternity care skills through focused teaching on obstetric emergencies, safe delivery practices, and evidence-based clinical management. Her guidance helps improve competence and confidence among healthcare providers working in maternal health.

Dr Bindu P

Prof, OBG

SAT Trivandrum

Dr. Radhika S is a senior neonatologist and the lead faculty for the Newborn Resuscitation Program (NBRP). She provides comprehensive guidance to both doctors and nurses, ensuring they develop strong skills in immediate newborn care, resuscitation techniques, and early stabilization. Her leadership and expertise play a vital role in improving neonatal outcomes through structured, competency-based training.

Dr. Radhika .S

Prof & HOD of Neonatology
SAT Trivandrum

He is a dedicated emergency medicine specialist and a core faculty member at ATELC. He plays an active role in delivering Basic Emergency Doctors Training and Advanced Emergency Doctors Training, strengthening the skills of healthcare providers through structured teaching and simulation-based learning.

Dr Padmakumar R Pillai

Asso. Prof, Emergency Medicine
GMC, Thiruvananthapuram

She is a dynamic and a valued faculty member at ATELC. She contributes significantly to both the Basic and Advanced Emergency Doctors Training programs, focusing on improving rapid assessment, clinical decision-making, and practical emergency skills. Her learner-centered approach and expertise in simulation enrich the training experience for doctors at all levels.

Dr. Chitra V R

Asso.Prof, Emergency Medicine
GMC, Thiruvananthapuram

A senior surgeon and respected educator, Dr. Krishna Kumar serves as BED and AED Faculty, guiding participants in systematic surgical emergency assessment and timely intervention. His mentorship strengthens clinical reasoning, operative preparedness, and confidence in handling acute surgical scenarios.

Dr Krishna Kumar K G
AssoProf, GeneralSurgery
GMC, Kollam

He plays an important role as BED and AED Faculty, delivering teaching that integrates surgical principles with practical emergency management. His approach emphasizes early recognition of complications and effective clinical decision-making, supporting doctors in refining their skills in acute care.

Dr Meer Chisthi M
AssoProf, GeneralSurgery
GMC, Kollam

She is an experienced obstetrician and a valued faculty member in the Obstetric Training Program for Doctors and Nurses. She plays an important role in enhancing competency in obstetric emergency management, safe delivery practices, and evidence-based maternal care. Her practical teaching approach helps strengthen the skills of healthcare providers involved in maternity services.

Dr Manjula M

AssoProf, OBG
GMC, Thrissur

She is a dedicated clinician and educator with extensive experience in internal medicine. As a faculty member at ATELC, she contributes to the Basic and Advanced Emergency Doctors Training programs, supporting participants in developing strong clinical judgment and effective management of medical emergencies. Her teaching emphasizes systematic assessment and evidence-based practice.

Dr Ajitha K C

AssoProf, General Medicine
GMC, Thiruvananthapuram

He is a dedicated academician and skilled surgeon known for his excellence in both clinical practice and teaching. He is actively involved in laparoscopic simulation training, helping students and young surgeons develop essential minimally invasive surgical skills in a safe and structured environment. His commitment to innovation in medical education, along with his approachable and supportive nature, makes him a highly respected mentor among students and colleagues alike.

Dr Jane Stephan

Asso Prof, General Surgery
GMC, Trivandrum

He is a distinguished surgeon and academic leader with an exemplary record of service. He previously served as the Superintendent of Government Medical College Thiruvananthapuram, where he played a pivotal role in strengthening both clinical services and academic standards. A committed educator and trainer in laparoscopic simulation, Dr. Nizarudeen actively contributes to the advancement of competency-based training. His leadership, expertise, and dedication continue to inspire excellence in medical education and patient care.

Dr A Nizarudeen

Prof, General Surgery
GMC, Trivandrum

He is an enthusiastic educator and an active faculty member for BED, AED, and Laparoscopic Simulation training programs. He supports the development of core surgical and emergency skills through structured sessions and hands-on simulation, helping doctors gain confidence in managing both routine and critical situations.

Dr Ajithprasad J S

Asst Prof, General Surgery
GMC, Wayanad

He is a committed physician and an active contributor to emergency care training at ATELC. He supports the delivery of Basic and Advanced Emergency Doctors Training, focusing on structured evaluation, early recognition of clinical deterioration, and effective management of acute medical emergencies. His practical insights help strengthen the competence of participating doctors.

