KERALA.HEALTH

PANDEMIC MANAGEMENT PLAN

Thrissur District-

Prepared by:
District Medical Officer (Health), Thrissur

Message

Kerala Health has consistently recognised that pandemic preparedness is no longer a standalone activity limited to the health sector, but an essential component of public safety, governance resilience, and sustainable development. The experiences of NIPAH outbreaks, COVID-19 pandemic, emerging zoonotic threats, climate-sensitive diseases, and increasing global interconnectedness have clearly demonstrated that future public health emergencies require continuous preparedness, rapid response systems, and strong institutional coordination. In this context, the preparation of comprehensive Pandemic Preparedness Plans by the Department of Health and Family Welfare marks an important landmark towards strengthening Kerala's health security framework.

Today, pandemic management plans must be viewed through the broader lens of the One Health approach, which recognises the interconnectedness of human health, animal health, environmental systems, and ecological balance. Emerging infections are increasingly influenced by environmental degradation, climate variability, urbanisation, migration, and changing human-animal interactions. Therefore, effective preparedness requires coordinated action not only from the Health and Family Welfare Department, but also from departments including Animal Husbandry, Forests, Local Self Government, Disaster Management, Revenue, Education, Transport, Police, Water Resources, and Civil Supplies. Such interdepartmental convergence is critical for surveillance, risk communication, outbreak containment, logistics management, and continuity of essential services during emergencies.

Kerala has always demonstrated exemplary leadership in responding to public health challenges through timely action, scientific decision-making, community participation, and decentralised governance. The integration of pandemic management with disaster management systems further strengthens our capacity to respond to multiple emergencies simultaneously, including outbreaks occurring during floods, heat waves, or other natural disasters. The development of structured protocols, surveillance mechanisms, escalation frameworks, surge planning systems, infection prevention strategies, and institutional coordination models reflects the state's commitment to building a resilient and future-ready health system.

I am informed that Keralam is the only state where the pandemic preparedness plans have been prepared to such a depth right from the Panchayath level to District and at institutional level upto Medical Colleges. I place on record my sincere appreciation to all those who worked on this endeavour. The dedication, technical expertise, and coordinated efforts demonstrated by the state and district teams are truly commendable. I am confident that these plans will further strengthen Kerala's capacity to effectively prevent, detect, and respond to future public health emergencies while ensuring the safety and wellbeing of our people.

Shri. K Muraleedharan

**Minister for Health and Family Welfare and Devasom,
Government of Kerala**

Foreword

Kerala Health has been taking efforts to strengthen the 'Health System'. The outbreak of diseases is common across the world. But the important thing that stands out is public awareness, their advisory-abiding behaviour, accessing hospital and getting diagnosed. That is the reason that outbreaks of Nipah or MPox are detected early and scientifically managed without any hassle.

Public health emergencies and pandemics remind us that health systems must remain prepared, responsive, and closely connected with the community. The recent experiences of the COVID-19 pandemic and various other communicable disease outbreaks especially involving newer pathogens have shown that timely preparedness, a coordinated response, and strong community participation are essential to the reduction of health risks and protection of lives. Kerala Health has managed COVID in exemplary ways with the involvement of people and all the line departments. Following the COVID pandemic, all international and national organizations have worked on preparedness and published guidelines, books and papers. But the most important question one should ask "Have we learned our lessons?" and "In what way these learning we have put to practice managing future health emergencies?"

It is with this thought process of "WHAT IS NEXT?", a series of meetings were taken with Senior Medical Officers at the State level and district level of Directorate of Health Services. All officers of Medical Colleges and other stakeholders were also oriented to prepare the Pandemic Management Plans. Series of workshops were conducted in the districts to further follow up works done by the district teams.

The concept of 'Learning by Doing' was put to practice. NHM has deployed Epidemiologists in all Block FHCs. It was important to build their capacity to ensure day to day involvement in analysis and giving inputs for taking control and mitigation activities. Alappuzha district took the challenge and prepared a template. Dr Dileep and team took wholehearted efforts to work on this task. The prepared template was validated and sent to all concerned.

Later the district officers conducted series of capacity building meetings with all health as well as line departments functionaries. They submitted the first draft and conducted a workshop in which few plans of Panchayath, Block and major institutions in the Districts such as General Hospital, District Hospital and Medical Colleges were presented. Post discussions and getting feedback the district team fine-tuned the Plans. As Alappuzha district completed all Panchayaths and District Plans in depth, they were made into a 'Learning Site'. Another concept of capacity building was put to practice. All the key officers of the respective districts were sent to Alappuzha in two batches to understand the method with which the Pandemic Preparedness Plans should be prepared. This exposure and interactions were very useful as most of the officers realised the importance of doing such planning.

The state level resource team comprising of Dr Mahesh N, Dr Ajan M J, Dr Harikumar S, Dr Bijoy E, Dr Dileepkumar S R and others supported the district teams and all the districts prepared the Pandemic Management Plans. Dr Vinay Goyal then SMD NHM and Mr Rahul Sharma present SMD NHM provided their leadership to facilitate plans preparations.

Simultaneously this initiative was discussed with Digital University of Kerala, and they were engaged to develop Kerala Pandemic Management System. This system envisages an end-to-end solution for pandemic management. This will make things easy for the field workers and all functionaries at the health institutions to update the information. As we go forward, it is envisaged that HOEC shall work as Hub and information flow will be from Kerala Pandemic Management System, IDSP, IHIP, SDMA and other information sources to HOEC at the time of any disaster/ health emergency.

It is noteworthy to mention here that after Alappuzha, Thrissur also prepared a comprehensive Pandemic management Plan and Festival management Plan. Unfortunately, during this year's Thrissur Pooram preparations, there was a massive fire accident, but the Thrissur MCH team put the Management Protocol in practice and in a short span of time within eight minutes, they took care of the fire disaster victims and provided exemplary services. While they were handling the incident, thanks to timely preparation and awareness, they were handling hundreds of emergencies not relating to the disaster during that period. This has clearly demonstrated to all that well-prepared planning and capacity building is the key to mitigating problems.

I would like to highlight here that these plans are not only at the state and district level but up to the Panchayath level. We first oriented and coordinated work on the Panchayath Pandemic Preparedness Plans. These plans were collated to make Block Plans. At the same time District teams worked on the District Pandemic Plans by taking the details from Panchayath Plans as well as the assets available at the district. This has made our Grama Panchayat/Municipality/Corporation equipped to effectively prevent, detect, and respond to public health emergencies.

The plan serves as a framework for coordinated action involving the Health Department and other line departments, organisations, volunteers and other stakeholders at the local self-government level. The plans follow a One Health approach, recognizing the close relationship between human health, animal health, and the environment in the emergence and spread of diseases. Strengthening disease surveillance, infection prevention and control measures, environmental sanitation, risk communication, and community awareness are all important components of local preparedness.

