MESSAGE

GOVERNMENT OF KERALA

Pinarayi Vijayan

CHIEF MINISTER

No. 250/Press/CMO/26

26 February, 2026

MESSAGE

The health and well-being of the people of Kerala have always been at the centre of the Government's development agenda. Alongside the achievements of modern medicine, Kerala's strong tradition of Indian Systems of Medicine and Homoeopathy continues to play a vital role in promoting preventive, promotive, and holistic healthcare. Strengthening AYUSH services is therefore integral to our vision of inclusive, people-centred, and sustainable health systems.

The District AYUSH documentation is an important initiative that informs the status and performance of AYUSH services at the district level. By systematically presenting information on institutions, human resources, service delivery, and programme implementation, this document provides a clear understanding of how AYUSH systems contribute to improving population health, particularly in primary care, lifestyle disease management, geriatric care, and community wellness.

Kerala's public health experience demonstrates that strong outcomes are achieved through a balanced approach that combines curative care with prevention, health promotion, and community participation. AYUSH institutions, especially at the grassroots level, have been instrumental in expanding access to affordable healthcare and strengthening wellness-oriented interventions. The collective efforts of the Departments of Indian Systems of Medicine, Homoeopathy, National AYUSH Mission, and local self-governments are clearly reflected in this profile.

I am sure that this District AYUSH documentation will serve as a valuable reference for policymakers, administrators, and health professionals.

I extend my appreciation to all those who contributed to this effort and wish every success to the continued strengthening of AYUSH healthcare in Kerala.

Pinarayi Vijayan

Dr. Rajan Khobragade IAS
Addl Chief Secretary

Smt. Veena George

Minister for Health &
Family Welfare
and Woman & Child Welfare
Development
Government of Kerala

Message

The Government of Kerala remains committed to strengthening public health systems that are equitable, responsive, and people centred. Within this framework, AYUSH systems play a unique and complementary role by emphasising prevention, lifestyle modification, and long-term management of health conditions. The District AYUSH documentation represents an important step towards systematically documenting and strengthening these contributions.

This document provides a comprehensive overview of AYUSH services in the district, covering infrastructure, human resources, beneficiary utilisation, and key programmes implemented under the National AYUSH Mission. By consolidating reliable data and analytical insights, the profile supports informed planning, efficient resource allocation, and continuous improvement in service delivery.

AYUSH institutions have significantly expanded access to primary healthcare, particularly in rural and underserved areas. Interventions focusing on non-communicable diseases, geriatric care, women's and child health, school health, and wellness promotion have enhanced community engagement and reduced pressure on secondary and tertiary facilities. The integration of AYUSH services with broader health initiatives further strengthens continuity of care.

I appreciate the dedicated efforts of the state officers, district officials, programme managers, medical officers, and frontline staff of the Indian Systems of Medicine, Homoeopathy, and National AYUSH Mission in preparing this document. I urge health administrators and professionals to actively use this document for analysis, planning, and action. I am confident that this initiative will contribute meaningfully to improving the reach, quality, and impact of AYUSH services and to advancing Kerala's goal of comprehensive healthcare for all.

Veena George

Preface

The Department of Health and Family Welfare, including AYUSH, and various organizations have been taking sustained efforts to strengthen health systems through evidence-based planning, decentralised governance, and intersectoral collaboration.

In order to assess various schemes and programs implementation, their outputs and outcomes a comprehensive document series is being undertaken by the Department. This document offers a structured and comprehensive account of AYUSH services in the district, encompassing institutional infrastructure, human resources, service utilisation, and programme implementation. It highlights the role of AYUSH in preventive and promotive healthcare, management of chronic conditions, and delivery of community-based wellness interventions. By presenting standardised data and district-specific insights, the document enables comparative assessment, gap identification, and priority setting. It gives information for doing integrative medicine practice especially for NCD management, palliative care and geriatric care.

The preparation of this document required coordinated efforts from district officials, programme teams, and healthcare providers across Indian Systems of Medicine, Homoeopathy, and the National AYUSH Mission. The process itself has strengthened data validation, improved documentation practices, and reinforced the importance of using evidence for decision-making.

I am confident that the District AYUSH documentation will serve as a useful resource for administrators, planners, researchers, and practitioners. It will support informed policy dialogue, guide programme strengthening, and encourage greater integration of AYUSH within the broader public health system.

I commend the state and district teams for their commitment and hope that this initiative will contribute to further improving the quality, accessibility, and effectiveness of AYUSH services across Kerala. I also urge all to institutionalize this mechanism and annually publish District documents so as to maintain focus on achieving the priorities as per the VISION 2031 plans.

Dr Rajan Khobragade IAS

Additional Chief Secretary
Health & Family Welfare and
AYUSH Department
Govt of Kerala.

MESSAGE

The preparation of the District AYUSH Profile marks a significant step towards strengthening evidence-based planning and systematic documentation within the Govt. AYUSH sector. This comprehensive record reflects the collective efforts of the Departments of Indian Systems of Medicine and Homoeopathy, National AYUSH Mission, and the Educational institutions functioning under the Ayurveda Medical Education & Homoeopathy Medical Education.

The document provides a detailed overview of district-level AYUSH activities, infrastructure, human resources, and the programmes implemented under various components of the National AYUSH Mission (NAM). It also highlights the growing role of AYUSH in preventive, promotive, and curative healthcare, as well as its contribution to education and community well-being.

I commend the sincere efforts of all officials and district teams involved in compiling this profile. I am confident that the information contained herein will serve as a valuable tool for planning, monitoring, and strengthening AYUSH services at the grassroots level, thereby furthering Kerala's commitment to accessible, quality, and holistic healthcare for all.

Dr. D. Sajith Babu IAS

State Mission Director

National AYUSH Mission, Kerala

MESSAGE

Kerala's public health system is widely recognised for its people-centred approach, emphasis on equity, and sustained focus on preventive and promotive healthcare. The State's effective integration of community participation with institutional governance has enabled the delivery of quality health services and established Kerala as a leader in public health administration.

The Department of Indian Systems of Medicine (ISM), Government of Kerala, forms a vital component of this framework. Through its extensive institutional network, the Department upholds the classical foundations of Indian Systems of Medicine while addressing evolving health needs, ensuring accessible, affordable, and culturally appropriate healthcare services across the State.

In this backdrop, the District Profile Handbook has been developed as a comprehensive reference document reflecting the status and performance of ISM services at the district level. It provides a structured overview of institutional capacity, human resources, infrastructure, service delivery, and programme implementation, thereby supporting evidence-based planning and informed administrative decision-making.

The district profiles were prepared through systematic data generation, analysis, and consolidation using the Department's digital information systems, ensuring accuracy, uniformity, and transparency, and reinforcing a data-driven approach to governance and service improvement.

I place on record my sincere appreciation to the Joint Director and coordination team of ISM, including administrative staff, and the entire team of the National AYUSH Mission (NAM) for their dedicated efforts in drafting, reviewing, analysing, and consolidating the district profiles. Their coordinated engagement and technical competence were instrumental in ensuring the quality, reliability, and timely completion of this handbook.

It is hoped that this handbook will serve as a valuable planning and management resource for administrators, programme managers, and stakeholders, and contribute meaningfully to the continued strengthening of Indian Systems of Medicine in Kerala.

Dr. K S Preeya

Director

Department of Indian Systems of Medicine,
Government of Kerala.

MESSAGE

The Kerala model of healthcare delivery has earned global recognition for its people-centred, inclusive, and equity-driven approach to public health. Rooted in the belief that healthcare is a fundamental right of every citizen, the State has consistently demonstrated how thoughtful public action, community participation, and strong institutions can together achieve health outcomes comparable with those of many developed nations.

The Department of Homoeopathy, Government of Kerala, is proud to be an integral part of this collective journey. Through a wide network of government homoeopathic hospitals and dispensaries, the Department continues to extend accessible, affordable, and quality-assured healthcare services to diverse sections of society, while upholding the values of compassion, accountability, and professional excellence.

In this backdrop, the District Profile Handbook has been conceived as more than a compilation of statistics, it is a reflection of the people, institutions, and systems that sustain homoeopathic healthcare at the grassroot level. By presenting a structured and comprehensive overview of institutional capacity, human resources, service delivery, infrastructure, and ongoing programmes, this handbook seeks to support evidence-based planning, informed decision-making, and responsive governance.

The preparation of these district profiles has been made possible through the effective use of the department software- Ayush Homoeopathy Information Management System (AHiMS), enabling reliable, standardised, and centrally compiled data at the Directorate level. This digital integration marks an important step towards transparency, efficiency, and continuous system improvement.

I express my sincere appreciation to the District Medical Officers and the district medical office team for the timely review of the document and their valuable additions. I also extend my sincere thanks to the District Medical Officers, the medical and paramedical team, and all other district officials, including the AHiMS District Trainers, whose dedication and diligence in the timely updation of data in AHiMS helped in the prompt compilation of the District Profile document. Their collective efforts reinforce our shared commitment in strengthening healthcare in Kerala.

It is my earnest hope that this handbook will serve as a valuable planning and management resource, inspire constructive dialogue among stakeholders, and contribute meaningfully to shape a healthier and more resilient Kerala in the years to come.

Dr. M. P. Beena

Director
Department of Homoeopathy,
Government of Kerala.

2. Details of the Department of Homoeopathy
3. NAM Details
4. Ayurveda College, Kannur

INTRODUCTION

The District AYUSH Profile has been developed to provide a comprehensive overview of the AYUSH sector within the district, covering all aspects related to the Department of Indian Systems of Medicine (ISM), Department of Homoeopathy, National AYUSH Mission (NAM) initiatives, and AYUSH educational institutions functioning under the Ayurveda Medical Education & Homoeopathy Medical Education.

This document serves as an authentic reference source reflecting the overall status of AYUSH healthcare and education in the district. It consolidates detailed information on infrastructure, human resources, healthcare facilities, educational institutions, and various programmes and schemes implemented through the ISM and Homoeopathy departments, including activities undertaken under different components of NAM.

Structured in a systematic format, the District AYUSH Profile compiles data and analytical insights through tables, charts, and concise narratives for clarity and ease of understanding. It is intended to support evidence-based planning, programme evaluation, and strategic strengthening of AYUSH healthcare and educational systems at the district level, while identifying existing gaps and priorities for future interventions.

The preparation of this document reflects a commitment to systematic documentation and the continuous strengthening of AYUSH health and educational systems. It is envisaged that this District AYUSH Profile will serve as a valuable resource for administrators, planners, academicians, and stakeholders engaged in the promotion, integration, and advancement of AYUSH systems in the district.

1.2 The People and Population

Kannur, situated in the northern part of Kerala, is known for its rich cultural heritage, historical significance, and diverse population. The district is bounded by the Western

Ghats on the east, the Arabian Sea on the west, Kasargod in the north, and Kozhikode and Wayanad in the south. Its strategic location and natural beauty, including coastal plains and hilly terrain, have shaped the social and demographic profile of the district.

Kannur has a population of approximately 2.5 million (2021 estimate), with a mix of urban and rural settlements. The population density is relatively high in the coastal and midland regions, while the eastern hilly areas are more sparsely populated. The district exhibits a balanced sex ratio and a literacy rate that is higher than the national average, reflecting Kerala's overall emphasis on education and human development.

The people of Kannur are known for their cultural vibrancy and traditional art forms such as Theyam, Kalaripayattu, and folk music. Agriculture, fishing, and small-scale industries are the primary sources of livelihood, alongside contributions from overseas employment, particularly in the Gulf countries. Kannur's population is also characterized by religious diversity, with Hindus, Muslims, and Christians living together, contributing to a rich tapestry of festivals, rituals, and social practices.

Migration patterns, urbanisation, and industrialisation are gradually shaping the demographic trends in Kannur. The district continues to invest in health, education, and infrastructure, maintaining high human development indicators while balancing the needs of a growing and dynamic population.

1.3 Kannur- Health Overview

Kannur district has made significant progress in healthcare over the years, supported by a robust network of public and private institutions. The district's health services are primarily managed by the Department of Health Services, Kerala, which oversees a system of Primary Health Centres (PHCs), Community Health Centres (CHCs), Family Health Centres (FHCs), and Taluk/District Hospitals to ensure accessible care across urban and rural areas.

The District Hospital, Kannur, along with Taluk Hospitals at Thalassery, Payyannur, and Iritty, serve as major referral centres. The district also has specialized facilities such as the Women & Children Hospital, Kannur, which focuses on maternal and child health,

and the Institute of Mental Health, Kannur, which provides comprehensive mental health services under the District Mental Health Programme (DMHP).

Maternal and child health indicators are strong in Kannur, with high antenatal care (ANC) coverage, near-universal institutional deliveries, and high immunisation rates. Health initiatives under the National Health Mission (NHM) have strengthened preventive and promotive care, particularly in immunisation, nutrition, and reproductive health. Communicable diseases such as tuberculosis, dengue, and viral hepatitis are closely monitored, with the Regional Public Health Laboratory, Kannur, supporting diagnostics and disease surveillance. The district has also been active in managing non-communicable diseases (NCDs) like hypertension, diabetes, and cardiovascular disorders, through regular screening camps and lifestyle awareness programs.

Kannur's private healthcare sector, including multi-specialty hospitals and Ayurvedic and Homoeopathy institutions, complements the government system by offering tertiary care and specialized services. The district has made efforts to achieve quality assurance standards, with several health facilities accredited under National Quality Assurance Standards (NQAS).

Despite these achievements, Kannur faces challenges due to geographical diversity, including hilly and coastal regions, which can create disparities in healthcare access. Population growth, urbanisation, and lifestyle-related health issues also require continuous attention. Investments in telemedicine, mobile health units, and community health education remain crucial to achieving equitable healthcare delivery across the district

1.4 AYUSH- Role in enhancing public health outcomes

The AYUSH system plays an important complementary role in strengthening district health services. The **Indian Systems of Medicine (ISM) Department** provides preventive, promotive, and curative healthcare through Ayurveda, Siddha, and Unani institutions, focusing on lifestyle disorders, musculoskeletal ailments, geriatric care, women's health, and seasonal diseases. The

holistic and preventive orientation of ISM services aligns well with the district's community health needs.

The **Department of Homoeopathy** contributes significantly to district healthcare by offering accessible, affordable, and patient-friendly treatment, particularly for chronic illnesses, respiratory disorders, skin diseases, allergies, and psychosomatic conditions. Homoeopathy services at the primary and secondary levels help reduce patient load on allopathic facilities and improve healthcare access in both urban and rural areas.

Under the **National AYUSH Mission (NAM), Kerala**, various initiatives have been implemented in Kannur to strengthen AYUSH infrastructure, ensure the availability of essential medicines, deploy trained human resources, and promote integrative healthcare. NAM-supported programmes such as speciality clinics, lifestyle disease management clinics, geriatric care services, school health programmes, wellness centres, and health awareness campaigns have enhanced the reach, quality, and acceptance of AYUSH services. Through convergence with the mainstream health system, AYUSH institutions contribute effectively to disease prevention, health promotion, and improved health outcomes in the district.

In conclusion, Kannur District stands as a region where rich cultural heritage and modern development coexist. Supported by an inclusive healthcare system that integrates modern medicine with AYUSH practices, the district continues to advance holistic health, social well-being, and sustainable development for its population.

1.5 Key Achievements in AYUSH Healthcare Development

The Government of Kerala has undertaken significant measures to strengthen Indian System of Medicine as part of its recent achievements. As part of this initiative, 82 Medical Officer posts and 162 paramedical staff positions, including 8 temporary posts, have been sanctioned to enhance service delivery and human resource capacity across ISM institutions. Further reinforcing secondary-level care, two Government Ayurveda Dispensaries have been upgraded, Government Ayurveda Hospital, Moozhur in Kottayam district to a 10-bedded hospital and Government Ayurveda Hospital, Pinarayi in Kannur district to a 30-bedded hospital. These interventions reflect the State Government's commitment to

improving infrastructure, expanding access to quality traditional healthcare, and ensuring better patient care through strengthened manpower and upgraded facilities.

Under the Homoeopathy Department, the Government of Kerala has achieved significant milestones in expanding access to public homoeopathic healthcare and strengthening institutional capacity. A total of 50 new homoeopathy facilities have been established across the State, ensuring that all Panchayats in Kerala are now covered with homoeopathy services, thereby achieving universal grassroots-level access. To support service expansion and improve care delivery, 50 new Medical Officer posts have been sanctioned. In line with the Government's vision to promote scientific validation and academic advancement in homoeopathy, the Department has also initiated structured research activities through Project HEART (Homoeopathy Evidence-based Advanced Research and Training). Further reinforcing research governance and ethical standards, a Scientific Advisory Board (SAB) and an Institutional Ethics Committee have been constituted under the Department. These initiatives collectively highlight the State's commitment to evidence-based practice, capacity building, and comprehensive healthcare delivery through homoeopathy.

Chapter 2

OVERVIEW OF AYUSH SERVICES

2.1 Overview of AYUSH Services in Kannur District

The AYUSH system of healthcare in Kannur district constitutes an integral component of the public health delivery framework, providing accessible and holistic healthcare services through Ayurveda, Yoga & Naturopathy, Unani, Siddha and Homoeopathy. The district has a well-established service delivery structure comprising government hospitals, dispensaries, primary healthcare institutions, specialty centres, wellness facilities, medical education institutions, and outreach programmes, ensuring healthcare access across urban and rural areas. AYUSH services complement the allopathic healthcare system by focusing on preventive, promotive, curative, rehabilitative, and palliative care, with strong emphasis on wellness, lifestyle modification, and community-based healthcare delivery.

2.2 History and Evolution of AYUSH Services in the District

Kannur district has a long and distinguished tradition in indigenous systems of medicine, particularly Ayurveda, supported by Kerala's classical medical heritage. Over the decades, AYUSH services in the district have evolved from basic dispensary-level care into a structured, government-supported healthcare network. With sustained support from the State Government and the National AYUSH Mission, AYUSH institutions in Kannur have expanded to provide inpatient services, specialty clinics, public health initiatives, school health programmes, geriatric care, lifestyle disease management, and palliative care services. This evolution reflects steady strengthening of infrastructure, human resources, service quality, and integration with public health initiatives.

2.3 Administration and Governance Structure

AYUSH services in Kannur district function under the Department of AYUSH, Government of Kerala, in coordination with the Directorate of Indian Systems of Medicine, Directorate of Homoeopathy, Directorate of Ayurveda Medical Education, and relevant Central AYUSH authorities. District-level administration is carried out by designated officers responsible for

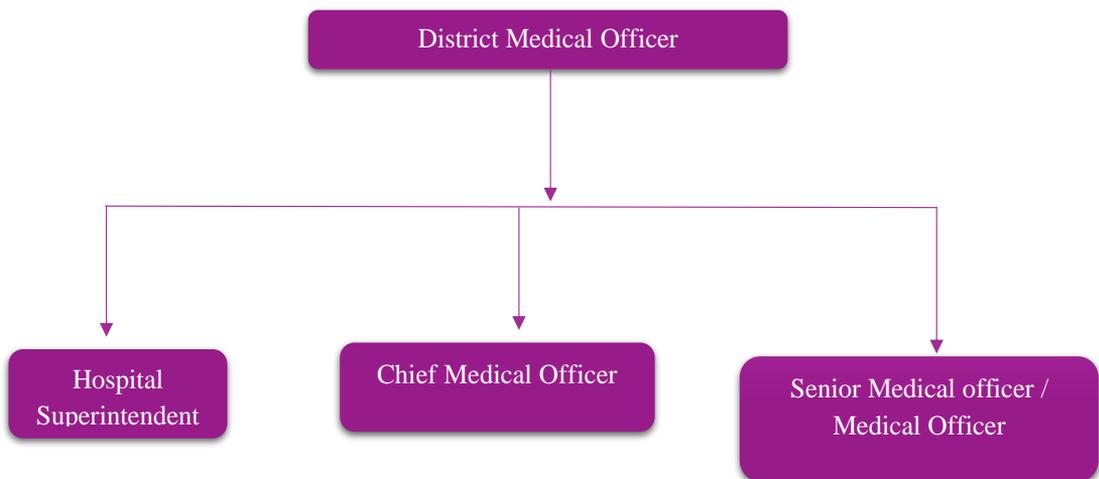

planning, implementation, supervision, monitoring, staff deployment, programme execution, and financial management of AYUSH services.

Key functions of the district administration include:

- Supervision and coordination of AYUSH hospitals, dispensaries, and wellness centres
- Ensuring adequate staffing, infrastructure, and uninterrupted supply of medicines
- Implementation and monitoring of National AYUSH Mission programmes
- Conduct of public health, outreach, and community-based activities
- Monitoring service delivery outcomes and financial utilisation

2.4 Organogram – District Level Administrative Structure

At the district level, the administrative structure typically consists of:

2.5 Infrastructure Profile of the District

The AYUSH healthcare system in Kannur district is supported by a comprehensive and decentralised institutional network functioning under ISM and Homoeopathy streams. A total of **209 AYUSH institutions** are operational in the district, ensuring wide coverage of promotive, preventive, curative, and wellness-oriented healthcare services. This network

includes District Hospitals, Government Hospitals, Government Dispensaries, Ayushman Arogya Mandirs, Ayush Primary Health Centres, Government Ayurveda Tribal Dispensaries, Special Component Plan Homoeopathy Health Centres, and an Ayurveda Medical College. ISM accounts for **106 institutions**, while **103 institutions** function under Homoeopathy, reflecting a balanced and well-distributed AYUSH infrastructure with strong emphasis on primary-level healthcare delivery across Kannur district.