Dr Rajesh SR

Asst. Prof, General Medicine
GMC, Thiruvananthapuram

She is an enthusiastic educator and skilled physician in general medicine. As part of the ATELC training team, she contributes to both Basic and Advanced Emergency Doctors Training, guiding participants in systematic clinical assessment and the management of acute medical conditions. Her clear teaching style and practical approach help to enhance learners' confidence in emergency care.

Dr Sreena Sreekumar T

Asst. Prof, General Medicine
GMC, Thiruvananthapuram

He actively contributes as BED and AED Faculty, offering guidance in trauma management, surgical emergencies, and rapid assessment

techniques. His clear, practical teaching style helps participants strengthen their competency in managing time-sensitive conditions.

Dr Randeer S

Asst Prof, General Surgery
GMC, Trivandrum

He supports the training of doctors in emergency care, focusing on structured evaluation, stabilization, and evidence-based decision-making. His sessions combine clinical insight with hands-on learning to build strong foundational skills in emergency management.

Dr Muzammil Haneef

Asst Prof, General Surgery
GMC, Trivandrum

He is an active faculty member for the Newborn Resuscitation Program (NBRP). He focuses on strengthening essential neonatal care skills through practical demonstrations and hands-on training. His supportive teaching approach helps participants gain confidence in performing timely and effective newborn resuscitation.

Dr. Anand Nandakumar

Asst. Prof Neonatology
SAT Trivandrum

She is an enthusiastic obstetrics and gynecology educator who actively contributes to the Obstetric Training Program for Doctors and Nurses. She focuses on practical, evidence-based approaches to managing

obstetric emergencies and improving delivery care skills. Her structured teaching style supports learners in gaining confidence and competence in maternal health practice.

Dr ReethiRajan

Asst Prof, OBG
GMC, Kollam

DHS FACULTY

He brings strong clinical expertise in anaesthesia and perioperative care. He contributes significantly to emergency and critical care training, with a focus on safe airway management, resuscitation support, and evidence-based practices that enhance patient safety in acute care settings.

Dr Praveen P.G

Consultant. Anaesthesia
DH Nilambur

Dr. Dhanya is an active faculty member involved in delivering Basic Obstetric Doctors (BOD) and Basic Obstetric Nurses (BON) training programs. She focuses on improving practical skills in antenatal care, safe delivery practices, and the management of common obstetric emergencies. Her interactive teaching style supports learners in building confidence and competence in maternity care.

DrDhanya G Krishnan

Jr Consultant OB&G
Thalukhospital, Vithura

He is a dedicated clinician and an active DHS faculty member for training programs. He contributes to strengthening frontline emergency care by guiding participants in rapid assessment, stabilization techniques, and practical management of common emergency conditions. His hands-on approach supports doctors in building confidence and competence in acute care settings.

Dr Anoop Prathapan

Assistant Surgeon
GH Neyyattinkara

She is a committed clinician and an active DHS faculty member involved in emergency care training programs. She contributes to strengthening the skills of doctors through structured teaching, hands-on practice, and a focused approach to managing common emergencies. Her guidance supports improving the quality and confidence of frontline providers.

Dr Sheeja R K

Assistant Surgeon
FHC Anakudy

NURSE TRAINERS

He is an experienced nurse trainer involved in Emergency Nursing, Advanced Emergency Nursing, Pediatric Advanced Life Support (PALS), training for nurses. He provides BLS skill training for nursing students, paramedical students, school students, the public, and nurse assistants. He also conducts simulation-based training to strengthen practical skills and emergency response competency. As a certified AHA- instructor for BLS & ACLS. He ensures delivery of standardized and professionally aligned life-support training.

Mr Harishkumar S

Nurse Trainer
AT&ELC

He delivers training in Emergency Nursing, Advanced Emergency Nursing, and PALS. He conducts BLS skill sessions for nursing and paramedical students, public learners, and nurse assistants. As an AHA-certified instructor for BLS, ACLS& PALS, he supports skill development through structured, hands-on, and simulation-based training programs.

Mr Sambath Lal

Nurse Trainer
AT&ELC

She is actively involved in training programs for Emergency Nursing, Advanced Emergency Nursing, PALS, and Basic Obstetric Nursing (BON). She provides BLS training for nursing students, paramedical students, public participants, and nurse assistants. She also delivers simulation-based training, focusing on practical skill improvement and confidence in emergency care. As an AHA-certified instructor for BLS & ACLS, she contributes in strengthening essential life-support skills and promotes high-quality, evidence-based clinical practice.

Mrs Thushara V Pillai

Nurse Trainer
AT&ELC