We incorporated surge preparedness plans which can be adopted quickly during a public health emergency. Particular attention was also given to vulnerable populations including the elderly, children, persons with disabilities, individuals with chronic illnesses, and socially disadvantaged groups who may face greater risks during emergencies. Early reporting, community engagement, and coordinated interdepartmental action are critical for minimizing the impact of outbreaks and ensuring continuity of essential health services.

Kerala Health has taken this initiative for the last six months; there are hundreds of officers involved in preparing and completing such a huge task. Therefore, the design of the book is also done in a different way. It was decided that the officers who hands on worked on this project should be mentioned prominently. As this is a unique milestone achieved by Kerala Health, the sincerely working officers' names are put on the cover itself.

These tasks would not have been possible without the support of the state resource officers' team of Dr Vinay Goyal, Mr Rahul Sharma, Dr Mahesh, Dr Ajan, Dr Dileepkumar, Dr Harikumar, Dr Ravindran, and many others. I appreciate their untiring efforts and patience for agreeing to do additional things which I pushed to them in the last minutes.

I sincerely appreciate the efforts of one and all and I am confident that Kerala Health team is having capability and will to take up any challenge and excel in their endeavours.

Dr Rajan N Khobragade IAS

Addl Chief Secretary

Health and Family Welfare Dept.

Health & Family Welfare Department

Government of Kerala

Message

When we look at public health through an operational lens, it becomes clear that managing a crisis is as much about robust architecture as it is about public health interventions. A successful response relies on the strength of our systems: seamless data flows, efficient resource deployment and reliable communication networks.

The COVID-19 pandemic was an inflexion point for public health systems worldwide. It exposed vulnerabilities, tested our capacity to respond under pressure, and reinforced the irreplaceable value of preparedness. As we move forward, it is imperative that the lessons we learned from that experience are institutionalised and embedded into the very fabric of how our districts plan, coordinate, and respond to health emergencies.

This District Pandemic Preparedness Plan represents a significant milestone in our collective journey toward building resilient and responsive public health systems across the State. It is the outcome of sustained collaboration, ground-level insight, and an unwavering commitment shared by every member of our health team. From an administrative perspective, this plan is the blueprint that translates vital epidemiological data into actionable workflows on the ground. It ensures that our infrastructure, logistics, and human resources are perfectly synchronized, enabling our medical teams to deliver care without delay.

This Plan has been designed to serve as a practical, actionable guide for our health teams. It outlines clear roles and responsibilities, establishes robust surveillance and early warning mechanisms, streamlines supply chain and logistics frameworks, and ensures that our health workforce is trained, equipped, and supported to respond to emergencies. A preparedness plan is only as strong as the systems that sustain it, and this document reflects our shared commitment to building those systems with care and rigour.

I place on record my sincere appreciation for the district health team and all other stakeholders whose knowledge and commitment have shaped this framework. Their dedication to public health service is a source of great strength for us. I also call upon them to internalise this plan, champion its implementation, and treat preparedness not as a mandate from above, but as a professional and moral obligation to the communities we serve. Together, we have the capacity and the responsibility to ensure that no community in our State is caught unprepared.

Rahul Krishna Sharma IAS

State Mission Director

National Health Mission

Message

At the heart of an effective public health response is a simple truth:- a strong healthcare system doesn't just react to a crisis—it anticipates and prepares for it. Our true readiness is measured by how quickly and empathetically we can turn complex medical strategies into organized care on the ground.

Our District Pandemic Preparedness plans serve as a clinical and tactical guide. They bridge the gap between public health data and reality, turning data into clear action plans for our frontline workers. This ensures that everyone from Family Health Centres to major hospitals operates with complete clarity and a shared purpose.

A pandemic requires a balance of science and human compassion. While we look at data, trends, and logistics to plan our resources, our ultimate focus remains on the people and families behind those numbers. Ensuring clinical readiness, securing medical supply chains, and maintaining unbroken communication networks are the pillars that allow our medical teams to respond to emergencies and save lives.

I want to express my deepest gratitude to our public health workforce; your dedication is the foundation of our resilience. In particular, I thank the DMO, DPM, district program officers, medical officers, public health staff, and every member of the health team who worked tirelessly to bring this plan to life. By embedding these strategies into our daily work, we are doing more than just preparing for a future crisis—we are actively safeguarding the health, dignity, and future of our communities.

Let us continue to lead with science, serve with empathy, and strengthen our collective resilience.

Director of Health Services

DHS

MESSAGE

The increasing frequency of emerging and re-emerging infectious diseases has underscored the need for a comprehensive and coordinated approach to public health preparedness. Thrissur district, with its unique demographic profile, high population density, and dynamic socio-economic activities, requires a robust system to effectively anticipate and respond to such challenges.

This Pandemic Preparedness Plan has been developed as a strategic framework to strengthen the district's capacity for prevention, early detection, and effective response to public health emergencies. The plan emphasizes a proactive approach, integrating surveillance, healthcare infrastructure, logistics, and community engagement to ensure timely and coordinated action.

A key strength of this plan is the adoption of a One Health approach, recognising the interconnectedness of human, animal, and environmental health systems. It also highlights the importance of strong intersectoral coordination involving Local Self Government Institutions, Health Department, Animal Husbandry, Disaster Management Authority, Police, Education, and other departments.

The district administration remains committed to ensuring that all necessary resources, infrastructure, and support systems are in place to manage any public health emergency efficiently. The active participation of healthcare institutions, including both government and private sectors, along with community-level engagement, is essential for the successful implementation of this plan.

I appreciate the efforts of the Health Department, District Surveillance Unit, PIED Cell, Government Medical College Thrissur, and all stakeholders involved in the preparation of this comprehensive document. Their dedication and coordinated efforts have laid a strong foundation for enhancing the district's preparedness and response capacity.

This Pandemic Preparedness Plan is intended to serve as a dynamic guide, evolving with emerging challenges, technological advancements, and field-level experiences. Through sustained commitment and coordinated action, we aim to strengthen resilience and ensure effective management of public health emergencies across the district.

Smt. Shikha Surendran IAS

District Collector, Thrissur

MESSAGE

The global health scenario has evolved significantly in recent years, with emerging and re-emerging infectious diseases posing continuous challenges to public health systems. In a district like Thrissur, characterized by dense population clusters, high mobility, diverse ecosystems, and seasonal disease patterns, the risk of outbreaks is ever-present and demands sustained preparedness.

While the district health system has demonstrated strong resilience in managing previous public health emergencies, these experiences have reinforced the need to further strengthen surveillance mechanisms, surge capacity, and real-time coordination across all levels of care. The ability to respond swiftly and efficiently depends on preparedness that is structured, data-driven, and adaptive.

This Pandemic Preparedness Plan reflects a strategic shift from reactive response to proactive planning. It adopts a One Health approach, recognising the interconnectedness of human, animal, and environmental health. Early warning signals arising from zoonotic events or ecological changes are integral to anticipating and mitigating potential public health threats.

The strength of this plan lies in its emphasis on intersectoral coordination and collective responsibility. Effective pandemic response extends beyond the health sector and requires seamless collaboration with Local Self Government Institutions, Animal Husbandry, Disaster Management, Police, Education, and other key departments. This integrated approach ensures that clinical care, logistics, surveillance, and community engagement function in harmony.