Figure 2.5: Details of Facilities

2.6 Health Facilities in Urban and Rural Areas

In Kannur District, AYUSH facilities are well-distributed across urban and rural areas, reflecting a strong focus on rural healthcare. Of the total 209 facilities—106 ISM and 103 Homoeopathy—the majority are located in rural areas, with 87 ISM and 84 Homoeopathy institutions serving the rural population, while 19 ISM and 19 Homoeopathy are in urban centers. Primary healthcare is strongly supported through Ayushman Arogya Mandirs, Government Dispensaries, and Primary Health Centres, ensuring wide accessibility. Specialized institutions like SCPHHC, GATD, and the Ayurveda Medical College further enhance service delivery. Overall, the distribution demonstrates effective planning, broad outreach, and a people-centric approach to holistic AYUSH healthcare in both urban and rural regions.

Figure 2.6: Total AYUSH facilities in Urban and Rural Areas

2.7 Hospital Details based on Bed Strength

2.7.1 Bed Strength in Hospitals under ISM & Homoeopathy Department

The AYUSH hospital infrastructure in Kannur district comprises **13 Government hospitals** functioning under ISM and Homoeopathy, with a total bed strength of **361 beds**, supporting inpatient healthcare services. ISM operates **11 hospitals with 326 beds**, including hospitals of varying capacities ranging from less than 10 beds to 100-bedded institutions, reflecting a strong inpatient care base. Homoeopathy manages **2 hospitals with 35 beds**, providing focused inpatient support. Overall, the distribution of bed strength indicates a comparatively strong inpatient care capacity in Kannur district, with ISM contributing the major share.

BED STRENGTH IN HOSPITALS UNDER ISM & HOMOEOPATHY DEPARTMENT - KANNUR DISTRICT

Sr	Hospital number	Hospital	Total bed strength
1	Govt. Hospital (6 Bedded)	1	6
2	Govt. Hospital (10 Bedded)	4	40
	Govt. Hospital (20 Bedded)	1	20
3	Govt. Hospital (25 Bedded)	1	25
4	Govt. Hospital (30 Bedded)	4	120
5	Govt. Hospital (50 Bedded)	1	50
6	Govt. Hospital (100 Bedded)	1	100
	Grand Total	13	361

Figure 2.7.1: Bed Strength in Hospitals under ISM & Homoeopathy Department

2.7.2 Bed strength in Medical College Hospital

In addition to district and taluk-level hospitals, Kannur district is supported by an **Ayurveda Medical College Hospital** under ISM, with a sanctioned bed strength of **252 beds**. This collegiate hospital significantly strengthens tertiary-level AYUSH inpatient care, supports medical education and training, and serves as a major referral centre within the district.

Table 2.7.2: Bed strength in Medical College Hospital

Sl no	Stream	Number of Collegiate Hospital	Number of Beds
1	Ayurveda	1	252

2.8 Human resource Profile

2.8.1 HR under ISM & DH

2.8.1.1 Availability of Medical Professionals

In **Kannur District**, the AYUSH sector is supported by a total of **266 medical professionals** across ISM and Homoeopathy, including regular and program-based positions. ISM has **145 staff** while Homoeopathy has **121**, covering key roles such as District Medical Officers, Hospital Superintendents, Chief Medical Officers, and Medical Officers. Additional support is provided through **NHM and NAM Medical Officers**, ensuring strong outreach and service delivery at the primary and community levels.

Figure 2.8.1.1: Medical Professionals under ISM & DH

2.8.1.2 Availability of Paramedical, Administrative, Ministerial & other posts Sanctioned in ISM & DH

In Kannur District, the AYUSH system is supported by a total of 476 sanctioned posts across paramedical, administrative, ministerial, and other categories. ISM has 339 posts, with a strong paramedical workforce of 230, while Homoeopathy has 141 posts, including 87 paramedical staff. The inclusion of administrative and ministerial personnel along with other supporting staff ensures smooth management and efficient functioning of all facilities. This well-structured support system strengthens service delivery and enhances the overall effectiveness of AYUSH healthcare in the district.

Figure 2.8.1.2 Details of Paramedical, Administrative, Ministerial & other posts Sanctioned in ISM & DH

2.8.2 HR under DAME

The Ayurveda Medical College in Kannur further strengthens the district's AYUSH human-resource profile with dedicated medical officers, teaching faculty, and supporting staff. This academic infrastructure enhances tertiary care services, medical education, and capacity building within the district AYUSH system.

Table 2.8.2: Human Resource under DAME

Department	Medical officer	Teaching staff	Other staff	Total
ISM	2	59	78	139

2.9 Beneficiary Details

2.9.1 Beneficiary details under hospitals in ISM & DH

. ISM records an average monthly OPD attendance of 2192 patients, while Homoeopathy reports 3645 OPD visits. Inpatient services show an average of 62 monthly admissions in ISM and 36 in Homoeopathy. These figures indicate sustained utilisation of both systems and underscore their collective contribution to strengthening AYUSH healthcare service delivery.

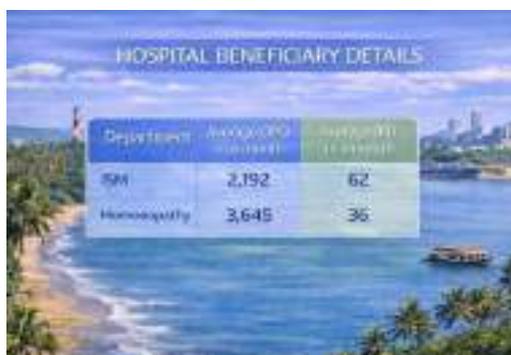

Figure 2.9.1 Hospital beneficiary details

2.9.2 Beneficiary details under Dispensaries

The average outpatient attendance at AYUSH dispensaries in Kannur district reflects a average monthly OPD load of ISM & homoeopathy Dispensaries are **937 & 807 patients**

respectively, indicating strong utilisation of dispensary-level services and their critical role in delivering accessible primary healthcare across the district.

Figure 2.9.2 Dispensary beneficiary details

2.9.3 Beneficiary details under APHC

Ayush Primary Health Centres (APHCs) in Kannur district average monthly OPD attendance of **ISM & Homoeopathy 902 & 1078** patients respectively, highlighting their significant contribution to decentralised AYUSH healthcare delivery and community-based preventive and curative services.

Figure 2.9.3 APHC beneficiary details

2.9.4 Beneficiary details under DAME

The Ayurveda Medical College Hospital in Kannur records a high average monthly OPD and IPD attendance, reflecting its role as a tertiary referral centre and a key provider of specialised AYUSH healthcare and medical education services in the district.

Table 2.9.2 Beneficiary details under DAME

Directorate	Monthly Average OPD	Monthly Average IPD
DAME	6471	184

2.10 Public Health Programmes

Kannur district implements a wide range of public health programmes under ISM, Homoeopathy, and the National AYUSH Mission. These initiatives address preventive, promotive, curative, rehabilitative, and palliative healthcare needs, with special focus on diabetes care, geriatric services, maternal and child health, mental health, lifestyle disease management, palliative care, and community wellness. The effective implementation of these programmes strengthens AYUSH integration with public health systems and enhances healthcare outreach across the district.

2.10.1: Projects in Indian System of Medicine Department

- **Jeevani** – An Ayurvedic diabetes-care programme focusing on holistic management through medicine, yoga, diet, and counselling.
- **Punarnava** – Provides Ayurvedic rehabilitation for post-stroke patients to improve recovery and quality of life.
- **Research Cell for Indian System of Medicine Sports Ayurveda** – Applies Ayurveda in sports medicine for injury prevention, treatment, and performance enhancement.
- **Snehadhara** – A statewide Ayurvedic palliative care programme offering home-based support for bedridden and terminally ill patients.
- **Koumarabhrithya** – Offers Ayurvedic paediatric care for infections, nutritional issues, developmental problems, and post-COVID complications.
- **Prasoothithanthra** – Provides Ayurvedic gynaecology and obstetric services supporting women's reproductive and maternal health.

- **Nature Cure Hospital & Yoga Units** – Promotes drug-free lifestyle modification using yoga, naturopathy, diet, and holistic therapies.
- **Geriatric** - To improve Health and QOL of Geriatric patients (Above 60 yrs with low income) in IPD and long-term settings. Project focuses on Locomotor Degenerative disorders, Neurological diseases and Comorbidity management.
- **Manasikam**- Project focuses on Psychiatric problems like, Anxiety disorders, Depression, Substance Abuse disorders, Schizophrenia, Delusion, Affective disorders, Insomnia, Neurotic stress related disorders, Behavioural disorders, Personality disorders, Mental retardation, Psychological developmental disorders etc.
- **Panchakarma** -To provide Authentic Panchakarma Services to patients through Qualified Panchakarma therapists.
- **Ksharasoothra** - Provides Scientific and effective management of Piles, Fistula, Fissure and other Anorectal diseases through Ayurveda. Also creates awareness among the public about Anorectal diseases and its prevention.

2.10.2: Projects in Homoeopathy Department

- **Seethalayam** – A women-focused homeopathy project providing treatment and counselling, especially for domestic-violence-affected and emotionally distressed women.
- **Punarjani** – A de-addiction project offering homeopathic treatment and counselling for alcohol, drug, and tobacco dependence.
- **Janani** – An infertility care project providing holistic homeopathic management for male and female infertility with supportive diagnostics.
- **Sadgamaya** – A child and adolescent wellness project addressing behavioural, emotional, learning, and developmental challenges.
- **Ayushmanbhava** – A lifestyle-disease programme providing homeopathy-based care, counselling, and yoga support for NCD management.

- **Palliative Care** – A comprehensive home-based and institutional palliative service for bedridden, terminally ill, and chronic-disease patients.
- **Rapid Action Epidemic Control Cell Homoeopathy (RAECH)**- Implementing preventive measures, strengthening early detection and treatment, training doctors, and supporting public health responses to communicable diseases across the state.

2.10.3: Projects in National Ayush Mission

- **National Programme for Prevention & Management of Osteoarthritis & Musculoskeletal Disorders** - AYUSH-based screening, treatment, lifestyle modification and rehabilitation services for osteoarthritis and other MSDs through HWCs and AYUSH institutions.
- **VAYO MITRA – AYUSH Geriatric Healthcare Services** - Promotes healthy ageing and provides preventive, promotive and therapeutic AYUSH care for senior citizens through community and clinic-based services.
- **AYURVIDYA – Healthy Lifestyle Promotion for School Children** - Creates awareness among school children on hygiene, nutrition, yoga, medicinal plants and AYUSH-based healthy living practices.
- **AYUSH Mobile Medical Unit (AMMU)** - Provides doorstep AYUSH healthcare, screening and IEC services to underserved and tribal populations in remote and inaccessible areas.
- **KARUNYA – AYUSH Palliative Services** - Delivers compassionate, holistic palliative and supportive care for patients with chronic and life-limiting illnesses through AYUSH interventions and home-based care.
- **SUPRAJA – AYUSH Maternal & Neonatal Healthcare** - Ensures holistic antenatal and postnatal care using AYUSH regimens, yoga, nutrition counselling and neonatal support to improve maternal-child outcomes.
- **Allergy & Asthma Special Clinic (Homoeopathy)** - Provides comprehensive Homoeopathic care for allergy, asthma and chronic respiratory diseases through OP/IP services and community outreach.

- **Ayurkarma** - Integrates Panchakarma therapies into rural Government Ayurveda Dispensaries to ensure affordable access to specialised Ayurvedic procedures.
- **Mental Health Speciality Clinics in AYUSH** - Offers Ayurveda and Homoeopathy-based mental health care for depression, anxiety, behavioural problems and women- and child-specific psychological needs.
- **AYUSH Infertility Clinics** - Provides holistic infertility management for men and women using Ayurveda along with counselling and lifestyle guidance.
- **Drishti – AYUSH Eye Care Programme** - Focuses on early detection and non-surgical management of eye diseases while preventing visual disorders through screening and affordable treatment.
- **Physiotherapy Units in Government AYUSH Hospitals** - Establishes physiotherapy services in AYUSH hospitals to support rehabilitation and chronic disease care.
- **Sports Ayurveda Project** - Provides Ayurveda-based injury prevention, treatment and performance enhancement support for athletes.
- **MPHW Support for Ayushman Arogya Mandirs** - Deploys trained Multi-Purpose Health Workers to strengthen AYUSH primary care, outreach, NCD care and public health services.
- **Arunima – Anaemia Eradication through Ayurveda** - Implements Ayurvedic screening, counselling and treatment programmes to reduce nutritional anaemia, especially among vulnerable populations.
- **AYUSH Telemedicine – Strengthening & Expansion** - Expands AYUSH teleconsultation services through the e-Sanjeevani platform with State-level telemedicine hubs.
- **Homoeopathy Thyroid Special Clinic** - Provides community-based screening and holistic Homoeopathic management of thyroid disorders with special focus on women.

- **Training & Capacity Building for AYUSH HR** -Enhances skills and service quality of AYUSH professionals through structured clinical, administrative and digital health training.
- **Yoga Wellness Centres** - Promotes Yoga and Naturopathy-based lifestyle modification and NCD prevention through dedicated wellness centres.
- **NCD Management through AYUSH** - Provides integrated AYUSH-based prevention, screening and management of major non-communicable diseases across the State.
- **Unani Therapy Units** -Provides specialised Regimental therapies for neuromuscular and musculoskeletal conditions within the public health system.
- **IEC Activities & Public Awareness Initiatives** - Strengthens public awareness on AYUSH facilities, programmes and achievements through newsletters, campaigns and participation in events.
- **AYUSH Gram** - Promotes AYUSH-based lifestyle, herbal awareness, yoga and preventive healthcare practices at the village level through community-based initiatives.

2.11 Standardisation of Institutions

Quality assurance initiatives in Kannur district indicate systematic adoption of accreditation standards across AYUSH institutions. A total of **17 institutions** have achieved **NABH Entry-Level Certification**, while **57 institutions** are accredited as **Ayushman Arogya Mandir-AYUSH (AAM-A)**. Both ISM and Homoeopathy institutions actively participate in standardisation processes, reflecting strong commitment to quality improvement, patient safety, and service excellence.

Figure 2.11: Standardisation of Institution

2.12 Digital Health

- ISM-eHospital – A digital hospital management system currently implemented in 11 AYUSH institutions for streamlining patient care, records, and hospital services.
- AHIMS (Ayush Hospital Information Management System) – A comprehensive AYUSH health-data and service-delivery platform implemented in 53 institutions to support digital health transformation.

Figure 2.12: Digital health

2.13 Laboratory & Diagnostic Facilities

Kannur district has a total of **6 laboratory facilities**, with **4 laboratories under ISM** and **2 laboratories under Homoeopathy**, ensuring access to essential diagnostic and investigative services across AYUSH institutions.

Figure 2.13: Details of Laboratory facilities

2.14 Financial Expenditure

The financial performance of AYUSH services in Kannur district reflects timely fund allocation, release, and effective utilisation under both ISM and Homoeopathy during 2023–24 and 2024–25. The expenditure pattern supports uninterrupted service delivery, infrastructure maintenance, programme implementation, and human-resource management, indicating sound financial governance within the district AYUSH system.

Figure 2.14: Financial Expenditure

Chapter 3

DEPARTMENT OF INDIAN SYSTEMS OF MEDICINE

FACILITIES & SERVICES

3.1 Introduction

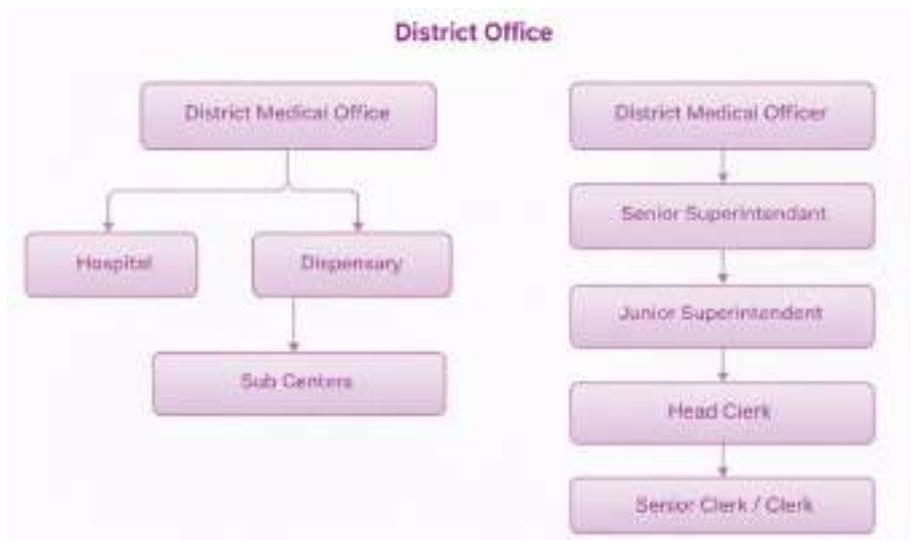

Kannur District, located in the northern part of Kerala along the Malabar Coast, is distinguished by its diverse geographical features encompassing coastal belts, fertile midlands, laterite hills, riverine systems, and the forested eastern highlands adjoining the Western Ghats. This varied physiography, coupled with a tropical monsoon climate, significantly shapes the district's environmental conditions and health profile. The population of Kannur exhibits a high burden of lifestyle-related disorders, musculoskeletal ailments, chronic respiratory diseases, dermatological conditions, metabolic disorders, and geriatric health concerns, in addition to recurrent seasonal illnesses linked to monsoon fluctuations. Occupational health challenges are prominent among workers in agriculture, fisheries, handloom, coir, and small-scale industries, as well as among the district's substantial migrant workforce. Kannur is also exposed to multiple disaster risks, including floods, landslides in the eastern hilly tracts, coastal erosion, cyclonic disturbances, and climate-induced health vulnerabilities such as water-borne and vector-borne diseases, heat-related illnesses, and post-disaster psychological stress. In this context, the Indian Systems of Medicine — encompassing Ayurveda, Uanani, Siddha, and other AYUSH systems — play a vital role in strengthening preventive healthcare, managing chronic conditions, supporting disaster preparedness and recovery, and promoting community-based wellness, thereby complementing the modern public health system and contributing significantly to the district's health resilience and sustainable development.

3.2 Administration

The District Administrative center is located at Civil Station, Kannur. District Medical Officer along with the supporting staff supervises and co-ordinate all ISM Health care activities in the district. Carry out all administrative responsibilities like Planning and implementation of ISM Projects and Programs, Management of Health Facilities, HR Administration, Financial

Administration, Monitor Public Health and Community Outreach activities, Regulate Quality control duties, Data collection and reporting, Co-ordination and inter departmental liaison, Patient welfare and Grievance redressal, Emergency and special duty management.

3.3 Infrastructure Profile of the District

Kannur district has 105 Institutions under ISM department including 11 Hospitals 62 Dispensaries 36 Aayushman Arogya Mandir (AYUSH) and 31 NHM Dispensaries. District has a Tribal Hospital at Aralam and a Tribal Dispensary at Kannavam. Dispensaries functions as a primary level health facility providing outpatient care, preventive services, health education and basic pharmacy support. Hospitals function as secondary/tertiary level institutions providing inpatient, outpatient diagnostic, therapeutic and preventive services. There is a Sidda unit in district attached to District Ayurveda Hospital Kannur. In addition, 12 institutions are NABH-accredited. Six institutions from the district bagged KAYAKALP award in various categories.

3.3.1 Details of Facilities

The district has a total of 105 ISM (Indian System of Medicine) health facilities, ensuring wide coverage of AYUSH healthcare services. This includes one District Hospital serving as the main referral centre. There are ten Government Ayurveda Hospitals providing inpatient and outpatient services, supported by 26 Government Ayurveda Dispensaries delivering primary Ayurveda care.

To strengthen preventive and promotive healthcare, 36 Ayushman Arogya Mandirs are functioning across the district. In addition, the primary healthcare network comprises 27 Ayush Primary Health Centres (Ayurveda), three Ayush Primary Health Centres (Unani), and one Ayush Primary Health Centre (Siddha). Special healthcare access for tribal and remote populations is ensured through one Government Ayurveda Tribal Dispensary.

3.3.3 Health Facilities in Urban and Rural Areas

The district has a total of 105 ISM health facilities, of which 18 are located in urban areas and 87 in rural areas, reflecting a strong emphasis on providing healthcare services in rural regions.

The network includes one District Hospital, which is situated in an urban area. There are 10 Government Ayurveda Hospitals, with 4 located in urban areas and 5 in rural areas and one Tribal Hospital. A total of 62 Government Ayurveda Dispensaries, including Ayushman Arogya Mandirs, are functioning across the district, of which 9 are urban and 53 are rural.

In addition, the district has 31 Ayush Primary Health Centres, with 4 in urban areas and 27 in rural areas. Special healthcare access for tribal populations is ensured through one Government Ayurveda Tribal Dispensary, which is located in a rural area.

Table No: 3.3.3: Health Facilities in Urban and Rural Areas

3.4 Human Resource Profile of the District

The Indian Systems of Medicine services in the district are supported by a structured workforce comprising medical, paramedical, administrative, and support staff.

The medical cadre includes positions such as District Medical Officer, Chief Medical Officers, and Medical Officers in specialities like Ayurveda (General), Visha, Netra, Marma, Panchakarma, Siddha, Nature Cure, and Koumarabhryyam. Paramedical staff consist of nurses, pharmacists, lab technicians, therapists, nursing assistants, and attendants, including Siddha attendants.

In addition, the system is supported by administrative personnel such as senior and junior superintendents, head clerk, clerks, clerk-cum-typist, typist, and driver. Essential support staff, including office attendants (peons), cooks, sanitation workers, and part-time sweepers, also form an integral part of the workforce, ensuring smooth functioning of healthcare institutions under the Indian Systems of Medicine sector.

3.4.1 Availability of Medical Professionals

The district has a total of 145 medical professional posts under the Indian System of Medicine (ISM), National AYUSH Mission (NAM), and National Health Mission (NHM). Out of these, 139 posts are filled, while 6 posts remain vacant.