I place on record my sincere appreciation to all stakeholders who have contributed to the development of this plan. I acknowledge the leadership and guidance provided by higher authorities and extend special gratitude to the PIED Cell, Government Medical College, Thrissur, for their technical support, guidance, and contributions in shaping this preparedness framework.

I also appreciate the efforts of the District Surveillance Unit, programme officers, and all technical teams for their valuable inputs. Special recognition is due to the Superintendents of major hospitals, Block Medical Officers, Medical Officers of peripheral institutions, and the private hospital sector, who ensure that preparedness strategies are translated into effective action at the field level.

Major institutions including Government Medical College Hospital, Thrissur; District Hospital Thrissur; Amala Institute of Medical Sciences; Jubilee Mission Medical College & Research Institute; West Fort Hospital; Elite Mission Hospital;

Daya General Hospital; and Sun Medical and Research Centre play a crucial role in surveillance, early case

detection, advanced clinical management, and strengthening surge capacity during public health emergencies.

The contributions of Health Supervisors, Epidemiologists, Health Inspectors, and Junior Health Inspectors in surveillance and outbreak response are invaluable. I also commend the dedicated efforts of Public Health Nurses, Junior Public Health Nurses, Mid-Level Service Providers, ASHA workers, and other frontline staff whose close engagement with the community forms the backbone of our public health system. The role of data management teams and administrative staff in ensuring timely and accurate information flow is equally critical.

This Pandemic Preparedness Plan is envisioned as a living document, subject to continuous review and refinement based on emerging evidence, technological advancements, and evolving epidemiological trends. Our goal is not only to respond to public health emergencies but to build a system that is resilient, responsive, and future-ready.

Together, through coordinated action and sustained commitment, we aim to safeguard public health and strengthen system resilience across the district.

Dr. Sreedevi TP

District Medical Officer, DMO(H), Thrissur

EXECUTIVE SUMMARY

The district pandemic preparedness plan (PPP) for Thrissur district outlines a comprehensive framework to strengthen preparedness, prevention, and response mechanisms for future public health emergencies and pandemics. The plan focuses on strengthening surveillance systems, enhancing health system capacity, ensuring interdepartmental coordination, and protecting vulnerable populations during health crises.

Thrissur district, located in the central part of Kerala, covers an area of approximately 3,032 sq. km and has a population exceeding 3.1 million with a high population density. The district is characterized by diverse geographical features including coastal areas, wetlands, river basins, forested regions of the Western Ghats, and urban settlements. These features, combined with frequent mass gatherings such as Thrissur Pooram and Guruvayur festivals, create unique public health challenges that necessitate strong pandemic preparedness.

The plan integrates a One Health approach, recognizing the interconnection between human, animal, and environmental health. The district has significant livestock and poultry populations, wetlands such as the Kole lands, and migratory bird habitats, which increase the potential risk of zoonotic diseases. Environmental factors such as floods, coastal erosion, landslides in highland areas, and urban flooding also contribute to increased vulnerability to disease outbreaks.

The document provides a detailed assessment of health infrastructure, human resources, diagnostic capacity, and emergency response systems available in the district. Thrissur has a well-developed health network including medical college hospital, general hospitals, taluk hospitals, family health centres, and community health centres, supported by private hospitals and AYUSH institutions. Mapping of laboratory facilities, oxygen supply systems, ambulance networks, and specialized medical services helps identify surge capacity during health emergencies.

The plan also maps vulnerable populations, including elderly persons, children, persons with chronic illnesses, pregnant women, migrant workers, economically disadvantaged families, and socially marginalized groups. Identifying these groups enables targeted interventions such as continuity of essential healthcare services, home-based care, medicine supply, and social support during pandemics.

A major focus of the plan is the strengthening of disease surveillance systems through platforms such as IDSP and IHIP, along with laboratory networks for rapid detection and reporting of emerging infectious diseases. The plan also emphasizes risk communication, community participation, and behavioural interventions to reduce disease transmission and improve public awareness.

The district preparedness framework outlines three operational phases of pandemic response:

1. Alert and preparedness phase – strengthening surveillance, training personnel, risk communication, and preparedness planning.

2. Active response phase – case detection, testing, isolation, contact tracing, and community-level interventions.
3. Surge capacity phase – expansion of healthcare facilities, conversion of community spaces into care centres, and mobilization of additional workforce and resources.

The plan also identifies mechanisms for coordination between district administration, health department, local self-governments, disaster management authorities, veterinary services, and community organizations to ensure an integrated response during emergencies.

Overall, the Thrissur district pandemic preparedness plan aims to build a resilient health system capable of early detection, rapid response, and effective management of future pandemics, while safeguarding essential services and protecting vulnerable populations. The plan emphasizes preparedness, coordination, and community engagement to minimize health, social, and economic impacts of potential public health emergencies.

INTRODUCTION

BACKGROUND OF THE PPP

Thrissur district, known as the cultural capital of Kerala, presents a unique combination of demographic, geographic, environmental, and socio-cultural factors that significantly influence the transmission dynamics of infectious diseases. The district has a high population density, particularly in urban areas such as Thrissur Corporation, where closely populated wards increase the risk of rapid disease spread during outbreaks and pandemics.

A defining characteristic of Thrissur is its large seasonal gatherings and mass events. Festivals such as Thrissur Pooram and numerous temple festivals attract lakhs of people to locations like Thekkinkadu Maidanam, creating conditions conducive to super-spreader events. In addition, major pilgrimage centres including Guruvayur Temple, Vadakkunnathan Temple, Basilica of Our Lady of Dolours, St. Thomas Church, Palayur, and Cheraman Juma Mosque witness continuous inflow of devotees from across the state and country, further amplifying the risk of disease transmission.

Geographically, the district includes coastal and flood-prone areas such as Chavakkad and Kodungallur, along with vulnerable ecosystems like Kole wetlands and river basins including Karuvannur and Chalakudy. The district has a history of recurrent floods, notably in 2018 and 2019, which disrupted water supply systems, sanitation, and healthcare access, leading to increased vulnerability to outbreaks.

Thrissur also reports endemic water-borne and zoonotic diseases such as leptospirosis and dengue, especially during monsoon seasons. Post-flood situations often result in water contamination and scarcity, increasing public health risks. Climate-sensitive conditions, particularly monsoon-related mosquito breeding, further contribute to seasonal outbreaks.

The district has high mobility and connectivity, facilitated by major highways such as NH-544 and NH-66, enabling rapid inter-district movement of people. Infrastructure developments like the Kuthiran Tunnel (major transport corridor) have further enhanced connectivity between central and northern Kerala, which, while beneficial economically, also increases the risk of rapid disease spread across regions.

Thrissur's identity as a cultural and heritage hub, with frequent public events and traditional gatherings such as Kerala Kalamandalam activities, ensures constant population movement. Additionally, the presence of wet markets, poultry farms, and livestock interactions highlights the need for a One Health approach due to the risk of zoonotic disease transmission.