Under the ISM cadre, 94 posts have been sanctioned, of which 88 posts are filled, leaving 6 vacancies. The cadre includes one District Medical Officer and one Hospital Superintendent, both of which are fully filled. All seven Chief Medical Officer posts are also occupied. Among the ten Senior Medical Officer posts, nine are filled with one vacancy, while five Specialist Medical Officer posts include four filled positions and one vacancy. Of the 70 Medical Officer posts, 66 are filled, resulting in four vacancies.

Under the NAM and NHM schemes, a total of 51 Medical Officer posts have been sanctioned, comprising 36 posts under NHM and 15 posts under NAM.

Table No: 3.4.1: Details of Medical Professionals under the ISM /NAM/NHM in the District

3.5 Beneficiary Details

The following tables present the beneficiary coverage of ISM health facilities, categorised into Hospitals and Dispensaries. The data reflects the average patient load handled by each institution over a month, indicating service utilisation and capacity.

3.5.1 ISM Hospitals

The district's hospitals collectively manage a total of 22,556 OPD visits, 462 IPD admissions per month, and a combined bed strength of 316, ensuring accessible healthcare for the population. The District Ayurveda Hospital (DAH) Kannur handles the highest load, with 7,323 OPD visits and 232 IPD admissions supported by 100 beds. Other major facilities include GAH Payyannur with 3,419 OPD and 50 IPD patients, and TAH Thaliparamb with

1,680 OPD and 71 IPD patients per month. Smaller hospitals such as GAH Mattool and GAH Cherukunnu manage fewer patients, while GAH Pariyaram and GAH Pinarayi provide primarily outpatient services. Overall, the hospital network provides comprehensive care across the district.

Detailed beneficiary details in the Hospitals are attached as annexure 3.5.1

3.5.2 ISM Dispensaries

The average monthly OPD attendance of Government Ayurveda Dispensaries demonstrates a high level of service utilization and strong public confidence in Ayurveda-based healthcare services. With most institutions recording OPD figures between 700 and 1,200 patients per month, the data reflects consistent patient inflow and the effective functioning of Ayurveda dispensaries across urban, semi-urban, and rural areas. Overall, the data highlights a robust, well-distributed, and efficiently functioning network of Government Ayurveda Dispensaries delivering accessible, affordable, and acceptable healthcare services. Continued strengthening of infrastructure, availability of medicines, human resources, and community outreach initiatives will further enhance service utilization and improve health outcomes through the Ayurveda system.

Detailed beneficiary details in the Dispensaries are attached as annexure 3.5.2

3.5.3 APHC dispensaries

The average monthly OPD attendance of AYUSH institutions indicates strong service utilization and sustained public confidence in traditional systems of medicine. Ayurveda institutions account for the majority of patient load, with most centres recording OPD figures above 1,000 per month, reflecting consistent patient inflow and effective primary healthcare delivery. Unani and Siddha institutions also show steady utilization, complementing Ayurveda services and enhancing healthcare access. The total average monthly OPD of 27,965 patients highlights the significant role of AYUSH systems in public healthcare. Overall, the data reflects a well-distributed and efficiently functioning AYUSH network delivering accessible, affordable, and acceptable healthcare services.

Detailed beneficiary details in APHC are attached as annexure 3.5.3

3.6 ISM Department Plan Projects

The Department of ISM conducts a broad spectrum of public health programmes and speciality clinics aimed at addressing diverse health needs within the community. The support of the National AYUSH Mission is also on hand for these projects.

3.6.1 Jeevani

Jeevani focuses on the holistic management of Type-2 Diabetes Mellitus through Ayurvedic medicines, yoga, dietetics, and counselling. The project aims at improving glycaemic control, preventing complications, and enhancing quality of life. Implemented in multiple districts, it has demonstrated cost-effective outcomes with significant improvement in patient well-being and lifestyle modification.

Table 3.6.1: Jeevani Annual Report (2022–2025)

Sl No	Year	Expenditure	No. of patients
1	2022-23	5.79 L	1098

3.7 Standardisation of Institutions

3.7.1 NABH - Entry-level Accreditation

National Accreditation Board for Hospitals & Healthcare Providers (NABH) provides a standardized quality framework to enhance patient safety and service excellence in healthcare institutions. In Kannur District, NABH standards are being adopted in ISM institutions to strengthen clinical governance, documentation, and patient-centric service delivery, thereby improving overall quality of care.

Table 3.7.1: Table of NABH entry-level accredited institutions

3.7.2 Kayakalp

The Kerala AYUSH Kayakalp Award is a state-level initiative under the Department of AYUSH, Government of Kerala, designed to promote cleanliness, hygiene, and quality improvement in AYUSH healthcare institutions. The program recognizes hospitals and dispensaries that maintain high standards in sanitation, waste management, infection control, and patient safety.

It encourages AYUSH facilities to adopt sustainable and eco-friendly practices while providing a clean, safe, and healing environment for patients. The award also supports the objectives of the Swachh Bharat Mission and enhances the overall image and service quality of AYUSH institutions across Kerala.

Table 3.7.2: List of Institutions which have received the Kayakalp award

3.8 Ayushman Arogya Mandir - Ayush

Ayushman Arogya Mandir - Ayush (AAM-A) have been established to strengthen comprehensive primary healthcare delivery through the AYUSH systems of medicine, in alignment with national health priorities. With the assistance of the National AYUSH Mission (NAM), Kerala, existing Government Dispensaries institutions are being upgraded as AAMA to provide promotive, preventive, curative healthcare services. These centres focus on wellness-based interventions, lifestyle modification and Yoga adoption into the public health system. The initiative aims to enhance accessibility, quality, and continuity of AYUSH healthcare services at the community level, while ensuring standardized service delivery across the State.

List of Institutions upgraded as Ayushman Arogya Mandir (AAM-A) are attached as Annexure 3.8.

3.9 Digital Health

3.9.1 NextGen e-Hospital and ABDM activities

NextGen e-Hospital system is implemented by the Department of Indian Systems of Medicine (ISM), Government of Kerala, as part of the state's digital governance and healthcare reform initiatives. Introduced to address long-standing challenges such as overcrowding, manual workflows, and patient waiting time in government AYUSH institutions, the system represents an upgraded, cloud-based Hospital Management Information System fully compliant with the Ayushman Bharat Digital Mission (ABDM).

The NextGen e-Hospital integrates key digital modules including OPD/IPD management, ABHA-based registration, Scan & Share self-registration, e-prescriptions, billing, laboratory and pharmacy services, inventory management, and real-time data capture. Its implementation has significantly improved service efficiency, transparency, coordination among departments, and accuracy of patient records, while reducing registration time from 40–50 minutes to approximately 5 minutes. As of the study period, 240 ISM institutions were operational on the platform, with others in advanced stages of onboarding, and several institutions recognised nationally as ABDM model facilities. The NextGen e-Hospital system has been implemented across multiple districts with varying degrees of coverage. Kannur has 11 institutions functioning as e-Hospitals.

Figure 3.9.1 NextGen e-Hospital and ABDM activities

3.10 Health Infrastructure Development

The ISM department undertakes comprehensive health infrastructure development activities that include the purchase of medicines, furniture and essential equipment and the execution of various civil works required for facility improvement. These initiatives are supported through multiple funding sources such as National Ayush Mission (NAM), Local Self Government Departments (LSGD), and also from MLA, MP funds, ensuring sustained enhancement of healthcare delivery under the traditional systems.

A total of 44 projects have been completed in the district under ISM/AYUSH facilities, with an estimated total expenditure of ₹1.07 crore funded through PLAN allocations. The works included maintenance and renovation of hospitals and GADs, supply of napkin incinerators, fire extinguishers, bio-waste management equipment, furniture, AC fitting, and solar panels. Major renovation projects include GAD Muzhappilangad and GAD Keezhallur (₹10,00,000 each), GAD Chengom (₹5,00,000), and GAH Payyanur Hospital (₹3,16,000). Equipment supply projects improved hygiene and safety across multiple facilities, including napkin incinerators, bio-waste equipment, fire extinguishers, and solar panels.

The ongoing health infrastructure development under the PLAN scheme in the district includes several significant projects with a total approved fund of ₹115,313,000. Key PLAN-funded initiatives comprise the construction of a new hospital building at GAH Pinarayi (₹45.86 crore), new yoga halls at GAD Keezhallur (₹1,000,000), GAD Chengom (₹500,000), and GAD Iritty (₹403,000), as well as the construction of new hospital buildings at GAH Pariyaram (₹44.30 crore) and GAD Payam (₹23.25 crore). These projects aim to expand hospital capacity, provide modern facilities, and improve healthcare access across the district.

3.11 Financial Expenditure

During the financial years 2023–24 and 2024–25, the programme demonstrated strong financial management and effective fund utilisation. In 2023–24, an amount of ₹193.48 lakhs was allocated, out of which ₹131.46 lakhs was released. The actual expenditure amounted to ₹130.04 lakhs, achieving an excellent utilisation rate of approximately 98.92% of the released funds. In 2024–25, ₹184.33 lakhs was allocated and ₹120.69 lakhs was released. The

expenditure incurred stood at ₹128.73 lakhs, reflecting utilisation beyond the released amount during the period, indicating efficient financial planning and timely settlement of committed expenditures.

Overall, the financial performance reflects prudent fiscal management, timely execution of programme activities, and a strong commitment to optimal utilisation of available resources in alignment with programme objectives.

Table 3.11: Financial Expenditure

Year	Allocated amount (in Lakhs)	Released Amount(in Lakhs)	Expenditure
23-24	193.48361	131.46343	130.03723
24-25	184.32812	120.68848	128.72969

3.12 Other Activities

3.12.1 Ayurveda Day

On the occasion of the 10th National Ayurveda Day, a proclamation march was held on 22.09.2025 with the participation of about 220 employees. On 23.09.2025, on the occasion of Ayurveda Day, various institutions organized medical camps, awareness programs, poster display, distribution of medicinal seedlings, display and awareness of medicinal food items, quiz competitions and yoga training programs.

Figure 3.12.1 Ayurveda Day

3.12.2 Yoga Day

National Yoga Day Celebrated on 21 June 2025. As part of the 11th Yoga Day celebrations, chair yoga training was conducted for OP patients at Kannur District Ayurveda Hospital. And a yoga class was organized for SPC cadets at the Thottada Technical School. Yoga clubs were inaugurated in various institutions and yoga training programs and follow-up programs were organised for people ranging from children to the elderly.

Figure 3.12.2 Yoga Day

3.12.3 Giri Parvam

Free Ayurveda Medical Camp at Girivargga Nagar, jointly organized by the Kannur District Panchayat and the Department of Indian Systems of Medicine. Giri Parvam is a medical outreach program in which the medical team of the Indian Systems of Medicine visits all 41

tribal settlements in the district, conducting comprehensive specialty-based medical camps. Through systematic examination, necessary medicines are provided, and follow-up treatment is arranged at the nearest Ayurveda dispensaries. This medical camp, giving special attention to women, children, and men in Girivargga Nagar, has become highly beneficial to the tribal community, ensuring accessible and continuous healthcare support.

Figure 3.12.3 Giri Parvam Medical camp

3.12.4 Kottiyoor Temporary Dispensary

Ayurveda dispensary has been functioning for about 10 years in connection with the Kottiyoor Vaisakha Mahothsavam. The dispensary services are available from 9 am to 5:00 pm. The department provides a medical officer, a staff, essential medicines, equipment and furniture. The Devasam provides the necessary facilities for the functioning of the OP. The service is available to the devotees during the festival, as well as to the employees of various departments serving there and the locals. This OP is very effective for preventing infectious diseases and other water-borne diseases such as skin diseases along with monsoon diseases.

Figure 3.12.4 Kottiyoor Temporary Dispensary

3.12.5 AMR Awareness Activities

Various activities were carried out in the district in connection with AMR awareness week starting from 18/12/25 to 24/12 25 Pledges and poster displayed in all institutions. Awareness classes conducted at Anganwadi centres, MGNREGS groups, and Yoga clubs. Also, Awareness programmes conducted for Pakalveedu, Anganwadi teachers' groups, Khadi Board workers, Schools, and Kudumbashree units. An Awareness video created by Staff of GAD Malapattam. The total number of beneficiaries of the awareness class are 4979 for the year 2025.

Figure 3.12.5 AMR Awareness Activities

3.12.6 Epidemic cell

Actively involved in various epidemic preventive activities. It focuses on organising, coordinating and monitoring epidemic preventive activities. To coordinate and monitor activities 11 taskforce units formed (Assembly constituency wise). They conduct medical camps and awareness programmes throughout the district.

3.12.7 Kerala School Games 2025

The ISM Department actively participated in the School Games by providing healthcare support and promoting wellness among student participants. Ayurveda medical teams were deployed at event venues to offer first aid, manage minor sports injuries, and ensure immediate care when required. The department's presence helped ensure the smooth conduct of the games and contributed to the well-being of all participants

Figure 3.12.7 Kerala School Games 2025

3.12.8 Ente Keralam

Activities conducted as part of the Government's Ente Keralam Programme

Figure 3.12.8 Ente keralam

3.12.9 Hajj Health desk

Medical teams were deployed at Mattannur International Airport to provide health support and preliminary medical assistance to Hajj pilgrims during the season.

3.13 Conclusion

The District Profile of Kannur presents a comprehensive and well-integrated model of public healthcare delivery under the Department of Indian Systems of Medicine, reflecting both the scale and quality of services provided across the district. With its diverse geography, evolving disease burden, occupational health challenges, and vulnerability to climate-related risks, Kannur requires a resilient and community-oriented healthcare system—one that the ISM network has effectively established and sustained. The district has developed an extensive institutional infrastructure comprising **105 ISM health facilities**, including hospitals, dispensaries, Ayushman Arogya Mandirs, AYUSH Primary Health Centres, and tribal health units, ensuring equitable access to traditional healthcare services across urban, rural, and tribal populations. Strong inpatient capacity, high outpatient utilisation, and the wide geographical spread of services demonstrate the depth of community trust and reliance on ISM healthcare. The district's robust human resource structure—with high levels of post occupancy among medical, paramedical, administrative, and support staff—ensures continuity of services and institutional stability. The successful implementation of multiple speciality programmes such as **Jeevani, Punarnava, Snehadhara, Geriatric Care,**

Koumarabhrithya, Prasoothithanthra, Ksharasutra, Panchakarma, Yoga, and Nature Cure reflects the Department's ability to respond to the complete spectrum of health needs from preventive to rehabilitative care. Significant progress in **digital health transformation**, particularly through the rollout of the **NextGen e-Hospital system** and ABDM compliance, has greatly enhanced efficiency, transparency, patient experience, and data governance. Parallel investments in infrastructure development—both completed and ongoing—supported through PLAN, NAM, LSGD, and other public funding sources, have strengthened institutional capacity and service quality across the district. Prudent financial management with high fund utilisation rates, strong quality assurance mechanisms through **NABH accreditation** and **Kayakalp awards**, and the steady expansion of **Ayushman Arogya Mandirs** underscore the Department's commitment to excellence, accountability, and patient safety. Beyond institutional services, the Department's proactive role in public health through epidemic control, AMR awareness, tribal outreach, festival health services, school health programmes, and large-scale community engagement initiatives highlights its deep integration with district health priorities. Overall, the Indian Systems of Medicine healthcare system in Kannur stands as a mature, people-centric, and future-ready public health framework—blending traditional medical wisdom with modern governance, digital innovation, and community participation—thereby making a significant contribution to Kerala's vision of inclusive, resilient, and sustainable healthcare development.

Chapter 4

DEPARTMENT OF HOMOEOPATHY FACILITIES & SERVICES

4.1 Introduction

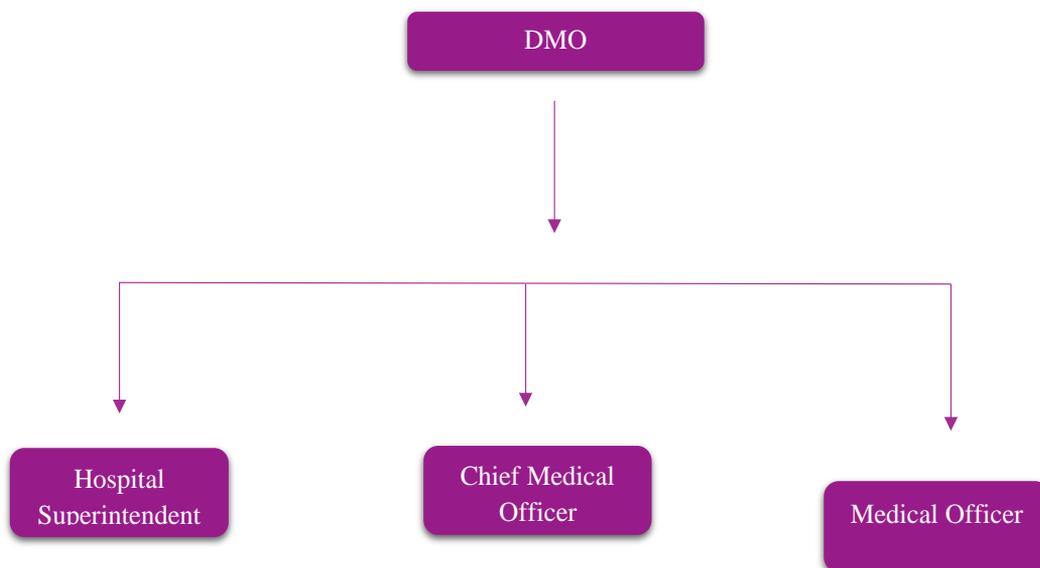

Kannur District, one of the larger districts in Kerala in terms of geographical extent, is characterised by a diverse terrain comprising coastal plains, river basins, midlands, and forested highlands. The district has a strong tradition of public participation in health and social development and exhibits a high level of health awareness among the population.

The geographical diversity and climatic conditions of Kannur present varied public health challenges, including coastal erosion, monsoon flooding in low-lying areas, and vector-borne diseases in riverine regions. Occupational health issues related to agriculture, fisheries, and traditional industries also contribute to the district's health profile. In this setting, the Department of Homoeopathy in Kannur District contributes significantly to addressing region-specific health concerns through holistic, preventive, and patient-centered care, while strengthening preparedness for disaster-related and climate-sensitive health risks.

4.2 Administration

In Kannur District, the Department of Homoeopathy administration is entrusted with managing and supervising the efficient functioning of all homoeopathic healthcare institutions under the department. Administrative priorities include coordinated delivery of services, supervision of medical and administrative personnel, timely supply of essential medicines, and maintenance of infrastructure and equipment. Continuous monitoring of service performance, implementation of government policies and programmes, and compliance with quality and safety standards form essential components of administration. Periodic inspections, performance reviews, and corrective actions are undertaken to improve patient care and institutional efficiency. Through these sustained measures, the department seeks to strengthen homoeopathic healthcare services in the district.

4.3 Infrastructure Profile of the District

In Kannur District, the Department of Homoeopathy operates a total of 103 government health institutions, forming a strong and accessible homoeopathic healthcare network. The district has 2 Government Homoeopathy Hospitals with a sanctioned bed strength of 35 providing inpatient and outpatient services. Additionally, 28 Government Homoeopathy Dispensaries offer primary homoeopathic care across various urban and rural areas. The service delivery is further strengthened by 21 Ayushman Arogya Mandirs, 50 Ayush primary health Care Centres and 2 SCPHHC, which focus on improving healthcare access for underserved and vulnerable populations. Through this extensive institutional network, the Department of Homoeopathy ensures comprehensive, equitable, and community-oriented healthcare services throughout Kannur District.

Out of these, 6 institutions are NABH-accredited and 14 have been upgraded to Government Model Homoeopathy Dispensaries. Digital transformation has been achieved in 52 institutions through AHIMS 2.0.

4.3.1 Details of Facilities

Table No: 4.3.1: Details of Homoeopathic health facilities

4.3.2 Health Facilities in Urban and Rural Areas

Out of the 103 homoeopathic health facilities functioning in the district, 13 are located in urban areas and 90 in rural areas, indicating strong rural outreach. The District Homoeopathic Hospital is situated in urban area, while one Govt. Homoeopathy Hospital situated in Tribal Settlement area. Among primary-level institutions (Government Homoeo Dispensaries and Ayushman Arogya Mandirs) 7 are situated in urban areas, 42 are situated in rural areas. 45 of the 50 AYUSH Primary Health Centres are located in rural areas. All 2 SCPHHC are located in rural area. This distribution highlights the department's focus on ensuring accessible homoeopathic healthcare services, particularly in rural regions.

4.3.3 Hospital Details based on Bed Strength

The district has a total of two government hospitals with an overall bed strength of 35 beds. This includes one 25-bedded and one 10-bedded hospital distributed across the district. While each hospital functions with moderate capacity, together they play a significant role in ensuring the availability of inpatient homoeopathic care. These hospitals collectively support the delivery of essential healthcare services, improving access to treatment and strengthening the district's public homoeopathic healthcare system.

Table No: 4.3.4: Hospital Details based on Bed Strength

4.4 Human Resource Profile of the District

The Department of Homoeopathy in Kannur District is supported by a well-structured human resource framework comprising medical, paramedical, administrative, and Class IV staff across Government Homoeopathy institutions, ensuring effective delivery of healthcare services. The majority of sanctioned medical and paramedical posts in Government institutions, including Hospital Superintendents, Chief Medical Officers, Medical Officers and supporting staff, are fully maintained, enabling uninterrupted clinical services. Additional human resources with support from the National AYUSH Mission (NAM) through contractual appointments and programme-based staffing support are being utilized for effective health care service delivery through the hospitals. Overall, the existing human resource availability are optimally utilized to provide a strong foundation for service delivery, with continued efforts underway to address remaining gaps and strengthen institutional efficiency and patient care.