Tourism hubs including Puthur Zoological Park, Athirappilly and Vazhachal waterfalls, Snehatheeram Beach, and Munakkal Beach attract large numbers of visitors throughout the year, adding another layer of epidemiological risk.

Considering these multifactorial vulnerabilities—ranging from high population density and mass gatherings to environmental risks, endemic diseases, and high

mobility—it is imperative to establish a comprehensive Pandemic Preparedness Plan for Thrissur district. Such a plan will ensure strengthened surveillance, early detection, coordinated response, and resilience against future public health emergencies.

Rationale and Need for the Plan

Thrissur district presents a unique combination of high population density, frequent mass gatherings, environmental vulnerabilities, and significant human mobility, all of which increase the risk of rapid transmission of infectious diseases. Urban centres such as Thrissur Corporation, along with major pilgrimage and festival locations including Guruvayur and Thekkinkadu Maidanam, create conditions conducive to large-scale disease spread during outbreaks.

The district is also highly vulnerable under an all-hazards framework, with multiple risks including floods, coastal erosion, urban flooding, landslides in highland areas, and climate-sensitive events. Flood-prone regions such as Chavakkad and Kodungallur, along with wetlands like the Kole lands and river basins of Karuvannur and Chalakudy, face recurrent flooding, particularly during monsoon seasons. These events disrupt water supply, sanitation systems, and healthcare access, significantly increasing the risk of disease outbreaks.

Thrissur reports endemic communicable diseases such as leptospirosis, dengue, hepatitis A, and other water-borne and vector-borne diseases, especially during the monsoon and post-flood periods. Water contamination, mosquito breeding, and overcrowding in relief settings further amplify the risk of outbreaks during such times.

Additionally, Thrissur's strong connectivity through major highways and its role as a cultural, pilgrimage, and tourism hub result in continuous population movement, increasing the likelihood of rapid inter-regional disease spread. The presence of livestock, poultry, wetlands, and migratory bird habitats also raises the risk of zoonotic diseases, necessitating a One Health approach.

Past experiences, including the floods of 2018 and 2019 and seasonal disease outbreaks, have highlighted the limitations of reactive responses and underscore the need for a structured, proactive, and coordinated preparedness system.

A comprehensive Pandemic Preparedness Plan (PPP) for Thrissur district is therefore essential to ensure:

- Early detection and timely reporting of outbreaks
- Strengthening of surveillance and laboratory systems
- Rapid response and containment measures
- Continuity of essential healthcare services
- Protection of vulnerable populations
- Effective risk communication and community engagement

Objectives of the Pandemic Preparedness Plan

General Objective:

To strengthen the capacity of Thrissur district to prevent, detect, and respond effectively to pandemics and public health emergencies, thereby minimizing morbidity, mortality, and socio-economic disruption.

Specific Objectives:

- To establish an integrated disease surveillance system for early warning and response
- To enhance health system preparedness, including infrastructure, human resources, and logistics
- To strengthen laboratory capacity for timely diagnosis of emerging infections
- To ensure coordinated action among all stakeholders, including health, veterinary, disaster management, and local self-governments
- To develop surge capacity plans for managing increased patient load during pandemics
- To protect high-risk and vulnerable populations through targeted interventions
- To strengthen risk communication strategies and promote community participation
- To ensure uninterrupted delivery of essential health services during emergencies

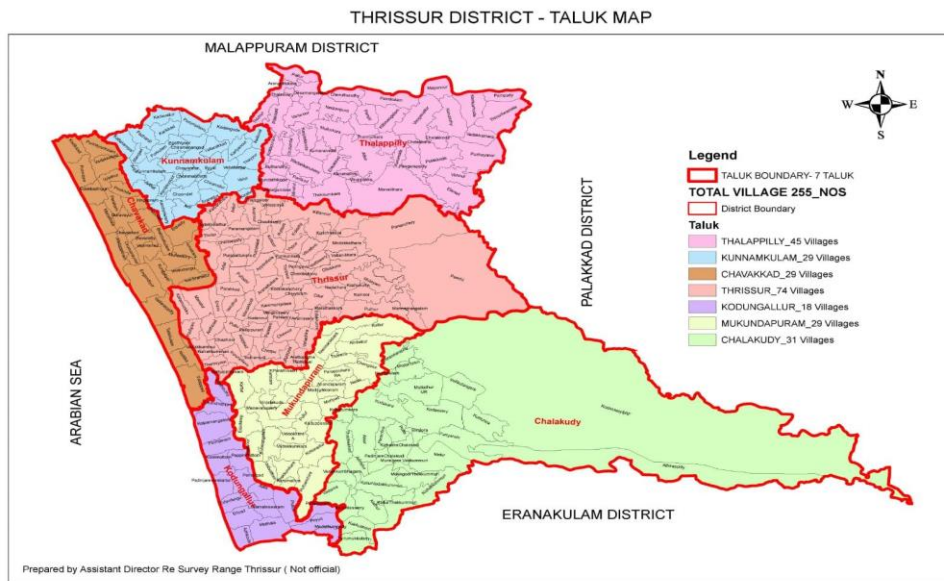

Scope Of the Plan

This Pandemic Preparedness Plan covers all administrative and health system levels within Thrissur district, including district, block, and local self-government institutions. It encompasses public and private healthcare facilities, laboratories, community-based systems, and intersectoral coordination mechanisms.

The plan addresses all phases of pandemic management, including preparedness, early detection, response, and recovery. It integrates a One Health approach and aligns with state and national guidelines to ensure a comprehensive and scalable response framework.

DISTRICT AT A GLANCE

- Geographical boundaries with political map (based on latest delimitation)

Headquarters	Thrissur
Location (of the Headquarters)	10.52°N76.21°E
Total area (district)	3032sq.km.
District boundaries	North-Part of Malappuram and Palakkad District
	South-Eranakulam District
	West-Arabian Sea
	East-Palakkad district and part of Tamil Nadu

ADMINISTRATIVE PROFILE OF THRISSUR DISTRICT

Thrissur district, known as the 'Cultural Capital of Kerala,' is in the central region of the state. Spanning an area of 3,032 sq km, it is bounded by Palakkad and Malappuram to the north, Ernakulam to the south, and the Arabian Sea to the west. Its administrative structure forms the backbone of pandemic response coordination.

Parameter	Details
District	Thrissur
State	Kerala, India
Area	3,032 sq km

Revenue Divisions	2 (Thrissur, Chalakudy)
Taluks	7 (Thrissur, Mukundapuram, Kodungallur, Kunnamkulam, Chavakkad, Chalakudy, Thalappilly)
Municipalities	7
Corporations	1 (Thrissur Municipal Corporation)

KEY HEALTH INDICATORS

Thrissur mirrors Kerala's strong health outcomes, including low infant mortality, high institutional delivery rates, and near-universal immunisation coverage. However, the district carries a significant non-communicable disease (NCD) burden which increases vulnerability during infectious disease outbreaks.