AYUSH Primary Health Centres (APHC) function with a single Medical Officer deployed by the National Health Mission (NHM) on a contract basis, with supporting staff provided by the respective Local Self Government Institutions (LSGIs).

4.4.1 Availability of Medical Professionals

A total of 53 medical professional posts have been sanctioned in the district, and 49 posts are filled. This includes administrative, supervisory, and clinical positions such as District

Medical Officer, Hospital Superintendents, Chief Medical Officers, Medical Officers, and Resident Medical Officers. Service of Medical Officers under NHM and NAM are also being utilized for the health care delivery in the district.

4.5 Beneficiary Details

The following tables present the beneficiary coverage of Homoeopathy health facilities, categorised into Hospitals and Dispensaries. The data reflects the average patient load handled by each institution over a month, indicating service utilisation and capacity.

4.5.1 Hospital

The service delivery performance of Government Homoeopathy hospitals in Kannur district was reviewed based on average monthly outpatient and inpatient attendance and bed strength. Kannur District Homoeo Hospital, with a total bed strength of 25, recorded an average monthly OPD attendance of 6,180 patients and an average IPD of 49 patients, indicating high patient load and optimal utilisation of inpatient facilities. Aralam Farm Government Homoeo Hospital, having a bed strength of 10, reported an average monthly OPD attendance of 1,110 patients and an average IPD of 22 patients, reflecting steady service utilisation commensurate with its capacity. The data indicate effective functioning of both institutions in providing outpatient and inpatient homoeopathic services to the public, with utilisation levels aligned to available infrastructure.

Details of Beneficiary details in Hospitals are attached as Annexure 4.5.1

4.5.2 Dispensaries

The monthly OPD attendance of Government Homoeo Dispensaries reflects steady utilization and growing public confidence in homoeopathic healthcare services. Most

dispensaries report an average monthly OPD ranging between 500 and 1,200 patients, indicating consistent patient inflow and effective delivery of services at the primary care level. Overall, the data underscores a well-distributed and efficiently functioning network of Government Homoeo Dispensaries providing accessible, affordable, and acceptable healthcare services. Continued strengthening of infrastructure, availability of medicines, human resources, and community outreach activities will further enhance service utilization and improve health outcomes through the homoeopathy system.

Details of Beneficiary in Govt Homoeo Dispensaries are attached as annexure 4.5.2

4.5.3 AYUSH PRIMARY HEALTH CENTRE dispensaries & SCP dispensaries

The monthly OPD attendance of AYUSH Primary Health Centres and SCP dispensaries indicates strong utilization and increasing public reliance on AYUSH healthcare services. A majority of the institutions record monthly OPD figures exceeding 1,000 patients, reflecting consistent patient inflow and effective integration of AYUSH services at the primary healthcare level. Overall, the data underscores a well-distributed and efficiently functioning network of AYUSH Primary Health Centres and SCP dispensaries delivering accessible, affordable, and acceptable healthcare services. Continued strengthening of infrastructure, manpower, availability of medicines, and outreach activities will further enhance service utilization and improve health outcomes under the AYUSH system.

Details of Beneficiary in Ayush Primary Health Centre dispensaries & SCP dispensaries are attached as annexure 4.5.3

4.6 Public Health Programmes

The Department of Homoeopathy conducts a broad spectrum of public health programmes and speciality clinics aimed at addressing diverse health needs within the community. The support of the National AYUSH Mission is also on hand for these projects.

4.6.1 Gender Based Projects- Women - Seethalayam

Seethalayam is the first gender-based project of the Department of Homeopathy. The project aims to ensure the mental, physical, and emotional health of women especially domestic violence victims and suggest solutions for the difficulties they face. A unique feature

of this project is that all staff members are women. It provides homeopathic treatment along with individual and family counseling.

Since its inception, Seethalayam has gained immense popularity through its unique operational style, awareness classes, and medical camps. It offers treatment for women facing marital issues, workplace problems, domestic violence, sexual exploitation, anxiety, suicidal tendencies, and depression. Services are also extended to other family members. The project collaborates with the Social Justice Department, Women's Cell, Women's Commission. Monthly visits are conducted to women's prisons and destitute homes.

Objectives:

- To ensure the mental, physical, and emotional security of women.
- To provide knowledge regarding women's rights and laws.
- To facilitate rehabilitation for the destitute and the neglected.

Table 4.6.1: Beneficiary details of Seethalayam project

	Op			Counselling		
	New	Old	Total	New	Old	Total
2023-24	329	1817	2146	209	497	706
2024-25	310	1545	1855	239	785	1024

** Source - district data*

4.6.2 Punarjani

Punarjani is a de-addiction treatment clinic that has been functioning since 2012 as a sub-clinic of the Seethalayam project. It was established after observing that many women seeking help at Seethalayam were suffering from domestic violence and mental stress caused by substance abuse (alcohol and drugs) among the men in their families. The project provides homeopathic treatment and counselling for patients addicted to alcohol, drugs and smoking.

Objectives:

- To treat patients with addiction.
- To conduct awareness classes for adolescents and youth regarding health issues and social crises caused by substance abuse.
- To utilize a treatment method that minimizes withdrawal symptoms
- To extend counseling to other family members of patient

Table 4.6.2: Beneficiary details of Punarjani project

	New	Old	Total
2023-24	15	36	51
2024-25	69	190	259

** Source - district data*

4.6.3 Janani

The **Janani** project by the Department of Homeopathy offers hope in the field of infertility treatment with simple, side-effect-free medicines. The project effectively treats both male and female infertility, including conditions like PCOD, menstrual disorders, Fallopian tube blocks, hypothyroidism, uterine fibroids, and low sperm count/motility. Diagnostic tools like ultrasound and follicular studies are also being utilized.

Table 4.6.3: Beneficiary details of Janani project

Year	New Case	Old Case	Cumulative Pregnancy	Cumulative Child Birth
2023-24	687	6392	1220	781
2024-25	477	5466	1309	851

** Source - district data*

4.6.4 Sadgamaya

Sadgamaya is the child and adolescent-centric project of the Department of Homoeopathy. It aims at attaining overall wellness encompassing physical, mental, emotional, and social aspects, with specific attention to issues related to behavioural, cognitive, or educational challenges. In district hospital Kannur Sadgamaya Clinic started functioning in the year 2012.

Objectives

- Identify behavioural, scholastic, psychological and physical problems of children and adolescents.
- Impart awareness for parents, children, teachers and the general public on learning disabilities and behavioural problems.
- Provide homoeopathy treatment for behavioural and learning disabilities.
- Service of special education teachers is available in each unit, who train the patients in special learning methodologies.
- Provide behavioural management, treatment and counselling for children and adolescents.

Beneficiaries

- Neurodevelopmental & Behavioural Disorders
 - Autism Spectrum Disorders
 - Attention Deficit Hyperactivity Disorder (ADHD)
 - Learning Problems and Learning Disabilities (e.g., dyslexia, slow learning)
 - Developmental Delays
 - Behavioural disorders (e.g., oppositional, conduct issues)
 - Impulsive and conduct-related behaviours
- Cognitive, Emotional & Psychiatric Issues
 - Depressive disorders / Persistent Depressive Disorder
 - Anxiety, fears and emotional dysregulation
 - Obsessive-Compulsive Disorder (OCD)
 - Speech and language disorders
 - Scholastic backwardness / difficulties in reading, writing, calculation

- Other Challenges Addressed
 - Social withdrawal and lack of concentration
 - Substance abuse and addictive behaviours (including gadget addiction)
 - Sexual abuse and related emotional trauma
 - Behavioural issues like kleptomania
 - Mental stress and maladaptive coping behaviours
 - Mild to moderate intellectual challenges
 - Social media addiction and game addictions

Table 4.6.4: Beneficiary details of Sadgamaya project

Year	New	Old	Total
2023-24	478	2077	2555
2024-25	501	2330	2831

4.6.5 Ayushmanbhava

Non-communicable diseases (NCDs)/ lifestyle diseases are becoming a major health concern in society, and the World Health Organization has issued warnings to all nations regarding this issue. In response, various committees established by the government have decided to utilize the potential of all medical systems to address the social breakdown caused by NCDs, across the country and particularly in Kerala.

Objectives

- Providing treatment for NCDs through homoeopathy and consultation of naturopathy for healthy life style through dietary regulations along with yoga practice.
- To offer treatment for complications arising from lifestyle diseases and to empower individuals to overcome disabilities caused by these complications.
- Creating awareness among the population in preventive and promotive health care.
- Making treatment affordable and accessible to the public.

Table 4.6.5: beneficiary details of Ayushmanbhava project

Year	New Cases	Old Cases	Grand Total
2023-24	332	2588	2920
2024-25	379	3407	3786

4.6.6 Palliative Care

Introduction

The global demand for palliative care is rising due to the increasing number of patients with chronic and terminal illnesses. In India, approximately 2% of patients fall within the scope of palliative care. Kerala was the first state in India to implement a 'Pain and Palliative Policy' in 2008. Following this initiative, the Kerala State Department of Homoeopathy launched the Pain & Palliative Project in 2016-2017, based on various government directives and circulars.

Need for Palliative Care

The increasing prevalence of chronic, incurable diseases such as cancer, degenerative conditions, and age-related illnesses has highlighted the necessity of comprehensive palliative care services. The project aims to reduce the suffering of patients and their families, addressing physical, mental, and social challenges effectively.

- Provide effective, side-effect-free, and cost-efficient health care through homoeopathy.
- Offer relief from pain and other physical discomforts for patients with chronic diseases.
- Enhance and maintain the quality of life for patients and their families.
- Integrate efforts with volunteer organizations and other departments to conduct awareness programs.
- Coordinate geriatric and palliative care services.

- Facilitate home visits and medical care for bedridden patients.

Implementation Approach

The palliative care program operates through two levels:

- Primary Palliative Care:

Home visits are conducted through Primary Palliative Care Centres operating in Dispensary /AYUSH PRIMARY HEALTH CENTRE.

- Secondary Palliative Care:

OP (one day in a week), inpatient treatment (IP) and home visits services are provided in secondary centers operating in district hospitals.

Table 4.6.6: Beneficiary details of Palliative project

	OP- New	OP Follow up	IP	No Of Home care visits- Primary	No Of Home care patients- Primary	No Of Home care visits- Secondary	No Of Home care patients- Secondary

4.7 Standardisation of Institutions

4.7.1 NABH - Entry-level Accreditation

National Accreditation Board for Hospitals & Healthcare Providers (NABH) provides a standardized quality framework to enhance patient safety and service excellence in

healthcare institutions. In Kannur District, NABH standards are being adopted in homoeopathy institutions to strengthen clinical governance, documentation, and patient-centric service delivery, thereby improving overall quality of care.

Table 4.7.1: Table of NABH entry-level accredited institutions

Sl no	Name of Institution	NABH level
1	Govt Homoeopathic Dispensary Vellora	Entry Level
2	Govt Homoeopathic Dispensary Dharmadom	Entry Level
3	Govt Homoeopathic Dispensary Thalassery	Entry Level
4	Govt Homoeopathic Dispensary Kalliassery	Entry Level

4.7.2 Kayakalp

The Kerala AYUSH Kayakalp Award is a state-level initiative under the Department of AYUSH, Government of Kerala, designed to promote cleanliness, hygiene, and quality improvement in AYUSH healthcare institutions. The program recognizes hospitals and dispensaries that maintain high standards in sanitation, waste management, infection control, and patient safety.

It encourages AYUSH facilities to adopt sustainable and eco-friendly practices while providing a clean, safe, and healing environment for patients. The award also supports the objectives of the Swachh Bharat Mission and enhances the overall image and service quality of AYUSH institutions across Kerala.

Table 4.7.2: List of Institutions which have received the Kayakalp award

4.7.3 Model Dispensary

Model dispensaries serve as an effective mechanism for standardizing healthcare service delivery across homoeopathy institutions. Dispensaries with a consistently high volume of Outpatient (OP) attendance are identified and selected for upgradation as Model Dispensaries, ensuring optimal utilization of resources and maximum public benefit. The upgradation is implemented in a phased manner, focusing on improvements in infrastructure, manpower support, service delivery systems, and patient amenities. This initiative is supported through consistent financial assistance from the Plan budget, enabling sustained quality enhancement and uniform service standards across selected institutions.

Table 4.7.3: List of institutions upgraded as model dispensary

4.8 Ayushman Arogya Mandir (AYUSH)

Ayushman Arogya Mandir (AYUSH) represents a people-centred initiative aimed at strengthening accessible, affordable, and holistic primary healthcare services across the community. These centres integrate the principles and therapeutic strengths of Ayurveda, Yoga & Naturopathy, Unani, Siddha and Homoeopathy to promote wellness, disease prevention, and comprehensive care.

Functioning as the first point of contact for individuals and families, Ayushman Arogya Mandirs provide outpatient care, health promotion, lifestyle counselling, management of common ailments, and support for chronic disease management through AYUSH systems. The focus remains on preventive and promotive healthcare, encouraging healthy living practices and early intervention to reduce the burden of disease.

By combining traditional knowledge with organized public health delivery, Ayushman Arogya Mandir (AYUSH) contributes significantly to the national vision of Universal Health Coverage. These centres play a key role in extending quality AYUSH healthcare to rural and urban populations alike, ensuring continuity of care while preserving India's rich heritage of holistic healing. 21 Govt Homoeopathy Dispensaries have been upgraded as Ayushman Arogya Mandir (AYUSH).

List of Institutions upgraded as Ayushman Arogya Mandir (AYUSH) are attached as Annexure 4.8

4.9 Temporary Homoeo Dispensaries

Temporary Homoeo Dispensaries are established during major festival seasons. The units which operate at Kannur district are Trichambaram Sreekrishna kshetram, Parassinikadavu Muthappan Kshetram, Muchilottu perumkaliyattam Payyannur & Muchilottu perumkaliyattam, Anjooru.

4.10 Digital Health

4.10.1 AHIMS - AYUSH Health Information Management System

The Ayush Homoeopathy Information Management System (AHIMS) is the official Information Management System implemented by the Department of Homoeopathy to digitize and streamline the clinical, administrative, and institutional functions of Homoeopathy healthcare facilities across the State.

AHiMS Version 1 (AHiMS 2.0) was introduced in 2019 as the foundational digital platform. This version primarily focused on the collection and consolidation of numerical and institutional data related to core operations such as OP/IP statistics, asset management, medicine indenting, Plan and Non-Plan fund management, basic reporting, and institutional profile data. AHiMS 1.0 established a standardized digital workflow across Homoeopathy institutions and enabled centralized data availability for effective monitoring, reporting, and policy-level decision-making. The software received Second Prize in the eHealth – e Medicine category of the State e-Governance Awards for the years 2019–20 and 2020–21, recognizing its contribution to digital health governance.

AHiMS Version 2 (AHiMS 2.0), launched in 2023, represents a significantly enhanced and expanded phase of the system. In addition to strengthening the unique Homoeopathy Hospital Management System—the only such digital solution in the country covering more than 1,100 Homoeopathy institutions—Version 2 introduced advanced administrative and governance-oriented modules. A major addition is the comprehensive Establishment / HR module, which covers employee service details, recruitment, probation, service history, disciplinary proceedings, and document

management. The upgraded version also supports improved internal governance, better data integrity, and expanded operational modules including accounts, stock management, institutional administration, and system-level controls. Overall, AHiMS 1.0 laid the digital foundation, while AHiMS 2.0 evolved the platform into a comprehensive, integrated management system, supporting both healthcare service delivery and administrative efficiency in the Homoeopathy sector.

All the Government Homoeopathy institutions in Kannur District are actively delivering digital health services through the AHiMS. Key functional areas including patient registration, clinical documentation, and service reporting are being carried out digitally across institutions. Medicine stock management in both Government Homoeopathy institutions and AYUSH Primary Health Centres (AYUSH PRIMARY HEALTH CENTRES) has been fully digitalised, ensuring accurate tracking of stock availability, consumption, and distribution. The medicine procurement process is now 100% online, enabling transparent monitoring of indents, purchase orders, supply status, and delivery timelines. These digital processes are supported by real-time dashboards accessible to the District Medical Officer (DMO), facilitating effective oversight, data-driven decision-making, and improved efficiency in medicine supply chain management.

4.10.2 ABDM activities

In connection with ABDM activities in Kannur District, **100% Health Facility Registry (HFR) creation has been achieved**, with all **41 health facilities successfully registered**. In addition, **15 Health Professional Registries (HPRs)** have been created out of **55 eligible health professionals (27%)**, reflecting substantial progress in onboarding healthcare providers onto the ABDM ecosystem. Continuous efforts are underway to complete the remaining HPR registrations to ensure full compliance and seamless digital health data exchange across the district.

4.11 Medicine Availability & Logistics

LSGD has allocated Rs. 12000000/- for medicine purchases specifically for homoeopathy institutions in Kannur district. This allocation falls under LSGD's health sector initiatives, enabling timely purchases

4.12 Laboratory & Diagnostic Facilities

Clinical laboratory services play a vital role in supporting accurate diagnosis, treatment planning, and patient monitoring in homoeopathy institutions. In Kannur District, laboratory facilities are made available through a combination of institution-owned laboratories and associated external laboratories to ensure continuity of clinical services.

Table 4.12: Laboratory facilities in Institutions

SL No	Name of Institution
1	Aralam Farm Govt Homoeo Hospital
2	Kannur Govt Homoeo Hospital

** Source - district data*

4.13 Financial Expenditure

During 2023–24, Kannur district received an allocation of **₹82.15 lakhs**, of which the full amount was released. The district recorded an expenditure of **₹73.87 lakhs**, reflecting effective utilisation of the majority of the sanctioned funds. In 2024–25, the allocated and released amount stood at **₹67.17 lakhs**, with an expenditure of **₹66.82 lakhs**, indicating almost complete utilisation of the available funds. Overall, the financial performance highlights efficient fund management and optimal spending across both financial years in Kannur district.

Table 4.13: Financial Expenditure

Year	Allocated amount (in Lakhs)	Released Amount(in Lakhs)	Expenditure
2023-24	82.1481	82.1481	73.87001
2024-25	67.16717	67.16717	66.81777

Chapter 5

NATIONAL AYUSH MISSION KERALA

SUPPORTS & SERVICES

5.1 Introduction

National AYUSH Mission is a Centrally Sponsored Scheme under the Ministry of AYUSH. The government of India launched National AYUSH Mission (NAM) during the 12th plan in 2014. In Kerala, NAM started activities in 2015. The aim of NAM is to mainstream AYUSH Systems into health care services, to develop evidence-based AYUSH management protocol through scientific documentation and to ensure the accessibility of quality AYUSH services. Regarding the funding pattern, 60% share is provided by the Central Government and 40% is provided by the State Government.

The vision is to provide cost-effective, equitable, and accessible AYUSH healthcare across the country by strengthening service delivery systems and improving access to quality care. It emphasizes the integration of preventive and promotive healthcare approaches within primary health services, while promoting a holistic wellness model grounded in AYUSH principles and practices. In addition, the vision seeks to enhance AYUSH educational institutions to ensure the delivery of high-quality education and the development of competent professionals to support the growth of the AYUSH sector.

The objective is to ensure the availability of AYUSH healthcare services across the country by strengthening and improving AYUSH healthcare infrastructure and service delivery. It aims to establish a holistic wellness model through AYUSH Health and Wellness Centres with a strong focus on preventive and promotive healthcare based on AYUSH principles and practices, thereby reducing disease burden and out-of-pocket expenditure. The approach also seeks to provide informed choices to the public through the co-location of AYUSH facilities at Primary Health Centres, Community Health Centres, and District Hospitals, promoting medical pluralism. Further, it emphasizes the role of AYUSH in public health in alignment with the National Health Policy (NHP) 2017.

5.1.1 National Ayush Mission – Funding Approval Analysis

This document presents a consolidated summary of the Resource Envelope, Amount Proposed, and Amount Approved under the National AYUSH Mission across financial years. The analysis highlights the financial growth pattern, approval efficiency and year-wise variations to support planning, monitoring and future programme strategy formulation.

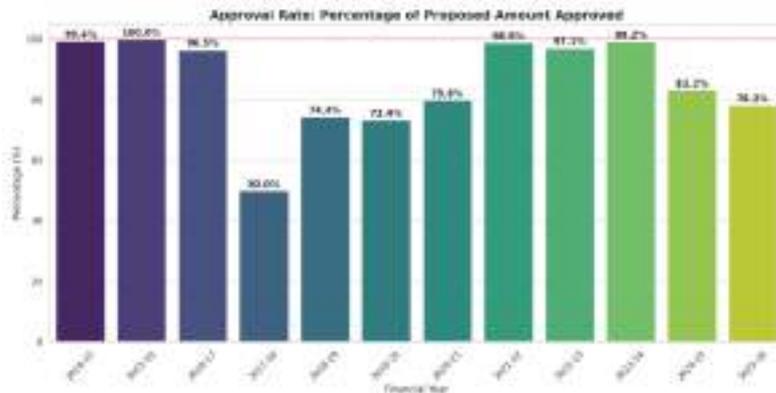

Figure 5.1.1.1 Funding Approval Analysis

Figure 5.1.1.1 illustrates the year-wise comparison of Resource Envelope, Amount Proposed and Amount Approved under the National AYUSH Mission. The chart indicates a progressive increase in financial allocations over the years, reflecting expansion of programme scope and implementation scale.

Figure 5.1.1.2 Trend Analysis of Funding Approval Analysis

Figure 5.1.1.2 depicts the approval efficiency trend, highlighting the percentage of proposed funds approved each year. The consistently high approval rate demonstrates effective planning, quality proposal preparation and strong institutional coordination with the approving authorities.

5.1.2 Approved Amount For Engineering Construction Works Under NAM

This report presents a comprehensive trend analysis of the approved financial outlay for Engineering Construction Works executed under the National AYUSH Mission (NAM) across multiple SAAP years. The analysis examines sector-wise movement, total funding behavior, priority shifts and percentage contribution patterns over time.

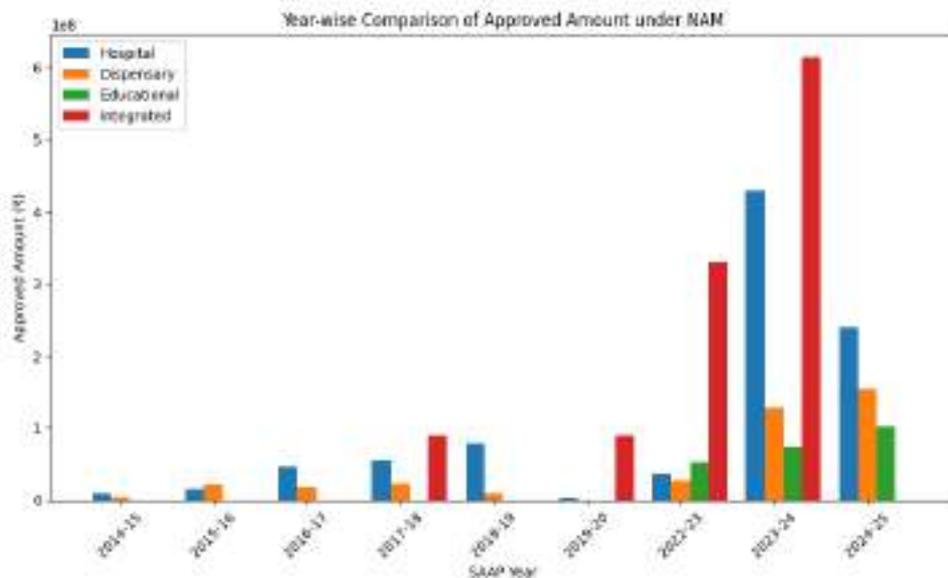

Figure 5.1.2.1 Analysis of Approved Amount For Engineering Construction Works Under NAM

Figure 5.1.2.1 presents the SAAP year-wise approved financial outlay for Engineering Construction Works under the National AYUSH Mission. The trend reflects periodic increases aligned with infrastructure strengthening priorities, including hospitals, dispensaries and academic institutions.

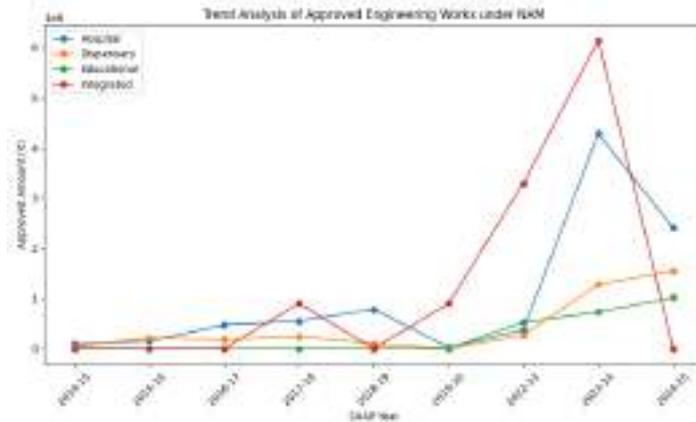

Figure 5.1.2.2 Trend Analysis of Approved Amount For Engineering Construction Works Under NAM

Figure 5.1.2.2 highlights the proportional distribution and trend movement of engineering works funding across SAAP years. Variations indicate strategic prioritisation of construction activities based on programme needs and infrastructure gaps.

5.1.3 Flexipool Projects Approved in the State - Trend Analysis Report

This document presents the number of Flexipool projects approved for the State under the National AYUSH Mission across different SAAP years. The charts illustrate the trend in approvals, highlighting the growth pattern and expansion of Flexipool initiatives over time.

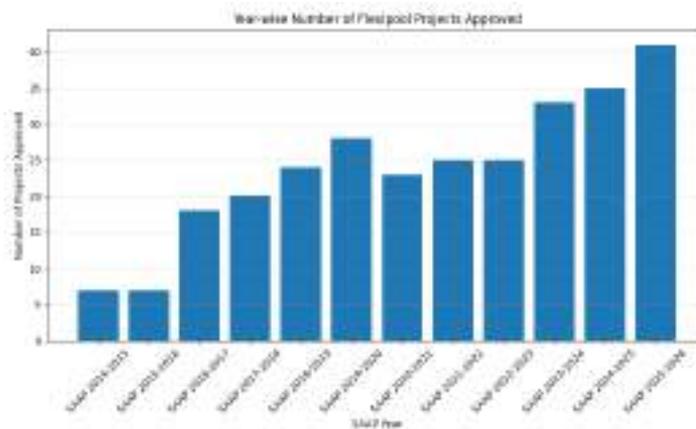

Figure 5.1.3.1 Analysis of Flexipool Project Approved in the State

Figure 5.1.3.1 illustrates the number of Flexipool projects approved under the National AYUSH Mission across SAAP years. The upward trend indicates increased utilisation of the Flexipool component to address State-specific and innovative healthcare needs.

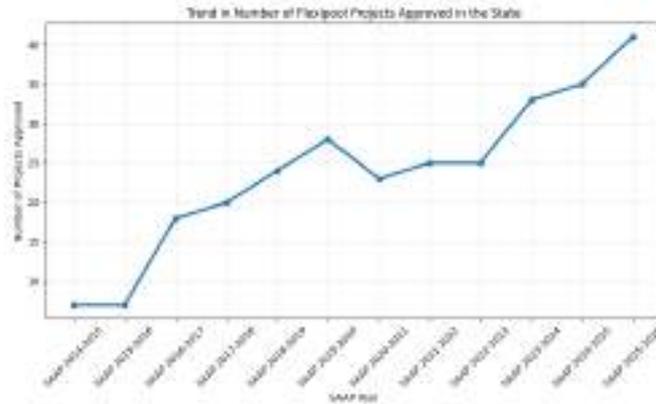

Figure 5.1.3.2 Trend Analysis of Flexipool Project Approved in the State

Figure 5.1.3.2 presents the comparative trend analysis, showing periods of accelerated project approvals. This reflects improved planning capacity and greater emphasis on flexible, need-based interventions.

5.1.4 National Ayush Mission - Public Health Programmes – Kerala – Funding Approval Analysis

The SAAP year-wise data and trend analysis of Public Health Programmes implemented in Kerala.

Figure 5.1.4.1 Trend Analysis of Public Health Programmes established

- National Programme for Prevention and Management of Osteoarthritis & Other Musculoskeletal Disorders (NPPMOMD) shows sustained implementation across all SAAP years, reflecting continued focus on musculoskeletal disorder management.
- Karunya consistently records the highest number of units, indicating wide beneficiary coverage.
- SUPRAJA and AYUSH Mobile Medical Unit show expansion during 2024–25, highlighting emphasis on maternal health and outreach services.
- Ayurvedya demonstrates a stable trend.
- Vayomitra shows strengthening in 2025–26, reflecting enhanced geriatric care services.

Table No 5.1.4.1 Details of Approved Public Health Programs

SI NO	Name of Public Health programs	Number of Units
1	NPPMOMD	50
2	SUPRAJA	3
3	Ayurvedya	42
4	AYUSH Mobile Medical Unit	24
5	Vayomitra	30
6	Karunya	72

5.1.5 Ayushman Arogya Mandir - AYUSH – Kerala

The SAAP Year-wise distribution of 700 Ayushman Arogya Mandir (AAM–AYUSH) / AYUSH Health & Wellness Centres in Kerala.

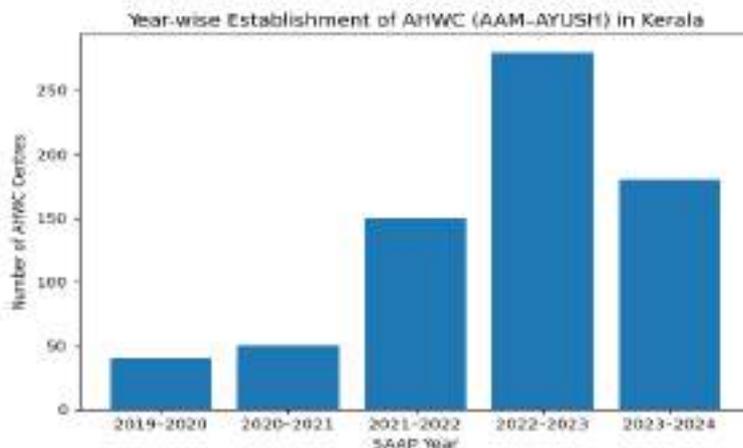

Figure 5.1.5.1 Graph representation of AAY AYUSH established in Kerala

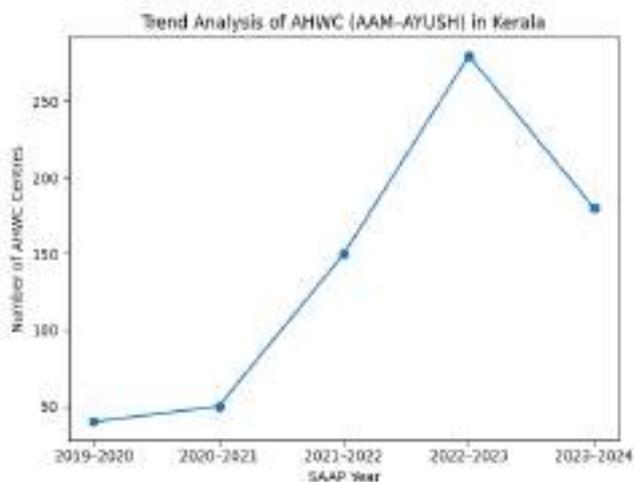

Figure 5.1.5.2 Trend Analysis of AAM AYUSH established in Kerala

Figure depicts the SAAP year-wise establishment of Ayushman Arogya Mandir (AAM-AYUSH) / AYUSH Health & Wellness Centres in Kerala. The chart shows a steady expansion from 2019-20 onwards, with significant scale-up during 2021-22 and 2022-23. This trend highlights Kerala's sustained commitment to strengthening AYUSH-based comprehensive primary healthcare services at the grassroots level.

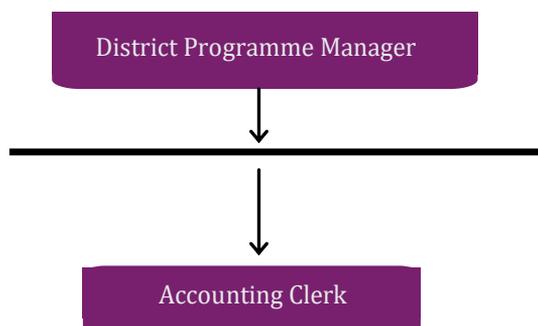

5.2 Administration

In the State of Kerala, the National AYUSH Mission (NAM) operates through a specialized administrative framework to manage its extensive network of healthcare services and public health initiatives. The mission is governed by a State AYUSH Mission Society, which provides the strategic and financial oversight necessary for mainstreaming traditional medicine into the state's public health infrastructure. This decentralized approach ensures that services like Ayurveda and Homoeopathy are effectively integrated from the state level down to the local communities

At the district level, the District Programme Management and Supporting Unit (DPMSU) serves as the operational hub, acting under the direct instructions and guidance of the State Mission Office (SPMSU). This unit is the primary body responsible for the localized management and implementation of AYUSH services within each district.

The administrative setup within the DPMSU includes one District Programme Manager (DPM) and one Accounting Clerk. This team is responsible for coordinating, monitoring, and implementing various programmes and activities under the District AYUSH society, ensuring effective execution and timely reporting of all project components to the state level. This structure allows for the smooth management of local health needs, including the operationalization of AYUSH Health and Wellness Centres and the execution of specialty-focused public health projects.

5.2.1 Structure of District Programme Management and Supporting Unit Office

5.2.2 District Programme Management and Supporting Unit Profile

Table No 5.2.2 presents the contact and office details of the District Programme Management and Supporting Unit (DPMSU), including the District Programme Manager responsible for coordinating and implementing NAM activities at the district level.

** Source - district data*

5.3 Human Resources Profile

The National AYUSH Mission provides human resources to both the Indian Systems of Medicine (ISM) and Homoeopathy departments in Kerala through its major functional components, namely AYUSH Services (Medical Officers and supporting staff), Public Health Programmes, Flexipool Projects, and Ayushman Arogya Mandir (AYUSH). In addition, the Mission deploys personnel for programme management and administrative support to enable effective planning, implementation, monitoring, and financial management of AYUSH activities. This integrated human resource framework ensures efficient healthcare delivery and sustained institutional support across the State.

AYUSH Service (HR) under NAM refers to the provision of Medical Officers and supporting staff to both ISM and Homoeopathy departments, ensuring the availability of skilled manpower for effective healthcare service delivery.

Flexipool Projects enable the State to implement innovative and state-specific projects and

programmes, providing flexibility to address local health priorities and emerging needs.

Ayushman Arogya Mandir (AAM-AYUSH) functions as the primary AYUSH healthcare delivery point, ensuring accessible, affordable and quality services while supporting preventive, promotive, curative and rehabilitative care with strong community outreach.

AYUSH Public Health Programmes are national initiatives aimed at addressing priority health conditions through disease prevention, health promotion, awareness generation and strengthened healthcare delivery, contributing to holistic community wellness and improved public health outcomes.

District Programme and Management Unit (DPMSU) provides governance, coordination, monitoring, financial management and reporting support through the deployment of two staff members

Table No5.3.1 shows the distribution of Medical Officers and Supporting Staff across ISM, Homoeopathy, and DPMSU under the National AYUSH Mission in the district

Table No 5.3.1 Department-wise Component HR Strength under NAM

Department	Component	Medical Officers	Supporting staffs	Total
ISM	Ayush Services HR	16	30	153
	Flexipool Projects	9	13	
	Ayushman Arogya Mandir(hwc)	0	70

5.4 Ayush Services- Supply of Essential Drugs

Supply of Essential Drugs to Government AYUSH Hospitals and Dispensaries

- ₹4.00 lakhs per annum for essential drugs for AYUSH Hospitals
- ₹2.00 lakhs per annum for essential drugs for AYUSH Dispensaries

Table No.5.4 presents the number of institutions sanctioned under the National AYUSH Mission along with the amount approved for each institution. The financial support ensures uniform strengthening of AYUSH facilities and improved service delivery across all approved centres.

Table No 5.4 Number of institutions sanctioned under the supply of essential drugs

Sl. No.	Institution	No. of sanctioned institution	Amount Sanctioned for each institution Amount
1	Hospital	11	₹4.00 lakhs
2	Dispensaries	49	₹2.00 lakhs

* Source - district data

5.5 Ayush Services- Health Infrastructure Development

5.5.1 Upgradation of Exclusive / Standalone Government AYUSH Hospitals/ AYUSH Dispensaries

During the SAAP period from 2015–16 to 2023–24 in Kannur district, administrative sanction was accorded for a wide range of Homoeopathy, ISM and Integrated AYUSH institutions, covering hospitals, dispensaries and a major integrated facility, indicating strong investment in AYUSH infrastructure.

In the Homoeopathy sector, sanction was provided for the Government Homoeopathy Infertility Centre, Chalakkunn (₹75.00 lakh) during 2015–16, and for Government Homoeopathy Dispensaries at Elayavoor and Thrippangottoor (₹30.00 lakh each) during 2022–23 and 2023–24.

Under ISM, administrative sanctions were issued for several Ayurveda institutions, including Government Ayurveda Dispensary, Sivapuram (₹20.00 lakh), Government Ayurveda Hospital, Cherukunn (₹75.00 lakh), District Ayurveda Hospital, Kannur (₹20.00 lakh), Government Ayurveda Dispensary, Poyiloor (₹20.00 lakh), Government Ayurveda Hospital, Kalliassery (₹83.60 lakh) and Government Ayurveda Dispensary, Ulikkal (₹30.00 lakh). In addition, a major sanction of ₹900.00 lakh was accorded in 2019–20 for Phase-I construction of a 50-bedded Integrated AYUSH Hospital at Mattannur, representing one of the largest AYUSH infrastructure investments in the district.

During the SAAP period from 2022–23 to 2024–25, these sanctioned projects moved into active implementation. Multiple construction and upgradation works of Ayurveda, Homoeopathy and AYUSH institutions were undertaken through agencies such as M/s HLL, M/s KHRWS and M/s KSCC. Major works include construction of the ENT Block and a medicine manufacturing unit at Government Ayurveda College, Pariyaram, establishment of new Government Ayurveda Hospitals at Mattool and Koothuparamba, and upgradation of existing hospitals at Cherukunn and Pinarayi. In addition, several Ayurveda and Homoeopathy dispensaries and an AYUSH PHC across the district were taken up for construction or upgradation during 2023–24 and 2024–25.

The details of completed & ongoing infrastructure development works under the National AYUSH Mission (NAM) for Ayurveda and Homoeopathy institutions in the district across various financial years are attached as Annexure 5.5.1.

5.5.2 Setting up of upto 10/30/50 bedded integrated AYUSH Hospital

This table presents the details of Integrated AYUSH Hospital projects sanctioned under the National AYUSH Mission (NAM) in Kerala, including the State Annual Action Plan (SAAP) year, district, name of the project, and the amount approved as per the scheme.

** Source - district data*

5.6 Ayush Services- Programmes & Projects- Ayush Public Health Programmes

The AYUSH Public Health Programmes aim to strengthen India's public health system through preventive, promotive, curative, and rehabilitative healthcare using traditional systems of medicine. In the context of increasing chronic diseases, ageing population, and lifestyle-related disorders, AYUSH systems offer safe, cost-effective, and evidence-based healthcare options. Under the National AYUSH Mission (NAM), structured programmes have been launched focusing on musculoskeletal disorders (especially osteoarthritis), non-communicable diseases, maternal and neonatal care, mobile medical services, geriatric and palliative care, and school health promotion. These are implemented through existing NAM frameworks at state and district levels with emphasis on evidence-based interventions, capacity building, and IT-enabled monitoring.

5.6.1 National Programme for Prevention and Management of Osteoarthritis & Other Musculoskeletal Disorders in brief

Musculoskeletal disorders (MSDs), including osteoarthritis, are a major cause of disability and reduced productivity globally and in India, affecting around 20% of the population.

Need for AYUSH Intervention: There is no dedicated programme in India for MSDs. AYUSH therapies, including herbal medicines, yoga, diet, and lifestyle modifications, offer effective and safe management options. Integrating these interventions supports the goals of the National Health Policy (2017) and Sustainable Development Goal 3.

Objectives:

- a. Manage osteoarthritis and other MSDs through AYUSH-based integrative approaches.
- b. Promote self-care and awareness through Information, Education and Communication (IEC) activities.

Implementation Strategy:

Populations are categorised by risk levels for targeted intervention. Activities are implemented through AYUSH Health and Wellness Centres, dispensaries, and affiliated institutions. Major components include screening, preventive awareness, yoga, diet and lifestyle advice, clinical consultations, rejuvenation therapies (Rasayana), cleansing (Shodhana), Varma therapy, medicated oil applications, and follow-up care.

The following institutions are providing services under this project

1. District Homoeopathy Hospital, Kannur
2. Govt. Homoeopathy Hospital, Aralam, Kannur
3. Govt. Ayurveda Hospital, Thaliparamba, Kannur
4. Govt Ayurveda College, Kannur

Table No 5.6.1 shows the Beneficiary details of NPPMOMD programme in Ayurveda and Homoeopathy

5.6.2 VAYO MITRA: AYUSH Geriatric Healthcare Services – in brief

With India's ageing population rising and the old-age dependency ratio increasing, ensuring the health, dignity, and wellbeing of senior citizens has become vital. The *Vayo Mitra* initiative under the National AYUSH Mission focuses on promoting healthy ageing through preventive, promotive, and therapeutic AYUSH approaches. Traditional practices like *Swasthavritha* (maintenance of health), *Rasayana* (rejuvenation), *Panchakarma*, and *Tadbir-i-Shaykhukhat* (Unani geriatric care) form the basis of AYUSH geriatric healthcare.

Objectives:

- Create awareness about healthy ageing and ways to reduce morbidity in old age.
- Provide specialised AYUSH healthcare for the elderly through the existing AYUSH network.
- Promote community recognition of the value and potential of healthy elderly individuals.

Implementation Strategies:

- **Preventive & Promotive Care:** Encourages healthy routines (*Dinacharya*, *Ritucharya*), yoga, stress management, balanced diet, and proper lifestyle habits. Trained health workers conduct domiciliary visits, health assessments, and weekly AYUSH clinics for the elderly.
- **Information, Education & Communication (IEC):**
Health education through mass and folk media promotes physical fitness, stress reduction, and awareness on AYUSH geriatric care. Elderly clubs and health camps will be organised, and IEC materials and media campaigns will spread messages on healthy ageing and available AYUSH services.

The following institutions are providing services under this project

1. Govt. Ayurveda Hospital Thaliparamba, Kannur
2. Government Homoeopathy Hospital, Kannur

Table No 5.6.2 provides gender-wise and total beneficiary coverage under the Vayo Mitra geriatric care project.

Figure 5.6.2 Treatment in Vayo Mitra

5.6.3 AYURVIDYA: Promotion of Healthy Lifestyle through AYUSH for School Children - in brief

The AYURVIDYA programme aims to promote healthy lifestyles and awareness about AYUSH principles among school children, focusing on hygiene, diet, yoga, and the use of medicinal plants and home remedies. The initiative targets schools in regions with poor health indicators, especially aspirational districts, to instill lifelong healthy habits from an early age.