Health Indicator	Value	Source / Year
Crude Birth Rate (Kerala avg)	14.2 per 1,000	SRS 2020
Crude Death Rate (Kerala avg)	7.4 per 1,000	SRS 2020
Infant Mortality Rate (Kerala)	6 per 1,000 live births	SRS 2020 (Thrissur similar)
Maternal Mortality Rate (Kerala)	19 per 1,00,000 LB	SRS 2016-18
Total Fertility Rate (Kerala)	1.8	NFHS-5 2019-21
Institutional Deliveries	>99%	NFHS-5, Kerala
Full Immunisation Coverage	>95%	HMIS 2022-23, Thrissur
Stunting (children <5 yrs)	~23%	NFHS-5, Kerala
Anaemia in Women (15-49 yrs)	~34%	NFHS-5, Kerala
Hypertension prevalence (adults)	~30%	NFHS-5, Kerala
Diabetes prevalence (adults)	~25%	State health survey
TB Notification Rate	~80 per 1,00,000	DHS Kerala 2022
HIV Prevalence	<0.1%	KSACS data
COVID-19 Vaccination (1st dose)	>95% eligible pop	CoWIN/NHM Kerala 2022

WEATHER AND CLIMATE

Thrissur district experiences a tropical monsoon climate characterized by high humidity, moderate to high temperatures, and significant seasonal rainfall. The climate is strongly influenced by the Southwest and Northeast monsoons.

Annual Rainfall – Thrissur (2018–2025)

Year	Total Rainfall (mm)	Remarks
2018	2888.9	Flood year (extreme rainfall)
2019	2765	Above normal (post-flood variability)
2020	2580	Near normal
2021	2950	High rainfall (active monsoon)
2022	2705	Slightly above normal
2023	2620	Near normal
2024	2500–2600	Normal range (<u>Climate Data</u>)
2025	2600–2800	Near normal monsoon trend (<u>Meteorological Department</u>)

INDUSTRIES IN THRISSUR DISTRICT

Category	Details
Textile & Power Loom Industry	Thrissur is known for its strong power loom and textile sector. Major mills include Alagappa Textiles (Alagappa Nagar), Kerala Lakshmi Mills (Pullazhi), Rajgopal Textiles (Athani), Sitaram Spinning & Weaving Mills (Thrissur), Vanaja Textiles (Kurichikkara – now defunct), Bhagavathy Spinning Mills (Thanikkudam), and Kunnath Textiles (Thrissur). These units are mainly engaged in hosiery production.
Coir & Tile Industry	Provides significant employment opportunities in the district, forming a traditional industrial base.
Timber Industry	The first sawmill in Kerala (1905) was established in Thrissur. Timber is mainly transported from forests to Thrissur and Chalakyudy, which are key timber markets.
Canning Industry	A growing sector with major units like Darlco Cannings and Kayee Plantations Cannings in Thrissur. The Thrissur Fruits & Vegetables Marketing Society is operating a successful canning unit at Nadathara.
Other Industries	Includes matchstick manufacturing, pharmaceuticals, and printing industries, contributing to Thrissur's reputation as an industrial hub.
Food & Cooperative Sector	The first Workers' Indian Coffee House in Kerala was established in Thrissur in 1957.

Power Infrastructure	The 400 kV Electric Power Station at Madakkathara (near Thanikkudam) is a major electrical hub supplying over 30% of Kerala's power and linking to the national grid.
Khadi & Village Industries	Avinissery (south of Thrissur city) is an important centre for Khadi and village industries.

MAJOR RIVERS

(Source- Wikimedia Commons)

Major River	Flow Direction
Bharathapuzha (Nila)	Forms the northern boundary of Thrissur district and flows into the Arabian Sea
Chalakudy River	Flows through Chalakudy and Athirappilly and drains into the Arabian Sea
Karuvannur River	Formed by the confluence of Kurumali and Manali rivers; flows through Kole wetlands and drains into the Arabian Sea

Kechery River	Originates from Machad hills and flows into Chettuva backwaters before reaching the Arabian Sea
Puzhakkal River	Flows through Thrissur city and Kole wetlands

MAJOR ROADS

National Highways

Highway	Route (Through Thrissur District)	Key Towns / Junctions	Importance
NH 544 (Salem – Kochi)	Enters at Vadakkanchery → Thrissur (Mannuthy) → Chalakudy → exits to Ernakulam	Vadakkanchery, Mannuthy, Thrissur city bypass, Chalakudy	Primary arterial highway; connects Tamil Nadu to Kochi; busiest corridor
NH 66 (Panvel – Kanyakumari, Coastal)	Passes through western Thrissur	Kunnamkulam, Chavakkad	Coastal connectivity; links northern & southern Kerala
NH 544H (Thrissur – Guruvayur)	Spur from NH 544	Thrissur → Kechery → Guruvayur	Important pilgrim & urban connector
NH 17A / NH 966A (Kunnamkulam link – reclassified)	Near Kunnamkulam region	Kunnamkulam junction	Feeder connectivity to NH network

Important State Highways

State Highway	Route	Key Areas Covered	Importance
SH 69	Thrissur – Kuttippuram	Thrissur, Kechery	Connects NH 544 to NH 66
SH 75	Thrissur – Kodungallur	Thrissur, Irinjalakuda, Kodungallur	Major coastal link
SH 22	Kodungallur – Shornur	Kodungallur, Mala region	Inland–coastal connector
SH 61	Potta – Moonupeedika	Chalakudy region	Connects NH 544 to NH 66
SH 60	Thrissur – Guruvayur (parallel route)	Thrissur, Kechery	Alternate to NH 544H

7	Taluk Office – Kunnamkulam	Kunnamkulam	10.6450° N	76.0650° E

Government Health Institutions

The public health infrastructure of Thrissur District follows Kerala's tiered healthcare model: Medical College → District/General Hospitals → THQH → Taluk Hospitals → CHC → PHC → Sub-Centres. All tiers are critical during pandemic response for case management, isolation, triage, and vaccination.

Apex & Tertiary Institutions

Sl. No.	Institution / Establishment	Latitude (N)	Longitude (E)
1	Government Medical College Hospital, Thrissur	10.61435° N	76.19567° E
2	Kerala University of Health Sciences (KUHS)	10.5350° N	76.2200° E
3	Mental Health Centre (Mental Hospital), Thrissur	10.5200° N	76.1950° E

District Hospital & General Hospitals

Sl.	Institution / Establishment	Location	Latitude (N)	Longitude (E)
1	District Hospital Wadakkanchery	Wadakkanchery	10.6617° N	76.2363° E
2	General Hospital Thrissur	Round East, Thrissur	10.5229° N	76.2174° E
3	General Hospital Irinjalakuda	Irinjalakuda	10.3424° N	76.2112° E

Taluk Head Quarters Hospitals (THQH)

Sl.	Institution / Establishment	Location	Latitude (N)	Longitude (E)
1	THQH Chalakudy	Chalakudy	10.3080° N	76.3337° E
2	THQH Chavakkad	Chavakkad	10.58331° N	76.01888° E
3	THQH Kodungallur	Kodungallur	10.2094° N	76.1958° E

Taluk Hospitals (TH)

Sl.	Institution / Establishment	Location	Latitude (N)	Longitude (E)
1	TH Pudukad	Pudukad	10.4253° N	76.2679° E

3	TH Chelakkara	Chelakkara	10.6941° N	76.3464° E

Community Health Centres (CHC)

CHCs serve as the primary referral centres at block level and are designated First Referral Units (FRUs). During pandemics, CHCs serve as fever clinics, sample collection hubs, and community quarantine coordination centres.