Objectives:

- To encourage school children to adopt healthy lifestyles and diets based on AYUSH principles.
- To create awareness about the importance of medicinal plants and simple home remedies.
- To educate children about yoga for fitness, wellbeing, and stress management.

Implementation Strategy:

- The programme will cover UPTO 300 schools per year, with an AYUSH doctor and multipurpose worker catering to UPTO 25 schools monthly.
- Block-level teams including AYUSH professionals, headmasters, and NGOs will conduct AYUSH and nutrition education sessions.
- Teaching methods will use interactive tools such as videos, quizzes, posters, slogans, and street plays for effective learning.
- Activities include health and hygiene campaigns, yoga camps, medicinal herb plantations, and early health screening for common conditions.
- Teachers will be trained to identify medicinal plants and teach home remedies.
- Referral linkages with AYUSH hospitals and colleges will ensure follow-up care, and IEC materials will be distributed for awareness.

The following blocks and institutions are covered under this programme

1. Kannur Corporation, Kannur district AHWC Ancharakandi
2. Govt. Ayurveda College, Kannur

Table No 5.6.3 presents the number of awareness sessions conducted and beneficiaries reached under AYURVIDYA.

Figure 5.6.3 Ayurvediya Training to kid

5.6.4 KARUNYA: AYUSH Palliative Services – in brief

The KARUNYA initiative aims to provide compassionate, holistic palliative care through AYUSH systems of medicine, focusing on improving the quality of life of patients with life-limiting illnesses and supporting their families. Palliative care addresses physical, emotional, social, and spiritual needs, particularly for patients with conditions such as cancer, neurological disorders, organ failure, autoimmune diseases, HIV/AIDS, and age-related illnesses.

The programme emphasises home-based care, considering it cost-effective and comforting, and integrates supportive care into AYUSH dispensaries, Health & Wellness Centres, and hospitals. Early initiation of palliative care, from the time of diagnosis, helps ensure better symptom management and family preparedness.

Objectives:

To provide quality, integrated supportive care for patients suffering from chronic, lifestyle-related, geriatric, and psychiatric conditions.

Implementation Strategy:

- Home visits by AYUSH medical officers and trained health workers for patient assessment and basic care.

- Relief from pain and other symptoms through AYUSH treatments, along with psychosocial counselling.
- Use of AYUSH HWCs for community mobilisation and awareness.
- Conducting training and sensitisation programmes for healthcare professionals.
- Regular monitoring and evaluation of services.

The following blocks and institutions are covered under this programme

1. District Homoeo Hospital, Kannur
2. Kannur Corporation

5.6.5 AYUSH Mobile Medical Unit - in brief

AYUSH Mobile Medical Units (AMMUs) aim to deliver healthcare to unserved and underserved, particularly tribal, populations facing a triple disease burden—malnutrition and communicable diseases, rising non-communicable diseases, and mental health issues. These mobile units bring preventive, promotive, and curative AYUSH healthcare to remote regions, improving accessibility and continuity of care.

Objectives:

- Provide doorstep AYUSH healthcare services in remote and tribal areas through outreach activities.
- Screen and manage common communicable and non-communicable diseases, provide basic OPD care, and ensure referral linkages to higher AYUSH facilities.

Implementation Strategy:

The programme will operate in across unserved tribal regions. Each mobile unit—staffed by a medical officer and multipurpose worker. Villages will be mapped to identify inaccessible clusters and referral sites. Activities include community mobilisation, disease screening, follow-up visits, medicine distribution, and proper record maintenance. The AMMUs will also conduct IEC/BCC activities to promote awareness on AYUSH interventions for malnutrition, de-addiction, and yoga, along with capacity-building programmes to improve health-seeking behaviour among tribal populations.

5.6.6 SUPRAJA: AYUSH Maternal & Neo-natal Intervention - in brief

SUPRAJA under the National AYUSH Mission focuses on holistic maternal and child healthcare through AYUSH-based antenatal and postnatal care. It aims to reduce maternal and neonatal morbidity and mortality, ensure proper foetal development, promote normal delivery, and improve overall wellbeing of mothers and infants through AYUSH regimens, diet counselling, and yoga. The programme supports management of common pregnancy-related issues, promotes maternal strength, and addresses neonatal and childhood ailments through safe AYUSH interventions. Care includes regular antenatal check-ups, nutrition

counselling, yoga, herbal support, postnatal care, breastfeeding promotion, and maternal health monitoring.

Objectives

- To reduce maternal and neonatal morbidity and mortality through AYUSH-supported care.
- To ensure proper foetal growth with continuous medical monitoring and prophylaxis.
- To prevent pregnancy-related complications and promote normal delivery.
- To improve overall health and wellbeing of mothers and infants through AYUSH regimens, diet counselling, and yoga.

Implementation Strategy

- Establish SUPRAJA units in AYUSH teaching institutions and selected State AYUSH hospitals.
- Provide regular antenatal and postnatal check-ups along with routine medical care and AYUSH support.
- Supply AYUSH postnatal care kits to beneficiaries.
- Conduct training and capacity building programmes for AYUSH healthcare providers.
- Implement IEC activities to enhance awareness, participation, and community outreach.

Institution details of SUPRAJA: AYUSH Maternal & Neo-natal Intervention

5.7 Ayush Services- Programmes & Projects- Flexipool Projects

The Flexipool project is a component that allows States to utilise up to 25% of the actual SAAP (State Annual Action Plan) amount to implement innovative or state-specific projects and programmes. It provides flexibility for the State to design and execute activities based

on local health priorities and emerging needs that may not be covered under mandatory components of NAM guidelines.

5.7.1 Allergy & Asthma Special Clinic (Homoeopathy)

The project is a statewide Homoeopathy initiative aimed at addressing allergy, asthma, and chronic respiratory diseases (CRDs) such as chronic obstructive pulmonary disease (COPD) and chronic bronchitis through outpatient and inpatient services in all District Homoeopathy Hospitals in Kerala. The initiative seeks to provide comprehensive Homoeopathic treatment, reduce morbidity and mortality, and lessen the financial, physical, and emotional burden on patients and their families.

The programme includes outpatient and inpatient care, community outreach activities, medical camps, and health education programmes, supported by a structured monitoring and evaluation system using baseline data, patient registries, electronic medical records (EMRs), review meetings, and impact assessments. Special clinics are established in district hospitals with patient-friendly facilities and appointment systems, supported by patient mobilisation through referrals, awareness sessions, information, education and communication (IEC) activities, and medical camps, with inpatient care provided wherever clinically indicated

Table No 5.7.1 provides year-wise gender-wise and total beneficiaries treated under the Homoeopathy Allergy & Asthma Special Clinics

5.7.2 Ayurkarma

Ayurkarma is an initiative that integrates Panchakarma therapies into Government Ayurveda Dispensaries in rural Kerala to ensure equitable access to holistic Ayurvedic healthcare. The programme enables economically weaker sections of the population to receive essential kriyā kramas such as Vamana, Virechana, Nasyam, Vasthi, and Raktamoksha through OP-based units established in selected dispensaries.

The project aims to bridge service delivery gaps by incorporating Panchakarma therapies into mainstream government healthcare. Patients are identified from the general OPD and evaluated by the Project Medical Officer, who prescribes appropriate therapies following necessary clinical examinations and informed consent procedures. Treatments are administered by trained therapists under medical supervision, with systematic documentation, monitoring of vital parameters, and post-procedure guidance to ensure safety and quality of care.

The following Government Ayurveda Dispensaries are fully operational centre in the district.

1.GAD Pattiyam

2.GAD Mayyil

Along with the existing treatment protocols at dispensaries, Panchakarma techniques significantly enhance the quality of life of the population, particularly for a large number of patients from rural areas who depend on these dispensaries and are unable to access hospital-based inpatient services for such therapies. Moreover, the initiative contributes to enhancing the social relevance and community value of these institutions.

This Table No 5.7.2.1 presents the total Panchakarma procedures performed under Ayurkarma in the district.

5.7.3 Mental Health Specialty Clinics in AYUSH

The AYUSH systems—Ayurveda, Homoeopathy, and Yoga—offer time-tested, person-centric approaches to mental well-being, with a strong emphasis on the mind–body–spirit connection. Recent initiatives have demonstrated the potential of these systems in addressing the psychological, emotional, and behavioural dimensions of health. Ayurveda-Based Mental Health Projects

Ayurveda-Based Mental Health Projects

Harsham: Anti-Depression Ayurveda Clinics: This programme provides cognitive enhancement therapies and Ayurvedic interventions for children with intellectual disabilities.

Pratheeksha: Improvement of IQ in MR Children: Offers cognitive enhancement therapies and Ayurvedic interventions for children with intellectual disabilities.

Medha: Correction of Scholastic Backwardness: Supports children facing academic and attention-related challenges through Ayurvedic formulations counseling and dietary guidance.

Homoeopathy-Based Mental Health Projects

Seethalayam Clinics: These are gender-responsive clinics providing Homoeopathic management for mental, physical, and social health issues of women, including anxiety, depression, postnatal stress, psychosomatic disorders, and trauma resulting from abuse.

Sadgamaya Clinics: Targeted at adolescents, these clinics offer mental health support, behavioural correction, and prevention of substance abuse through Homoeopathic interventions, counselling, and outreach activities.

Homoeopathy, with its individualised remedy selection and focus on the psycho-social environment of the patient, has demonstrated effective outcomes in the management of psychosomatic disorders, mood disturbances, behavioural issues, and substance use tendencies, particularly among vulnerable population groups.

5.7.4 Drishti

The **Drishti Project** is a comprehensive initiative aimed at promoting eye health through early detection, effective management, and accessible treatment. The project focuses on identifying ocular diseases such as diabetic retinopathy and glaucoma at an early stage to prevent future complications. For elderly individuals and patients with conditions such as heart disease who may not be suitable candidates for cataract surgery, the project provides non-surgical management options.

Drishti also emphasises the prevention of refractive errors through regular screening programmes in schools and workplaces, helping students and employees maintain optimal vision. With cost-effective treatment protocols, the initiative ensures affordable eye care compared to other systems of medicine. Most importantly, the project provides inclusive eye care services for all age groups by utilising modern diagnostic tools and offering treatment through both outpatient and inpatient services.

5.7.5 Setting Up of Physiotherapy Unit in Government AYUSH Hospitals

In Kerala, under the State Annual Action Plans (SAAP) for 2023–24 and 2024–25, a total of 27 physiotherapy units—including 26 units in Homoeopathy Hospitals and one unit in an ISM Hospital—have been approved and operationalised, addressing a long-pending need for physiotherapy services in AYUSH hospitals.

Given the encouraging public response, the tangible health benefits observed, and the increasing burden of lifestyle-related and degenerative diseases, the expansion of physiotherapy services under AYUSH has become increasingly relevant.

Table No5.7.5.1 showing the beneficiary count of last year reflects strong utilisation of physiotherapy services at the AYUSH hospital, indicating high demand for rehabilitative care and the relevance of physiotherapy in supporting AYUSH treatment outcomes.

5.7.6 Sports Ayurveda Project

Sports Ayurveda is an established Ayurveda super-speciality in **Kerala** that integrates traditional Ayurvedic wisdom with modern sports medicine to enhance athletic performance, endurance, and overall well-being. It adopts a holistic approach through personalised diet and nutrition, condition-specific medicines, specialised therapeutic massages, Panchakarma therapies, and targeted rehabilitation strategies aimed at injury prevention, management of sports-related conditions, and optimisation of performance.

With a long tradition of supporting arts and sports personnel through indigenous medical systems, Kerala has demonstrated the untapped potential of Ayurveda in the field of sports medicine. The scope of Sports Ayurveda includes event-specific therapeutic interventions, pre-event conditioning, post-event recovery, off-season conditioning, energy enhancement,

prevention and management of repetitive strain and other sports injuries, and specialised care for sportswomen.

Proven to be safe and effective, Sports Ayurveda addresses preventive, curative, and rehabilitative needs without post-traumatic complications. Several injuries previously recommended for surgical intervention have been successfully managed through Ayurvedic treatment, resulting in rapid recovery. The established Sports Ayurveda units have benefited numerous national and international athletes, many of whom have achieved podium finishes, and continue to attract sports professionals from across India due to their reliable, holistic, and performance-enhancing outcomes.

This Table No 5.7.6.1 shows the availability of specialty, general and mobile Sports Ayurveda units in the district.

Table No5.7.6.1 District-wise Distribution of Sports Ayurveda Units in Kerala

District	Specialty Unit	General Unit	Mobile Support

5.7.7 MPHW for 700 Functional Ayushman Arogya Mandirs (AYUSH)

Multi-Purpose Health Workers (MPHWs) are qualified healthcare professionals trained in General Nursing and Midwifery (GNM) or higher nursing qualifications. They play a vital role in delivering comprehensive primary healthcare services and in promoting AYUSH systems through preventive, promotive, curative, and rehabilitative interventions.

In Ayushman Arogya Mandirs, MPHWs support clinical services, public health programmes, geriatric and palliative care, emergency response, and digital health activities, while also assisting with administrative functions. They serve as a crucial link between community-based health services and institutional care, ensuring comprehensive service delivery, continuity of care, and effective programme implementation.

5.7.8 Arunima- Anemia Eradication Programme through Ayurveda

The **Arunima – Anaemia Eradication Programme through Ayurveda** is a focused public health initiative aimed at addressing the high burden of nutritional anaemia through safe, affordable, and culturally acceptable Ayurvedic interventions. Building on its successful implementation across Integrated Child Development Services (ICDS) units and nearly **6,000 schools**, the programme has strengthened awareness generation, screening, treatment support, and community participation.

To further consolidate these gains, the programme seeks to expand its reach to vulnerable populations such as tribal communities, coastal areas, urban slums, and other high-prevalence pockets.

5.7.9 Telemedicine- Strengthening and Expansion

The AYUSH Telemedicine initiative in Kerala, implemented through the National e-Sanjeevani platform, has established a State-level Telemedicine Hub with dedicated consultation consoles for Ayurveda and Homoeopathy. The initiative enables both Patient-to-Doctor and Doctor-to-Doctor teleconsultations across the State. Training has been provided to AYUSH doctors in all 14 districts, ensuring operational readiness and facilitating the phased expansion of telemedicine services to remaining facilities

5.7.10 Thyroid Special Clinic (Homoeopathy)

This project is a comprehensive, community-based **Homoeopathy Thyroid Care Initiative** aimed at early detection, effective management, and reduction of thyroid-related morbidity across Kerala, with special focus on women of reproductive age and high-burden districts. The project strengthens district-level thyroid specialty clinics by providing dedicated human resource support, diagnostic facilities, medicines, technological tools, and structured follow-up mechanisms.

Through systematic screening, outpatient and inpatient treatment, laboratory monitoring, community outreach activities, medical camps, and integration with maternal health services such as Janani, the programme seeks to reduce complications including infertility, miscarriage, associated comorbidities, and long-term health risks. This initiative aims to ensure affordable care, reduce out-of-pocket expenditure, and significantly improve the quality of life of thyroid

patients, thereby establishing a robust public health response to the growing burden of thyroid disorders in the State.

This Table No5.7.10.1 presents the number of IEC activities conducted and beneficiaries reached under the Thyroid programme

5.7.11 Training to AYUSH HR

The State proposes a comprehensive Training and Capacity Building Programme for AYUSH Human Resources. The initiative aims to enhance the knowledge, skills, and professional competence of AYUSH Medical Officers, teaching faculty, administrative personnel, and paramedical staff across Kerala. Through structured training modules covering clinical care, hospital administration, digital health systems, public health programming, research methodology, medico-legal aspects, and patient communication, the programme seeks to

strengthen service delivery, improve programme implementation efficiency, and ensure preparedness for emerging health challenges.

Training will be delivered through a blended approach comprising offline residential sessions and online platforms, ensuring equitable participation from all districts. By training approximately 5,000 personnel, the initiative is expected to significantly contribute to improving the quality and effectiveness of AYUSH services statewide.

Figure 5.7.11 HR Training

5.7.12 Yoga Wellness Centers

Yoga Wellness Centres are facilities that provide Yoga and Naturopathy services to promote physical, mental, and social well-being, with a focus on the prevention and management of lifestyle-related diseases. The programme aims to raise public awareness, encourage lifestyle modification, and promote Yoga and Naturopathy as effective tools for managing non-communicable diseases.

Implementation includes the deployment of Medical Officers and Yoga Instructors at AYUSH Arogya Mandirs, with Local Self Government Institutions (LSGIs) identifying outreach areas. Medical Officers oversee therapeutic management and coordinate Yoga and Naturopathy outreach activities to ensure effective service delivery.

Table No 5.7.12.1 provides gender-wise, outreach and total beneficiaries served through Yoga Wellness Centres

5.7.13 Non-Communicable Disease (NCD) Management through AYUSH

The Integrated NCD Care Programme is a multidisciplinary initiative that provides holistic prevention, early diagnosis, and advanced management of non-communicable diseases such as diabetes, hypertension, dyslipidaemia, thyroid disorders, stroke, and cancer through dedicated Ayurveda, Siddha, Unani, and Homoeopathy units supported by Yoga-based lifestyle interventions. With **14 Ayurveda units, 14 Homoeopathy units, two Siddha units, and two Unani units** functioning across the State, the programme aims to reduce the prevalence and morbidity of non-communicable diseases, strengthen complication care, promote lifestyle and behavioural modification, and reduce out-of-pocket expenditure by offering accessible and standardised traditional medicine services.

Implementation includes health promotion activities, high-risk screening, early diagnosis, and comprehensive clinical management of major non-communicable diseases and their complications through integrative treatment protocols at district-level advanced care centres.

Table No 5.7.13.1 summarises new registrations, follow-ups, yoga sessions and IEC activities under the NCD management programme

5.7.14 IEC Activities- Newsletter, Day Observances, Participation in Various Events, Outreach Activities etc.

Kerala has emerged as a leading State in the AYUSH sector with nearly 2300 functioning institutions ranging from medical colleges and speciality hospitals to district and peripheral health facilities. A considerable proportion of the population relies on AYUSH systems for healthcare, and many successful treatment outcomes and health initiatives have reinforced public confidence in these systems. To further strengthen awareness regarding the facilities, programmes, activities, and achievements in AYUSH, structured IEC activities such as newsletters, day observances, participation in national and international events, exhibitions, and outreach initiatives are proposed. These initiatives will enable systematic dissemination of information to the public, policymakers, planners, healthcare professionals, and stakeholders, thereby enhancing visibility and acceptance of AYUSH systems.

During the previous year, NAM Kerala successfully implemented several IEC initiatives, including the regular publication of newsletters highlighting AYUSH activities, research achievements, and success stories, along with active observance of important AYUSH and health-related days. Participation in prestigious platforms such as the G20 further contributed to showcasing Kerala's AYUSH capabilities at global level. In the coming year, it is proposed to continue and expand these efforts through enhanced newsletters, thematic day observances, participation in national and international forums, exhibitions, Arogyamelas, and focused outreach programmes. These activities will support mainstreaming of AYUSH, promote public engagement, improve accessibility of information, and reinforce Kerala's position as a prominent centre of AYUSH excellence.

5.7.15 Ilaj Bit Tadabeer (Regimental Therapy) Unit

The Ilaj Bit Tadabeer (Regimental Therapy) Unit focuses on managing increasing cases of physical immobility, pain, and locomotor disability arising from conditions such as trauma, CVA, age-related falls, and musculoskeletal disorders. By utilising authentic Unani regimental therapies such as cupping (Hijama), Dalak, Nutool, lifestyle modification, and supportive psychiatric care, the unit helps improve mobility, reduce pain, and enhance quality of life with minimal side effects. Functioning at the Government Unani Dispensary, Mogral since 1990, the unit adopts a structured approach involving systematic screening, clinical assessment, appropriate Unani medication, and therapy-based interventions, along with patient education based on Asbab-e-Sitta Zarooriya. Continuous follow-up and evidence-based management enable better functional outcomes and improved patient well-being.

5.8 Ayush Services- Ayush Gram

AyushGram is a concept wherein villages will be selected for adoption of principles and practice of AYUSH way of life and interventions of health care in villages and providing the services at grass root level. AYUSH based lifestyles are promoted through behavioural change communication, training of village health workers towards identification and use of local medicinal herbs and provision of AYUSH health services. It also include promotion of cultivation of endemic medicinal herbs and conservation of those already present in those areas. The elected village representatives are sensitized towards the concept so that there is also active participation from the community. It is a wholesome concept wherein convergence of AYUSH systems and other Govt. departments for the welfare of public is the ultimate aim.

Yoga sessions will be provided free of cost for the public at their convenient place and time with the motive of making it a part of their routine activity with constant practice.

Objectives

- To spread awareness within the community for practice of dietary habits and life styles as described in AYUSH Systems of Medicine which help in preventing disease and promoting health.
- To advice people about common ailments and its cure through use of herbs found in their localities.
- To raise campaign against communicable diseases like Malaria, Tuberculosis, Diarrhoea etc and measures for their prevention and treatment.
- Promotion of preservation and cultivation of medicinal plants.
- Prevention of Lifestyle Diseases
- Promotion of Yoga

5.9 Quality-Related Activities

5.9.1 NABH (National Accreditation Board for Hospitals)

The State Quality Assurance Wing under the **National AYUSH Mission, Kerala**, has been consistently committed to promoting a structured and sustainable Quality Assurance Programme across AYUSH healthcare institutions. The overarching objective is to ensure that services delivered under the AYUSH system provide genuine satisfaction and positive patient experience, thereby contributing significantly to overall well-being.

In the context of the growing global emphasis on healthcare quality, it has become imperative to align AYUSH services with nationally recognised quality standards, particularly through accreditation frameworks such as **National Accreditation Board for Hospitals and Healthcare Providers (NABH)** and the **National Quality Assurance Standards (NQAS)**.

Progress So Far

Kerala has emerged as a pioneer in quality healthcare delivery, with significant progress made in the accreditation of AYUSH Health and Wellness Centres (AHWCs). Out of 700 operational AHWCs in the State, 250 centres have already achieved NABH Entry-Level

Certification. This initiative has not only strengthened the operational systems of AHCs but has also enhanced public confidence and satisfaction in AYUSH services.

Impact of NABH Certification in AHCs

The NABH Entry-Level Certification of 250 AHCs in Kerala has significantly elevated the standard of AYUSH services across the state. It has led to:

- Uniform implementation of quality protocols.
- Enhanced infection control and patient safety.
- Improved staff competence through continuous training.
- Streamlined biomedical waste management.
- Improved documentation, defined SOPs, and enhanced accountability.
- Increased patient satisfaction and public trust.
- Enhanced prospects for insurance coverage under recognized schemes.

These outcomes underline the importance of extending the quality certification programme to the hospital sector to ensure consistent delivery of high-quality AYUSH care across all tiers.

The certification process will follow a structured approach, including internal and external assessments, quality-specific training, preparation of documentation, and submission of applications to **National Accreditation Board for Hospitals and Healthcare Providers (NABH)**. Gap-closure activities related to infrastructure, equipment, and process improvements will be partially supported through additional sources such as Local Self Government Institution (LSGI) funds, Corporate Social Responsibility (CSR) contributions, MLA/MP funds, and upgradation components under the **National AYUSH Mission (NAM)**, as per institutional eligibility.

Implementation Strategy

To effectively implement and monitor the certification process, the following strategic mechanisms and committees have been established:

- State-Level Steering Committee, Assessment Management Committee, and Documentation Committee for oversight.

- District Quality Teams and Quality Committees in all districts.
- District Nodal Officers and Facilitators to coordinate implementation activities.
- State-Level Orientation and Training Programs for institution heads. LSG representatives. and quality teams.
- Self-assessments by institution heads using NABH checklists to identify institutional gaps.
- Development of the AHWC NABH-ELC Implementation Handbook.
- District-Level Internal Assessments and State-Level External Assessments through a trained pool of assessors.
- Procurement of essential biomedical equipment and furniture where required.

5.9.2 Kayakalp

The **Kerala AYUSH Kayakalp Award** is a State-level initiative under the **Department of AYUSH, Government of Kerala**, designed to promote cleanliness, hygiene, and quality improvement in AYUSH healthcare institutions. The programme recognises hospitals and dispensaries that maintain high standards in sanitation, waste management, infection control, and patient safety.

The initiative encourages AYUSH facilities to adopt sustainable and eco-friendly practices while providing a clean, safe, and healing environment for patients. The award also supports the objectives of the **Swachh Bharat Mission** and enhances the overall image and service quality of AYUSH institutions across **Kerala**.

5.10 Ayushman Arogya Mandir (AAM-Ayush)

Ayushman Arogya Mandir (AAM-Ayush) are established to provide comprehensive, people-centred primary healthcare through AYUSH systems.

In Ayushman Arogya Mandir (AAM-Ayush), National Ayush Mission AYUSH provides service delivery by providing one full time Yoga Instructor and one GNM qualified Multi-Purpose Health Worker, with an expenditure of ₹4.57 lakhs incurred for implementation.

They aim to transform existing AYUSH dispensaries and sub-centres into holistic wellness centres delivering preventive, promotive, curative, rehabilitative and palliative care. AAM-

Ayush emphasise wellness promotion, lifestyle counselling, Yoga-based interventions, management of common and chronic illnesses, maternal and child health services, elderly care and referral support. Implementation is supported through the National AYUSH Mission with defined financial norms for infrastructure development, human resource support, training, IT systems and essential AYUSH medicines. Institutional mechanisms at national, state and district levels ensure planning, capacity building, convergence with NHM programmes, monitoring and evaluation to improve accessibility and quality of AYUSH-based primary healthcare.

5.11 IT Initiatives

5.11.1 AYUSH Yoga Club Locator Mobile App

The AYUSH Yoga Club Locator Mobile App is designed to help citizens easily discover and connect with government-approved AYUSH Yoga Clubs across Kerala. Using GPS-based real-time location services, the app enables users to identify nearby yoga centres, view available facilities, session timings, trainers. It promotes accessibility by ensuring that authentic and verified centres are brought within reach of every citizen, eliminating confusion regarding credibility. The platform also enhances transparency in public health service delivery by publishing verified information, performance records, and contact details of registered clubs. By simplifying access to yoga resources, the app encourages community participation, supports preventive healthcare, improves wellness awareness, and strengthens the reach of the National AYUSH Mission's health promotion initiatives.

5.11.2 Civil ERP Software

Civil works constitute a major component under the National AYUSH Mission, and ensuring timely completion, transparency, and accountability is critical in the execution of Government infrastructure projects. Traditional monitoring and coordination methods often resulted in delays, inefficiencies, and lack of structured documentation, which necessitated the development of a dedicated Civil ERP Software to digitally integrate and streamline all aspects of civil work management from planning to completion. The platform functions as a comprehensive, centralised system accessible to administrators and technical teams, facilitating real-time supervision and effective governance. It enables systematic project planning and approval through online submissions and structured workflows, supports continuous execution monitoring through stage-wise milestone tracking, and allows uploading of photographic evidence with GPS coordinates to authenticate site progress. Additionally, it incorporates robust financial tracking features, including budget allocation, utilisation monitoring, payment milestone integration, and complete visibility of fund flow, thereby ensuring financial discipline, transparency, and accountability across all civil infrastructure activities under the Mission.

Figure 5.11.2.1 Screenshot of ERP Software Home Screen

Figure 5.11.2.2 Screenshot of ERP Software dashboard

5.11.3 AYUSH Medicine Procurement Software

The AYUSH Medicine Procurement Software was developed to meet the growing need of the National AYUSH Mission, Kerala, for a modern and reliable digital system to streamline medicine procurement operations across hospitals and dispensaries, replacing earlier

manual processes that caused delays, duplication, lack of real-time stock visibility, and data inaccuracies. This comprehensive end-to-end digital platform enables institutions to generate and submit indents online, while District Medical Officers, District Programme Managers, and higher authorities can review, approve, or revise requests through a structured workflow. Integrated master data ensures consistency, while timely alerts support pending approvals, stock shortages, and delivery tracking. Detailed dashboards and analytics provide meaningful insights into procurement trends and utilisation patterns, supporting informed decision-making. Secure role-based login ensures data safety and clarity of responsibilities, while automated processes help maintain essential stock levels, eliminate manual errors, and ensure transparency. The system strengthens coordination between hospitals, district authorities, and Oushadhi, supports real-time monitoring, facilitates timely replenishment, and ensures compliance with government norms, ultimately creating a transparent, efficient, and audit-ready digital ecosystem for AYUSH medicine management in Kerala.

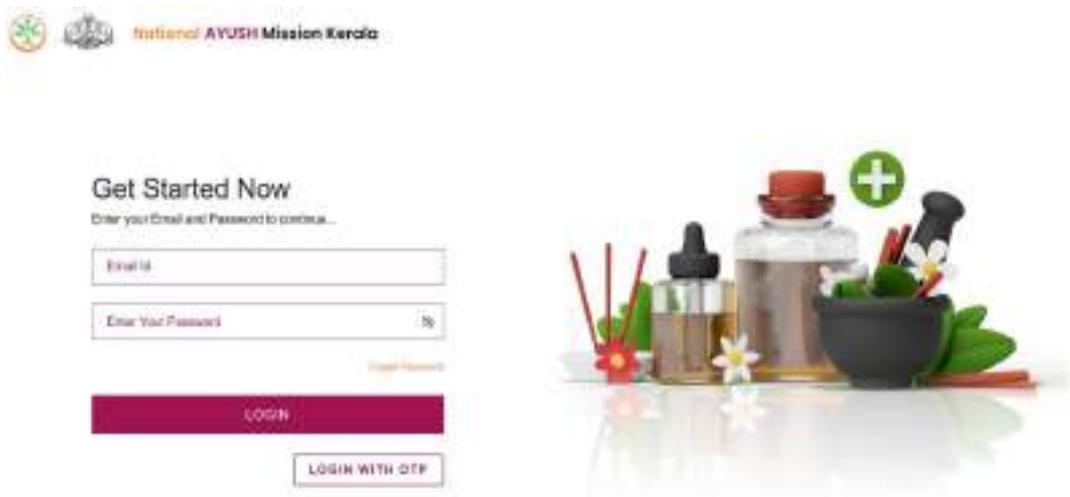

Figure 5.11.3.1 Screenshot of Login Page in AYUSH Medicine Procurement Software

Figure 5.11.3.2 Screenshot of Home Page in AYUSH Medicine Procurement Software

5.11.4 NAM HR & Payroll Software

The National AYUSH Mission, Kerala, recognised the need for a robust and reliable system to efficiently manage attendance and payroll processes across its centres, as conventional methods were largely manual, time-consuming, prone to errors, and lacked real-time verification and transparency. To overcome these challenges and ensure accuracy, accountability, and operational efficiency, the NAM HR & Payroll Software was developed as a comprehensive digital solution. The system facilitates real-time attendance tracking with accurate time records, supported by geo-tagged attendance to ensure location-based verification and prevent proxy entries. It allows flexible shift assignment, offers an integrated online leave management workflow, and enables fully automated payroll processing with single-click salary generation based on verified attendance and leave data, supported by multi-level verification for compliance and financial discipline. By simplifying attendance management, ensuring digitally documented records, reducing administrative workload, and enhancing transparency in salary processing, the software significantly strengthens efficiency, governance, and accountability across all AYUSH centres.

5.11.4.2 Figure : NAM HR & Payroll Software in mobile app

5.11.5 AYUSH Payment Monitoring System

The AYUSH Payment Monitoring System is a comprehensive web-based financial governance platform under the National AYUSH Mission (NAM), designed to enhance transparency,

accountability, and efficiency across all payment-related processes. It manages the complete financial workflow, including fund allocation, expenditure tracking, bill submission, verification, approval, and final disbursement, while also supporting vendor management, automatic TDS processing, configurable dashboards, and detailed financial reporting for smooth and error-free transactions. The system maintains precise district-wise financial records, ensures component-wise fund control, and effectively monitors project-wise unspent balances, providing a complete end-to-end digital trail that strengthens audit readiness and governance compliance. It tracks real-time balances, flags idle or unutilised funds, enforces automated financial controls to prevent overspending, and supports multi-level user access, workflow automation, scalable architecture, and clear segregation of agency-wise and component-wise expenditures. Leveraging AI capabilities, the platform enables real-time validation checks to prevent errors and fraud, predictive analysis of fund utilisation trends, and intelligent alerts with actionable recommendations, thereby ensuring a unified, transparent, and reliable financial monitoring ecosystem for AYUSH across multiple implementing agencies.

5.11.6 Learning Management System

The AYUSH sector faces several training-related challenges, including difficulty in reaching rural and remote regions, lack of standardised and trackable certification processes, high expenditure on physical training workshops, and the absence of a unified system for maintaining centralised training and certification records. To address these gaps, a dedicated Moodle-based Learning Management System (LMS) has been developed exclusively for AYUSH, serving as a centralised online platform where students, practitioners, and professionals can enrol in Government-recognised certification courses, access structured digital learning materials, interact with trainers and peers, and receive verifiable digital certificates upon completion. Deployed on a secure cloud environment, the LMS ensures reliability, scalability, and continuous availability, supported by trained administrators, user manuals, ongoing technical assistance, and provisions for future enhancements such as AI-driven recommendations and analytics dashboards. Highly scalable and accessible, the software enables thousands of learners, including rural practitioners, to benefit from uniform, standardised training while significantly reducing the costs associated with

physical training programmes. It ensures transparency through automated, verifiable certification, enhances convenience through a user-friendly mobile-compatible design, and guarantees data security through secure hosting and role-based access controls, thereby strengthening capacity building, governance, and the digital transformation of AYUSH training in alignment with the Digital India vision.

Chapter 6

DIRECTORATE OF AYURVEDA MEDICAL EDUCATION

Government Ayurveda College, Kannur

6.1 History and Overview of Government Ayurveda College, Kannur

The Government Ayurveda College in Kannur (also known as GAVC Kannur) stands as one of the oldest and most prestigious institutions dedicated to the study and practice of Ayurveda in the state of Kerala. It represents a significant chapter in the modernization and institutionalization of this ancient medical system.

6.1.1. Historical Background

Founding and Early Years: Inception of Government Ayurveda College in Kannur was announced during the 1991-92 Budget Speech by the Hon'ble Minister for Finance, Government of Kerala, marking a significant milestone in the advancement of Ayurvedic education in the state.

Dr. M. Govindan, then Superintendent of Government Ayurveda College Hospital, Tripunithura, was appointed as the Special Officer to oversee the preparatory work. He

assumed charge on May 10, 1991. Initially, the college functioned from the old block of the Government Town High School Building near SN Park, Kannur.

On January 15, 1992, Dr. M. Govindan was formally appointed as the first Principal, and the inaugural batch of BAMS students commenced their academic journey.

A Shift in Location and Name: The college was subsequently allotted 35 acres of land in Kadannappally Village, Kannur Taluk, for the development of dedicated infrastructure including academic buildings, hospital facilities, hostels, and staff quarters.

From June 1, 1998, the college transitioned to its newly constructed campus in Pariyaram.

With the relocation, the institution was renamed the Government Ayurveda College, Kannur, Pariyaram reflecting its broader regional identity.

6.1.2 Institutional Overview

- **Type:** Government-funded and administered.
- **Location:** Pariyaram, Kannur District, Kerala, India.
- **Affiliation:** The college is affiliated with the Kerala University of Health Sciences (KUHS), Thrissur, which ensures its academic curriculum and degrees are standardized and recognized nationally.
- **Approval & Recognition:** It is fully approved by the National Commission for Indian System of Medicine (NCISM) (formerly the Central Council of Indian Medicine - CCIM) and the Government of Kerala.
- **Campus:** Set in a serene, lush green environment near Govt Medical College Kannur, the campus provides a tranquil and conducive atmosphere for study and healing.

6.1.3 Academic Programs

The college offers comprehensive undergraduate and postgraduate programs:

- **Undergraduate Program:**
 - Bachelor of Ayurvedic Medicine and Surgery (BAMS): This is a 5.5-year program (including a one-year compulsory rotating internship).

- The intake capacity - 75 seats
- **Postgraduate Programs (MD/MS Ayurveda):**
 - Kriya sharira –9 seats
 - Roganidana evam Vikriti vigyan –8 seats
 - Rasashashtra evam Bhaishajyakalpana – 7 seats
 - Shalyatantra – 6 seats
 - Shalakyatantra – 6 seats
- **Diploma Program**
 - Diploma in Roganidan Vidhi – Intake capacity: 2 seats
- **Paramedical Certificate Courses (One Year)**
 - Ayurveda Therapist Certificate Course
 - Ayurveda Nurses Certificate Course
- **Recognition as a Ph.D. Research Centre**

Government Ayurveda College has been recognized as a Ph.D. research centre under Kerala University of Health Sciences (KUHS), strengthening its role as a hub of advanced academic pursuit. Since 2017, two departments have been functioning as approved Ph.D. centres, and from 2023 onwards, this status was extended to all departments of the college. This milestone reflects the institution's growing academic stature and its commitment to fostering high-quality research in Ayurveda.

6.2 Infrastructure and Facilities

The Government Ayurveda College in Kannur boasts a comprehensive and modern infrastructure designed to support its academic, clinical, and research missions.

1. Academic & Learning Infrastructure

- Academic Blocks: Spacious and well-ventilated classrooms and lecture halls equipped with modern teaching aids like projectors and audio-visual systems to facilitate effective learning.

- **Central Library:** A well-stocked library with a vast collection of:
 - Textbooks and reference books on Ayurveda, Modern Medicine, and related sciences.
 - National and international journals.
 - Rare classical texts and manuscripts.
 - Library section with internet access for e-resources.
- **Museum:** A sophisticated and essential learning resource containing:
 - Detailed anatomical models.
 - Specimens of medicinal plants and drugs (Dravya Darshana).
 - Charts of Marma points, surgical instruments, and physiological processes.
 - The Department of Agada Tantra at Government Ayurveda College, Kannur, houses a well-established museum that serves as an important academic and practical resource for students. The Agada Tantra Museum showcases a comprehensive set of poisons, medicolegal weapon exhibits, and a variety of illustrative charts and models related to toxicology and forensic medicine.
- **Herbal Garden:** A well maintained garden with a wide variety of medicinal plants used for practical demonstrations and study of Dravyaguna (Ayurvedic Pharmacology).
- **Digital Evaluation Centre:-** The Institution also has a fully functioning Digital Evaluation Centre, equipped with modern technological infrastructure to ensure efficient, transparent, and timely assessment of examination scripts.

2. Clinical & Hospital Infrastructure

The attached Government Ayurveda Hospital is a massive complex and the cornerstone of practical training. It is one of the largest Ayurveda hospitals in the region.

• Hospital Complex & Bed Capacity:

- Main Hospital Block: A 150-bedded facility for general and specialized treatments.
- Women & Children Hospital: A dedicated 50-bedded wing for Obstetrics, Gynaecology, and Paediatrics.
- Pay Ward / Special Wards: Includes 21 Pay ward rooms and a KHRWS section with 40 rooms (including deluxe and paying beds), catering to patients seeking private and enhanced comfort.

• **Specialized Treatment Departments:**

- Panchakarma Unit: A fully equipped unit for traditional detoxification and rejuvenation therapies.
- Ksharasutra Clinic: A specialized clinic renowned for its para-surgical treatment of fistulas and haemorrhoids.
- Integrated OPDs: Separate Out-Patient Departments for all major specialties like Kayachikitsa, Shalya tantra, Shalakyta tantra, Swasthya rakshana, Agada tantra, Kaumarabhritya, Prasuti - stree roga, and Panchakarma.
- Operation Theatre: For performing Ayurvedic surgical procedures.

- Laboratory & Diagnostic Facilities: In-house facilities for routine and advanced pathological and radiological investigations.

3. Practical Training & Laboratory Infrastructure

- Departmental Labs: Each academic department has its own laboratory for practical demonstrations and student experiments.
- Modern Medical Labs: Well-equipped laboratories for:
 - Biochemistry
 - Physiology
 - Pathology
 - Microbiology
- Rasa Shastra & Bhaishajya Kalpana Lab: A dedicated laboratory for the practical preparation of Ayurvedic medicines, where students learn pharmaceutical processes like Bhasma, Asava, Arishta, and Ghritha preparation.

4. Support & Student Amenities

- Hostels: Separate and secure hostel facilities for male and female students, located within the campus.
- Canteen & Cafeteria: Provides hygienic and affordable food for students, staff, and patients.
- Auditorium & Seminar Halls: Spaces for conducting conferences, workshops, seminars, and cultural events.
- Sports & Recreation: Facilities for various indoor and outdoor sports to ensure the all-round development of students.
- Administrative Block: Houses the principal's office, administrative offices, and other support services.
- Ladies' room: - The college has a well-equipped Ladies' Room exclusively for female students, designed to provide a safe and comfortable space for use during

emergency situations. The facility is maintained with essential amenities to ensure privacy, hygiene, and immediate support whenever required.

5. Unique Features and Legacy

- **Pioneering Institution:** As one of the first government Ayurveda colleges in the Malabar region, it has played a pivotal role in producing thousands of skilled Ayurvedic physicians who serve across India and the globe.
- **Focus on Classical Ayurveda:** The college is known for its strong emphasis on teaching the classical texts of Ayurveda, such as the Charaka Samhita, Sushruta Samhita, and Ashtanga Hridayam, while integrating modern diagnostic techniques.
- **Clinical Excellence:** The attached hospital is a major healthcare center for the public, offering affordable and authentic Ayurvedic treatments, including complex Panchakarma procedures.
- **Research and Development:** Faculty and students are actively involved in research projects, contributing to the evidence-based growth of Ayurveda.
- **In essence,** Government Ayurveda College, Kannur stands as more than an academic institution—it is a living repository of Ayurvedic heritage and a dynamic force shaping its future. By seamlessly integrating time-honoured wisdom with modern pedagogical frameworks, the college has emerged as a pivotal centre for Ayurvedic education and innovation in South India.

6.3 Human resource profile

Year	Sanctioned amount	Purpose
2022-2023	15 Lakhs	Medicine purchase
2023-2024	15 Lakhs	Medicine purchase
2024-2025	15 Lakhs	Medicine purchase

6.6 Projects

1. PROJECT ON AUTISM - Faculty research work under centre of excellence for disability studies, TVM (Dept. of Kaumarabhritya)

- Project title :- Combined effect of Mahapaishachika ghritham and balasohaladi shirolepam against kalyanaka ghritham and brahmisolahadi shirolepam in the socio behavioural domains of autism in children - a randomized controlled trial
- Institution - Government Ayurveda College, Kannur.

Year	Expenditure	Beneficiaries
2022-23	100000	20

2. CCRAS SMART (Scope for Mainstreaming Ayurveda Research in Teaching Professionals) PROJECT (Dept. of Roganidana evam Vikriti Vigyan)

- Project title : - Treatment tolerability medication adherence and safety of ayurvedic formulations in the management of psoriasis : An open label single arm study.
- Institution – Government Ayurveda College, Kannur.

Year	Expenditure	Beneficiaries
2023-24	24810	18
2024-25	107990	49
2025-26	89644	37

3. AYURVIDYA PROJECT (Dept. of Kaumarabhritya)

- To promote healthy behaviour among the children that they will inculcate for life
- Institution –Government Ayurveda College, Kannur.

Year	Expenditure	Beneficiaries
2023-24	0	6410

4. SUPRAJA PROJECT (Dept. of Prasuti- Stree roga)

- To provide ayurvedic health care to pregnant women, lactating mother and infants to enhance their physical and mental well-being, to make people aware about the relevance of ayurvedic ante natal and post-natal care.
- Institution –Government Ayurveda College, Kannur.