Sl.	CHC Name	Block	Taluk	Latitude	Longitude
1	CHC Alappad	Anthikad Block	Thrissur	10.5740° N	76.2515° E

14	CHC Tholur (Block FHC Tholur)	Tholur Block	Thrissur	10.6400° N	76.2200° E
15	CHC Vadakkekkad (Vadakkekkad)	Vadakkekkad Block	Chavakkad	10.5550° N	75.9980° E
16	CHC Vatanappilly (Vadanappally)	Vatanappilly Block	Chavakkad	10.5180° N	76.0030° E
17	CHC Vellanikkara	Vellanikkara Block	Thrissur	10.5460° N	76.2350° E

Selected Family Health Centres (PHC) — Pandemic-Critical

PHCs form the frontline of pandemic surveillance. The following are key PHCs across the district's taluks.

Sl.	Institution / Establishment	Location	Latitude (N)	Longitude (E)
1	FHC Ollukkara	Ollukkara	10.5550° N	76.2480° E
2	FHC Mundathikode	Mundathikode	10.6180° N	76.2280° E
3	FHC Avinissery	Avinissery	10.5480° N	76.0750° E
4	FHC Panjal	Panjal	10.5050° N	76.1900° E
5	FHC Padiyoor	Padiyoor	10.6200° N	76.0800° E
6	FHC Arimbur	Arimbur	10.4500° N	76.2200° E
7	FHC Mundur	Mundur	10.5800° N	76.3100° E
8	FHC Meloor	Meloor	10.3900° N	76.2450° E
9	FHC Vilvattom	Vilvattom	10.5330° N	76.1750° E
10	FHC Manalur	Manalur	10.5650° N	76.1580° E

Major Private Hospitals

Private hospitals in Thrissur district play a significant role in pandemic surge capacity. They are registered under CHMI (Comprehensive Health Management Initiative) and are designated pandemic partners for case referral and PPE coordination.

Sl.	Institution / Establishment	Location	Latitude (N)	Longitude (E)
1	Amala Institute of Medical Sciences	Amala Nagar	10.56178° N	76.16752° E
2	Jubilee Mission Medical College &	East Fort,	10.52078° N	76.22756° E

	Hospital	Thrissur		
3	Mother Hospital	Pullazhy, Thrissur	10.5320° N	76.2300° E
4	West Fort Hi-Tech Hospital	West Fort, Thrissur	10.5210° N	76.2010° E
5	Aswini Hospital	Aswini Junction, Thrissur	10.5220° N	76.2140° E
6	GEM Hospital	Convent Road, Thrissur	10.5200° N	76.2150° E
7	Metropolitan Hospital	Kokkalai Road, Thrissur	10.5250° N	76.2090° E
8	Elite Hospital	Koorkenchery, Thrissur	10.5400° N	76.2250° E
9	Daya General Hospital	Shoranur Road, Thrissur	10.5310° N	76.2090° E
10	Trichur Heart Hospital	ST Nagar, Thrissur	10.5190° N	76.2100° E
11	Amala Cancer Hospital & Research Centre	Amala Nagar	10.5618° N	76.1675° E
12	St. Joseph Mission Hospital (Choondal Hospital)	Choondal, Thrissur	10.5850° N	76.2050° E
13	Modern Hospital Kodungallur	Kodungallur	10.2094° N	76.1958° E

Specialised Health & Research Institutions

Sl.	Institution / Establishment	Location	Latitude (N)	Longitude (E)

6. Emergency Services & Law Enforcement

During a pandemic, law enforcement agencies enforce quarantine orders, coordinate movement restrictions, and support health teams in field operations. Fire & Rescue provides decontamination and logistic support.

Sl.	Institution / Establishment	Location	Latitude (N)	Longitude (E)

Transport Infrastructure & Logistics Hubs

Transport infrastructure is the backbone of pandemic response logistics — enabling movement of medical supplies, personnel, quarantine enforcement, and patient transfers. Key nodes are listed below.

Rail Hubs

Sl.	Institution / Establishment	Location	Latitude (N)	Longitude (E)
1	Thrissur Junction (Railway Station)	Thrissur City	10.5150° N	76.2080° E
2	Irinjalakuda Railway Station	Irinjalakuda	10.3430° N	76.2110° E
3	Chalakudy Railway Station	Chalakudy	10.3100° N	76.3310° E
4	Kodungallur Railway Station	Kodungallur	10.2140° N	76.1970° E
5	Guruvayur Railway Station	Guruvayur	10.5938° N	76.0432° E

Road Transport Hubs (KSRTC & Private)

Sl.	Institution / Establishment	Location	Latitude (N)	Longitude (E)
1	Thrissur KSRTC Bus Stand (Main)	Thrissur City	10.51768° N	76.21045° E
2	Irinjalakuda KSRTC Bus Stand	Irinjalakuda	10.3430° N	76.2115° E
3	Chalakudy KSRTC Bus Stand	Chalakudy	10.3085° N	76.3340° E
4	Kodungallur KSRTC Bus Stand	Kodungallur	10.2095° N	76.1960° E
5	Kunnamkulam Bus Stand	Kunnamkulam	10.6465° N	76.0668° E
6	Guruvayur Bus Stand	Guruvayur	10.5940° N	76.0430° E
7	Chavakkad Bus Stand	Chavakkad	10.5833° N	76.0192° E

Nearest Airport

Sl.	Institution / Establishment	Location	Latitude (N)	Longitude (E)
1	Cochin International Airport (CIAL)	Nedumbassery, Ernakulam (nearest to Thrissur)	10.1520° N	76.4019° E

Note: CIAL is approximately 50 km south of Thrissur city.

Major Educational Institutions (Quarantine / Isolation Surge Capacity)

Educational institutions with large campus spaces are designated as potential quarantine centres, isolation facilities, and vaccination camps during pandemic surge. The following institutions have been identified for this purpose.