Year	Expenditure	Beneficiaries
2024-25	0	510
2025-26	31832	2172

5. KARUNYA PROJECT (Dept. of Swastha vritta evam Yoga)

- To ensure delivery of quality assured, integrated supportive palliative care to individuals with life limiting illnesses; To address their psycho social needs through counselling and other community interventions; To promote awareness and sensitization about care among palliative patients, family, care givers and in the community.

- Institution – Government Ayurveda College, Kannur

Year	Expenditure	Beneficiaries
2024-25	0	0
2025-26	22352	160

6.7 Quality - related activities

Quality Council of India (QCI): -We participated in the NCISM–MARBISM rating under QCI and secured the 48th position among 450 Ayurveda colleges in India and the 5th position among Ayurveda colleges in Kerala.

NABH:- Government Ayurveda College has initiated the NABH accreditation process, successfully completed the Gap analysis, and is actively working on the implementation of the Hospital Information Management System (HIMS) as part of quality improvement and digital transformation initiatives.

Biomedical Waste Management: Biomedical waste management is being effectively implemented in the institution through affiliation with IMAGE (Indian Medical Association Goes Eco-friendly), as per letter No. Inv/Dc/2024-2025/76183 dated 13/02/2025.

Fire & Safety: The fire and safety inspection has been successfully completed, and all necessary formalities and procedures for obtaining the Fire and Safety NOC have been duly fulfilled in accordance with regulatory requirements.

6.8 Other activities

1. Continuing Medical Education (CME) & Workshops

2021 -2022

SL no:	Name	Department	No of days	Other details
1	BHISHAK KRIYA - online	Dravyaguna vijnana	4/3,7/3,8/3	Rs 15000
2	Endometriosis in ayurvedic practice	Prasuti - stree roga		

2022-2023

Sl no:	Name	Department	No of days	Other details
1	Allergic disorders- an Agad tantra perspective	Agad Tantra evam Vidhi Vaidyaka	9/2, 10/2	Rs120000
2	Retinal disease evaluation and management -online CME	Shalakya tantra	22/2-24/2	Sponsored by Ayush Govt of Kerala
3	DASHAHA SAMEEKSHA -CME on developmental pediatrics	Kaumarabhritya		
4	National level CME on world breast feeding week - SANJEEVANI	Kaumarabhritya	1/8-7/8	

5	Online national CME on oushadha yoga	Kaumarabhritya	3/1 -19/1	
6	SHIRA SIDHI- CME on shiro kriya kramam	Panchakarma	11/1,12/1	
7	Webinar on labor room guidelines	Prasuti - stree roga	29/04	
8	Healthy pregnancy outcome through Ayurveda -webinar	Prasuti - stree roga	24/09	
9	Samsrishti	Prasuti - stree roga	18/3- 20/03	
9	Pranetha – CME on clinical assessment of neurological disease	Roganidana evam Vikriti vigyan	06/2- 10/2	RS 30000

2023-2024

SL no	Name	Department	No of days	Other details
1	VIBHA -CME on contact dermatitis	Agad Tantra evam Vidhi Vaidyaka	29/1, 30/1,31/1	Rs35000
2	SPINA – CME on spinal disorders	Shalya tantra	5/1, 6/1	
3	IKSHANA -online CME on radiology and imaging techniques	Rachana Sharira	18/1to 24/1	

4	PRAKRITI ASSESSMENT WORKSHOP	Kriya sharira	20/3/,21/3	Dr Rohit K S and Dr Krishnakumar P(research officer)
5	DHYEYAM -national level CME, neurodegenerative disorders	Kaumarabhritya	15/1-19/1	Ministry of Ayush
6	RITHUVEDA PCOS and infertility	Prasuti - stree roga	18/4	
7	Adolescent gynecological problems	Prasuti - stree roga a		
8	Subhodini 2023 – Guna Vichara (Online mode)	Samhitha Siddhantha and Sanskrit department	16/01/2023 – 19/01/2023	85 participants

2024-2025

SL no	Name	Department	No of days	Other details
1	HRIDHISWASA – workshop on ECG and computerized spirometry	Kriya sharira	29/1,30/1	
2	PRAJNA – workshop on audiometry	Shalakya tantra	19/6	BY Dr Aswathy Sreejith (chief audiologist)

3	SUBODHINI – Modern techniques of teaching and learning	Kriya sharira	2 days	
4	DWANI -Diagnosis and management of hearing loss	Shalakya tantra	27/1,28/1	
5	OUSHADHI SAMVARDHANA – identification and cultivation of medicinal plants	Dravyaguna vijnana	22/1, 23/1	Rs 98000
6	Post-natal care through Ayurveda	Prasuti - stree roga		
7	Management of breast disease through Ayurveda	Prasuti - stree roga		

2025-2026

SL no	Name	Department	No of days	Other details
1	KRIYAVICHINTHANAM	Kriya sharira	22/9 to 27/09	Rs90000
2	PROCTO-EX- National level workshop webinar series	Shalya tantra	30/04	

2. Training Programs**2021 - 2022**

Sl no	Name	Date	Department	Details
1	SIDHI Training programme for ayurveda therapist and nursing assistants	22/2-28/3	Panchakarma	GAVC hospital
2	ARIVU 2022 online training for Anganwadi teachers on early detection of developmental disorders	march	Kaumarabhritya	Gavc hospital

2022- 2023

5. Village adoption Initiatives for Empowering Rural Communities

Government Ayurveda College has adopted Kadannappally–Panapuzha Panchayath (11th Ward) and Ezhome Panchayath (4th, 7th, and 10th Wards) as part of its community outreach and extension activities. As part of the Adopted Village Programme, a series of community-centred health and wellness activities were successfully organized to enhance public health awareness and promote sustainable living practices.

A medical camp was conducted to provide basic health check-ups and necessary treatments to the residents, ensuring accessibility to healthcare services. A yoga training programme was organized to encourage physical fitness and mental well-being among participants.

A health survey was undertaken to assess the prevailing health conditions and identify the major health concerns of the community. In continuation of the health promotion efforts, awareness classes were conducted focusing on hygiene, nutrition, and preventive health measures.

To promote traditional healthcare practices, medicinal plants were distributed to the villagers for home-based use. Further, an eco-friendly mosquito repellent was administered at Thekkekkara L.P. School, spreading awareness on sustainable vector control practices among school children and the local population.

6. Medicinal plants distribution by Department of Dravyaguna vigan

2021

- 31/05/2021 – Collected 100 saplings from Oushadhi for Environment Day celebrations

7. Prakriti parikshan

Government Ayurveda College, Kannur, actively participated in the “Desh Ka Prakriti Parikshan” campaign, contributing to the nationwide initiative aimed at promoting

awareness about individual Prakriti assessment and its relevance in personalized healthcare.

A total of 396 volunteers took part in the initiative, including 351 student volunteers and 45 faculty members. Under this campaign, 7,406 Prakriti assessments were conducted by students and 3,556 assessments by teachers, making a total of 10,962 Prakriti Parikshan completed successfully.

8. Ayurveda Exhibition

Government Ayurveda College conducted an Ayurveda Exhibition titled “AYUR EXPO” as part of the Ayurveda Day celebrations during the academic years 2024–2025 and 2025–2026.

a) Ayur expo 2024-2025

Venue: Government Ayurveda College, Kannur

Date: 26 & 27 November

As part of the Ayurveda Day celebrations, Government Ayurveda College, Kannur, organized Ayur expo 2024-2025 with the theme “Integrating Ayurveda with Modern Healthcare.” The event aimed to create a bridge between ancient Ayurvedic wisdom and contemporary medical systems.

A total of 8 stalls were exhibited, including contributions from UG students (3 stalls), PG scholars (1 stall), house surgeons (1 stall), staff batches (2 stalls), and a general stall representing the main exhibits of the college. The exhibition received an overwhelming

response, with participation from over 350 students and more than 400 patients and members of the general public.

b) Ayur expo 2025-2026

Venue: Government Ayurveda College, Kannur

Date: 25 & 26 September 2025

As part of the Ayurveda Day celebrations, AYUR EXPO 2025-2026 was organized at Government Ayurveda College, Kannur, with the theme “Ayurveda for People and Planet.” The objective of the event was to create awareness about the principles of Ayurveda and its relevance in promoting holistic health and wellbeing.

A total of 9 thematic stalls were exhibited:

1. Evolution of Ayurveda – Rasashastra evam Bhaishajyakalpana and Panchakarma department
2. Women and Reproductive Health – Prasuti - Stree Roga department
3. Nirvisha – Agadatantra evam vidhi vaidyaka department
4. Swasthya – Swasthavritta evam Yoga department
5. Jeevani – Dravyaguna vijnana department
6. Sareedarshan – Rachana Sharira and Roga Nidana and Vikriti vigyan department
7. Antarjyothi – Kriya Sharira department
8. Balajeevani – Kaumarabhritya and Kayachikitsa department

9. Drishti – Shalya tantra and Shalakyta tantra department

The exhibition drew active participation from seven visiting schools, with a total of 80 students attending. The event effectively conveyed the holistic and eco-conscious essence of Ayurveda, highlighting its relevance for individual and planetary health.

10. National Service Scheme (NSS)

NSS activities of year 2022

The National Service Scheme (NSS) Unit of the college actively organized various programmes during the year 2022 with the aim of promoting social responsibility, environmental awareness, and community health among students.

A seven-day special camp was successfully conducted from 17th March 2022 to 24th March 2022, which included seven awareness classes and four medical camps focusing on public health and hygiene. These sessions provided valuable exposure and hands-on experience to volunteers in community service and healthcare initiatives.

In addition to the camp, several activities were organized throughout the year. Notable among them were Haritha Swathanam, Basic First Aid Class, Environment Day and International Yoga Day Celebrations, which emphasized environmental conservation and holistic wellness.

The unit also took part in national-level initiatives such as Nasha Muktha Bharath Abhiyan (pledge-taking ceremony), Har Ghar Tiranga Campaign, and Swach Sagar Abhiyan, thereby aligning with government missions promoting national unity, cleanliness, and drug-free living.

A fund-raising programme titled "We Care" was held from 12th to 17th September 2022, aimed at supporting social welfare activities. The year concluded with the celebration of NSS Day, National Unity Day, and an Anti-Drug Campaign, reinforcing the values of solidarity, service, and social responsibility among students.

NSS activities of year 2023

The NSS Unit of the college actively organized various community-oriented programmes throughout 2023, focusing on health awareness, environmental protection, and social responsibility.

A total of 11 awareness classes and 4 medical camps were conducted during the year. Major observances included Environment Day, International Yoga Day, International Day Against Drug Abuse, Independence Day, Constitution Day, and AIDS Day Pledge Taking.

NSS volunteers participated in outreach activities such as A Day at Asraya, Herbal Garden Making at the Medical College Public School, Pariyaram, and health awareness programmes in schools including Pilathara UPS, Edanad UPS, GHSS Cheruthazham, GHSS Kadannappally, and GBHSS Madayi.

A Blood Checking Camp was held on World Diabetes Day, and the NSS medical team rendered active service during the Navakerala Sadas.

NSS activities of year 2024

The NSS Unit of the college conducted a seven-day special camp from 30th January to 5th February 2024, featuring five awareness classes and four medical camps aimed at promoting health education and community welfare.

Other major activities during the year included an Awareness Class on Blood Donor Day, International Yoga Day Celebrations, participation in Flash Mob and Marathon events organized by the AIDS Control Society, and Youth Day Oath Taking.

NSS activities of year 2025

The NSS Unit of the college actively carried out various service-oriented and awareness programmes during 2025. A total of four awareness classes and eight medical camps were organized, focusing on community health and public welfare.

Major activities of the year included Environment Day and Yoga Day Celebrations, Blood Donation Camp, Anti-Drug Pledge Taking, and Reading Week Competitions. NSS volunteers also participated in Herbal Garden Setting and Wall Painting for the Anti-Drug Campaign, promoting environmental consciousness and social responsibility.

6.9 Achievements

1. Excellence in Professional Recognition

The faculty of Government Ayurveda College have consistently brought pride to the institution through distinguished honours at state and national levels. **Dr. S. Gopakumar** has been celebrated with a series of prestigious awards, including the Shri Dhanwanthari Ayurveda Puraskaram (2023), the Bhisak Ratna Award – Lifetime Achievement by the Ayurveda Medical Association of India (2023), the Amrut Mahotsavi Sanman Dhanwantari Award by the National Integrated Medical Association, Nagpur (2022), the Best Teacher Award from Kerala University of Health Sciences (2020), and the Athuramithram Award for contributions to public health (2020). Adding to the collective achievements, **Dr. Asha Sreedhar** was recognized with the Best Doctor Award by the Red Cross Society, Pambady, Kottayam, and was awarded a Ph.D. by Kerala University (2019). **Dr. Roshni Anirudhan** was honoured with the Kerala Government Atreya Award in 2019, **Dr. Madhu P. M.** received the L. Mahadevan Memorial Bhisak Sreshta Award (2025), **Dr. Pradeep** (Associate Professor, Department of Kriya Sharira) was conferred the Best Teacher Award by KUHS (2024), and **Dr. Farseena** earned the Best Paper Award at the Fourth Global Ayurveda Festival (2021) for her research on Rasayanas in boosting immune status in Type 2 Diabetes Mellitus. **Dr. Vidya K. P.** received the Best Paper Presentation Award at the 3rd Global Ayur Fest (2020) and the Best Paper Presentation Award at the National Seminar SAADHANA held at Nangelil Ayurveda College, Kothamangalam (2019).

2. Innovation Recognized through YIP

In the Young Innovators Programme (YIP) 5.0, during the year 2022-2023 and Young Innovators Programme (YIP) 7.0 during the year 2024-2025 Government Ayurveda College proudly secured first position at the Kannur district level for submitting the maximum number of innovative ideas. In parallel, Dr. P. M. Madhu, the Nodal Officer of YIP, also achieved first position as Nodal Officer and best facilitator award, a dual honour that highlighted both institutional excellence and individual leadership in fostering innovation.

3. Leadership Milestone in Higher Education

Marking a historic achievement, Dr. S. Gopakumar, Professor at Government Ayurveda College, Kannur, was appointed as the Registrar of Kerala University of Health Sciences (KUHS) on 15th June 2024. This appointment reflects not only his personal academic leadership and administrative expertise but also the growing recognition of the contributions of Ayurveda professionals in shaping the future of health sciences education.

Dr. Indukala P. R., Principal of Government Ayurveda College, Kannur, has been nominated as a Senate Member of the Kerala University of Health Sciences (KUHS) for the year 2025. She also serves as a member of the Academic Council of KUHS, reflecting her significant contributions to academic leadership and advancement in the field of Ayurveda education.

4 . Research Contributions

The faculty of Government Ayurveda College have made remarkable contributions to academic literature, with 165 research articles published in reputed journals.

5. Publications and Books

The faculty and departments have authored and released 41 books, enriching Ayurvedic education and practice with valuable reference material.

6. National and International Presence

The faculty have actively represented the institution at **160 national and international seminars**, showcasing their expertise on global platforms. Such participation underscores the college's growing recognition and contribution to academic dialogues worldwide.

7. Academic Excellence through Higher Education

The pursuit of higher learning has been a cornerstone of institutional growth, with **seven faculty members successfully completing their Ph.D. degrees**. This academic achievement not only enhances individual expertise but also strengthens the overall research capacity of the college.

8. Academic Excellence and Research Contributions by PG scholars

The postgraduate scholars of Government Ayurveda College have consistently demonstrated outstanding academic performance. They have contributed numerous **research publications**, reflecting their dedication to advancing the scientific foundations of Ayurveda.

9. Professional Appointments and Career Milestones

The college has successfully nurtured future leaders in Ayurveda, with **15 scholars securing appointments through PSC and UPSC** as Medical Officers and Assistant Professors. This achievement underscores the institution's commitment to professional development and career growth.

10. Recognition through National Research Initiatives

The postgraduate scholars have actively participated in academic forums, delivering **multiple paper presentations at national and international seminars** and earning **five**

awards for exceptional contributions. Notably, **three PG scholars were selected under the prestigious “PG-STAR” scheme of the Central Council for Research in Ayurvedic Sciences (CCRAS)**, a national initiative to promote and strengthen research among MD/MS (Ayu) scholars. These accomplishments highlight the college’s role in fostering research-oriented professionals who are shaping the future of Ayurveda.

11. Excellence in Arts

Students of Government Ayurveda College have consistently showcased their talent in cultural pursuits. They have **secured prizes in both on-stage and off-stage events** at the **Inter-Zone Festivals of Kerala University of Health Sciences (KUHS)**, demonstrating creativity, teamwork, and artistic excellence. Notably, the college achieved runner-up position in 2024 and **4th place in the North Zone Arts Festival** in 2022, 2023, reflecting sustained performance over the years.

11. Achievements in Sports

The college has also excelled in athletics and team sports. Under the leadership of **P. K. Rajan**, the college football team **became champions in 2024**, highlighting dedication, skill, and sportsmanship. These accomplishments underscore the institution’s emphasis on holistic development, fostering both physical and cultural growth among students.

13. Academic Excellence in Competitive Examinations

Students of Government Ayurveda College have consistently achieved **high ranks in PG and Ph.D. entrance examinations**, reflecting their strong academic foundation and rigorous preparation. These accomplishments highlight the institution's role in fostering scholarly excellence and guiding students toward advanced studies in Ayurveda.

14. Academic Excellence in University Examinations

Student of 2022 batch, Navya Mohanlal Secured 1st Rank in first year examination conducted by Kerala University of Health Sciences in 2022, secured 2nd Rank in second year Examination conducted by KUHS in 2023, Secured 1st Rank in 3rd year examination conducted by Kerala University of Health Sciences in 2024 and Secured 1st Rank in final year examination conducted by Kerala University of Health Sciences in 2025.

Students have achieved University PG ranks in Roganidana and Kriyasareera in recent years.

The first international student from Bangladesh, Dr. Rahath, of Government Ayurveda College, Kannur, has successfully completed his BAMS course. Marking a proud moment for the institution, he has secured admission for postgraduate studies at the prestigious **National Institute of Ayurveda, Jaipur**. This remarkable achievement highlights the college's growing global presence and its commitment to promoting Ayurveda education on an international platform.

15. Disaster Response and Management Efforts:

. Student-Faculty Collaboration for Flood Management (occurred at 2018) and COVID-19 Responses

16. Inter disciplinary collaboration

Collaborative Academic Excellence done through Govt Medical college Pariyaram, Govt College Payyanur, Itoozhi Namboothiris Ayurveda Nursing home Mayyil, Koyili college of nursing Kannadiparamba

17. Going Green on Campus

Greening the Campus by Eco-Friendly Practices and promoting Environmental Awareness

18. Patents in Diabetes Mellitus and PCOS Research

Two faculties of Government Ayurveda College, Kannur have been granted patents based on PhD research in the areas of Diabetes Mellitus and PCOS, reflecting the institution's contribution to innovative research in Ayurveda.

10 ANNEXURE - 1

10.1 Human Resources details - Govt. Ayurveda College

Sl no	Designation	No of Posts
1	PRINCIPAL	1
2	ADMINISTRATIVE ASSISTANT	1
3	SENIOR SUPERINTENDANT	1
4	HEAD ACCOUNTANT	1
5	SELECTION GRADE TYPIST	1
6	SENIOR CLERK	3
7	U D TYPIST	1
8	CLERK	3
9	OFFICE ATTENDANT	6
10	ARTIST CUM MUSEUM KEEPER	1
11	DRIVER SENIOR GRADE	1
12	LAB TECHNICIAN	2
13	LAB ATTENDER	2
14	LIBRARIAN GRADE I V	1
15	LIBRARY ATTENDER	1

16	GARDNER Gr 1	1
17	GARDNER	4
18	WATCHER GR II	3
19	SANITATION WORKER	6
20	PART TIME SWEEPER	3
21	YOGA INSTRUCTURE	1
22	BIOSTATISTICIAN	1

10.2 Human Resources details - Department wise

Sl no	Department	Designation	Name
1	SAMHITA SAMSKRITA AND SIDDANTA	Associate Professor	2
3		Assistant Professor	3
6	RACHANA SHAREERA	Professor	1
7		Associate Professor	1
8		Assistant Professor	2

10		Multi Purpose Worker	1
11	KRIYA SHAREERA	Professor	1
12		Associate Professor	1
13		Assistant Professor	2
15		Lab Technician	1
16		Lab Assistant	1
17		RASASHASTRA & BHAISHAJYA KALPANA	Professor
18	Associate Professor		1
19	Assistant Professor		2
21	Lab Attender		1
22	ROGANIDANA	Associate Professor	1
23		Assistant Professor	3
26		Lab Technician	1
27	DRAVYAGUNA	Professor	1

28		Assistant Professor	3
31		Gardener	5
36		Museum Keeper	1
37	AGADA TANTRA	Professor	1
38		Assistant Professor	2
40	SWASTHAVRITTA	Professor	1
41		Assistant Professor	2
43	KOUMARABHRITYA	Professor	1
44		Associate Professor	1
44		Assistant Professor	2
46	PRASUTI TANTRA AND STREE ROGA	Professor	1
47		Associate Professor	1
48		Assistant Professor	2
50	KAYA CHIKITSA	Professor	1

51		Associate Professor	1
52		Assistant Professor	2
54	PANCHAKARMA	Associate Professor	1
55		Assistant Professor	2
57	SHALYA TANTRA	Associate Professor	2
59		Assistant Professor	2
61	SHALAKYA TANTRA	Professor	1
62		Associate Professor	1
63		Assistant Professor	2

10.3 Govt. Ayurveda College Hospital Staff

Category	Staff name