Sl.	Institution / Establishment	Location	Latitude (N)	Longitude (E)
1	Kerala University of Health Sciences (KUHS)	Thrissur	10.5350° N	76.2200° E
2	Government Engineering College Thrissur	Thrissur	10.5400° N	76.2300° E
3	Kerala Agricultural University	Vellanikkara, Thrissur	10.5460° N	76.2350° E
4	St. Thomas College	Thrissur	10.5200° N	76.2200° E
5	Sree Kerala Varma College	Thrissur	10.5260° N	76.2180° E
6	Kerala Kalamandalam (Deemed University)	Cheruthuruthy	10.5730° N	76.3600° E
7	Kerala Forest Research Institute (KFRI)	Peechi, Thrissur	10.5310° N	76.3130° E
8	Kerala Institute of Local Administration (KILA)	Mulamkunnathukavu	10.5960° N	76.1960° E
9	Government Law College	Thrissur	10.5220° N	76.2160° E
10	Police Dog Training Centre	Thrissur	10.5350° N	76.2150° E

Supply Chain, Warehousing & Civil Supplies

Uninterrupted supply of medicines, PPE, oxygen, and essential commodities is critical during pandemic response. The following depots and warehouses are key nodes in the district's pandemic logistics chain.

Sl.	Institution / Establishment	Location	Latitude (N)	Longitude (E)
1	Kerala Medical Services Corporation (KMSCL) Regional Depot	Thrissur	10.5250° N	76.2100° E
2	District Medical Stores Depot	Near DMO,	10.5215° N	76.2138° E

		Ayyanthole		
3	Civil Supplies Godown (Thrissur)	Thrissur	10.5220° N	76.2140° E
4	Civil Supplies Godown (Irinjalakuda)	Irinjalakuda	10.3430° N	76.2110° E
5	Civil Supplies Godown (Chalakudy)	Chalakudy	10.3080° N	76.3337° E
6	Civil Supplies Godown (Kodungallur)	Kodungallur	10.2094° N	76.1958° E
7	Supplyco Regional Depot	Thrissur	10.5200° N	76.2130° E
8	District Collectorate Emergency Store	Civil Station, Ayyanthole	10.5210° N	76.2140° E

Surveillance, Diagnostic & Testing Facilities

Rapid diagnostic capacity is the cornerstone of pandemic containment. The following facilities are equipped for sample collection, testing, and surveillance.

Sl.	Institution / Establishment	Location	Latitude (N)	Longitude (E)
1	Govt. Medical College Laboratory (Virology/Microbiology)	Thrissur	10.6144° N	76.1957° E
2	IDSP District Surveillance Unit	DMO Office, Thrissur	10.5215° N	76.2138° E
3	Rapid Response Team (RRT) Base – Thrissur	DMO, Thrissur	10.5215° N	76.2138° E
4	District Public Health Laboratory	Thrissur	10.5215° N	76.2138° E
5	Blood Bank — General Hospital Thrissur	Round East, Thrissur	10.5229° N	76.2174° E
6	Blood Bank — Govt. Medical College	MG Kavu, Thrissur	10.6144° N	76.1957° E
7	PCR Testing Lab — Amala Medical Sciences	Amala Nagar	10.5618° N	76.1675° E
8	PCR Testing Lab — Jubilee Mission Hospital	East Fort, Thrissur	10.5208° N	76.2276° E

Media, Communication & Information Dissemination

Effective public communication is critical during pandemics. The following media and communication infrastructure serves Thrissur district.

Sl.	Institution / Establishment	Location	Latitude (N)	Longitude (E)
1	All India Radio Thrissur (AM 630 kHz / FM 101.1 MHz)	Thrissur	10.5220° N	76.2130° E
2	Doordarshan Kendra Thrissur	Thrissur	10.5230° N	76.2140° E
3	District Information Office	Thrissur	10.5210° N	76.2130° E
4	District Emergency Operations Centre (DEOC)	Civil Station, Ayyanthole	10.5210° N	76.2140° E
5	BSNL Telephone Exchange (Main)	Thrissur	10.5220° N	76.2150° E

OCCUPATIONAL GROUPS

Agriculture And Allied Workers

Agricultural workers in paddy, coconut, vegetable, and livestock sectors often operate in close proximity to each other and are frequently seasonal migrants.

Sub-Sector	Major Areas	Risk Factors
Paddy Cultivation (Kole Wetlands)	Thrissur, Puzhakkal, Anthikkad, Mullassery, Chavakkad	Group labour, waterborne exposure, zoonotic risk
Coconut and Mixed Farming	Kodungallur, Mala, Mathilakam, Vellangallur	Seasonal contract labour movement
Vegetable and Spice Cultivation	Wadakkanchery, Chelakkara, Pazhayannur (Talappilly)	Pesticide exposure, migrant labour influx
Dairy and Livestock Farming	Cherpu, Irinjalakuda, Kodakara, Chalakudy	Zoonotic disease risk (brucellosis, H5N1, Nipah)

Sub-Sector	Major Areas	Risk Factors
Poultry Farming	Pariyaram, Kattoor, Pazhuvil, Engandiyur, Chazhoor	High avian influenza risk, close animal contact

Fisheries and Coastal Workers

Coastal communities in Thrissur are engaged in fishing, aquaculture, and harbour activities. These populations face risks from waterborne diseases, exposure to vectors in backwater areas, and seasonal congregation.

- Chavakkad fishing harbour and landing centre
- Nattika and Valappad coastal belt
- Kodungallur coastal and harbour area
- Chettuva backwater region (inland aquaculture)

Industrial and Manufacturing Workers

Industrial workers in Thrissur are concentrated in jewellery manufacturing, tile industries, and small-scale manufacturing clusters. These workers often share accommodation and use common transport.

Industry	Location	Risk Factors
Gold Jewellery Manufacturing	Thrissur city, Ollur, Puzhakkal, Ayyanthole	Dense workspace, shared worker housing
Tile and Clay Industries	Ollur, Puthukkad, Kodakara	Inter-state migrant workers, crowded dormitories
Small-scale Manufacturing	Koratty Industrial Area, Ollur Industrial Estate, Puzhakkal belt	High worker density, limited ventilation
Ayurvedic Medicine Manufacturing	Thrissur city and nearby areas	Raw material handling, cross-contamination risk
Handloom and Cottage Industries	Kunnamkulam and surrounding areas	Home-based production, community spread potential

Service Sector Workers

Service sector employees in healthcare, retail, education, tourism, and hospitality have high exposure to the public, making them vectors for rapid disease transmission.

- Healthcare workers in Thrissur city, Amala Nagar, Irinjalakuda, and Chalakudy hospitals
- Retail and commercial workers in Thrissur, Irinjalakuda, Chalakudy, Kunnamkulam, and Guruvayur

- Education sector staff in Thrissur city, Cheruthuruthy (Kerala Kalamandalam), and Irinjalakuda
- Tourism and hospitality workers at Guruvayur, Athirappilly, Vazhachal, and Chavakkad beach

Migrant Labour Risk Areas

Thrissur district attracts significant inter-state migrant labour from West Bengal, Bihar, Assam, Odisha, Jharkhand, and Uttar Pradesh. Migrant workers are often housed in crowded shared accommodations with limited access to healthcare.

Area	Primary Work Sector	Mobility Risk Level
Thrissur City (Ayyanthole, Ollur, Puzhakkal)	Construction, retail, hospitality	HIGH
Koratty Industrial Area (Chalaky Taluk)	Industrial labour, manufacturing	HIGH
Kodakara Industrial Area	Manufacturing, factory work	HIGH
Guruvayur – Chavakkad	Tourism, hotels, restaurants	MEDIUM-HIGH (seasonal)
Kodungallur	Fishing, harbour activities, trade	MEDIUM
Kunnamkulam	Printing industry, trade	MEDIUM

Festival and Mass Gathering Risk Zones

Thrissur district hosts several major religious and cultural events that create large-scale congregation of people from across Kerala and other states, significantly increasing the risk of rapid disease transmission.

Event / Location	Estimated Footfall	Mobility Pattern	Risk Level
Thrissur Pooram (Thrissur City)	2–5 lakh per day	Statewide and interstate visitors	VERY HIGH

Event / Location	Estimated Footfall	Mobility Pattern	Risk Level
Guruvayur Temple (Daily + Festivals)	15,000–20,000 daily	Pilgrims from all over India	HIGH
Kodungallur Bharani Festival	50,000+ during festival	Statewide, coastal community gathering	HIGH
Athirappilly & Vazhachal Waterfalls	Seasonal – high tourist influx	Tourist inflow from multiple states	MEDIUM-HIGH
NH-544 Corridor	High interstate vehicle movement	Rapid interstate disease spread	HIGH

Tribal and Forest Community Vulnerability

ST communities residing in the forest and highland regions of Thrissur face unique pandemic vulnerabilities due to geographic isolation, limited healthcare access, and poor communication infrastructure.

- Athirappilly Panchayat – Kadar tribe settlements
- Vazhachal forest area – limited health facility access
- Malakkappara and Sholayar regions – remote, forest-dependent communities
- Pariyaram forest settlements and Chalakudy forest belt

Key risks include delayed diagnosis, zoonotic disease exposure from wildlife and forests, and inadequate vector control in forest habitats.

VULNERABILITY MAPPING

Vulnerability mapping is a systematic process of identifying individuals, communities, geographic zones, and health system components that are disproportionately exposed to harm during a pandemic or public health emergency. This document presents a multi-domain vulnerability assessment for Thrissur district, covering environmental, clinical, socio-demographic, occupational, mobility, and infrastructure dimensions.

The findings are intended to guide the District Medical Officer, the District Disaster Management Authority (DDMA), Local Self-Government Institutions (LSGIs), and partner agencies in prioritising resources, designing targeted interventions, and activating early response mechanisms when a public health threat emerges.

GENERAL PROFILE OF THE DISTRICT

BACKGROUND OF THE DISTRICT

BACKGROUND OF DISTRICT	
Description	Details
Name of DISTRICT	Thrissur
Number of LSGs	94 (86 Grama Panchayats, 6 Municipalities, 1 Corporation, 1 Cantonment/others if applicable)
Total area (sq. km)	3,032 sq. km
Population(Projected)	31,21,200 (Census 2011 base; current projection approx. 34–35 lakh)
Population density	1181 persons/sq. km
Terrain (coastal/low-lying/backwaters/foothills, etc.)	Coastal belt (Chavakkad–Kodungallur), Kole wetlands (low-lying flood plains), midland plains, eastern highlands/foothills (Western Ghats – Athirappilly, Malakkappara)
Number of rivers passing through DISTRICT	4 (Bharathapuzha, Chalakudy River, Karuvannur River, Kechery River)
Number of water bodies in the DISTRICT	1397

BACKGROUND OF DISTRICT	
Description	Details
Number of educational institutions	600
Factories / small-scale industries	10,856
Flood-prone wards and LSGs	48
Landslide-prone wards and LSGs	12 (Athirappilly, Vazhachal, Varandarappilly, Kodassery, Mattathur, Pananchery, Thekkumkara etc.)
Death Management and Disposal Facilities (mortuaries/crematorium, including electric)	Mortuaries – 15; Crematorium (including electric) – 67
Auditoriums/Marriage halls/convention centres/community halls	Marriage halls – 120; Convention centres – 35; Community halls – 75

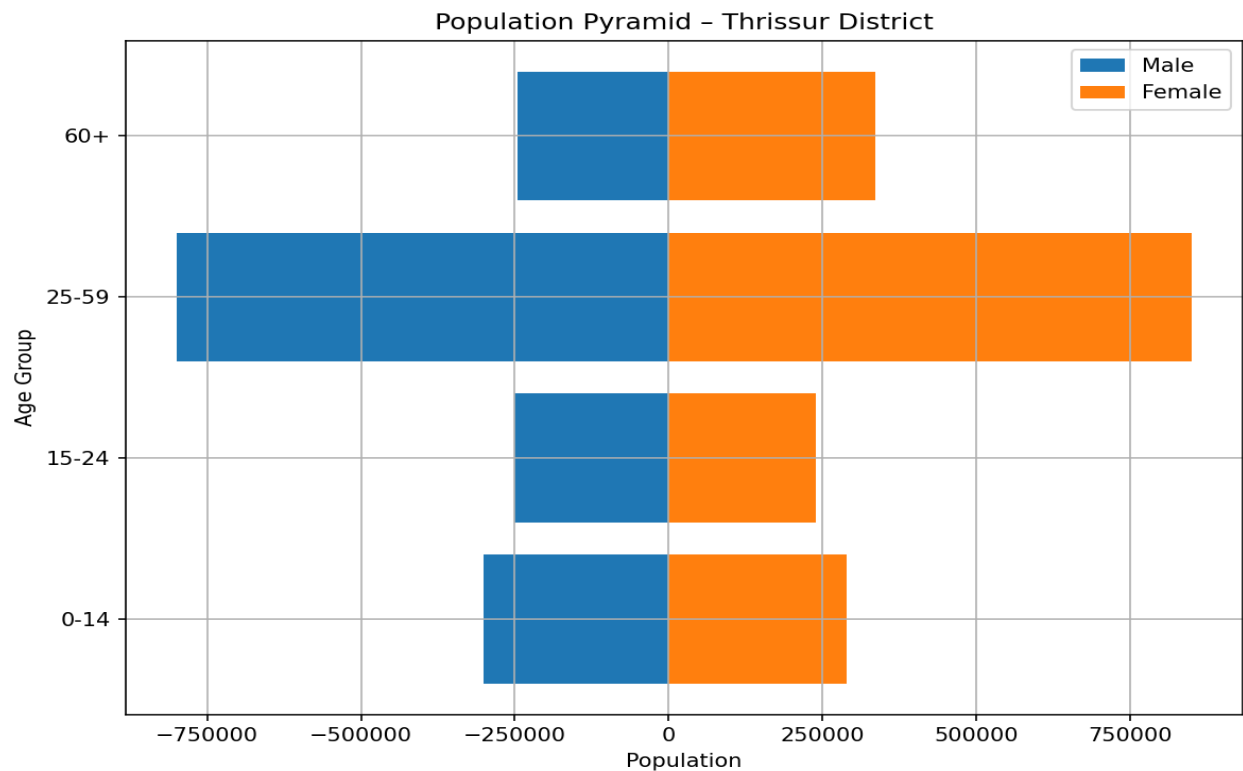

DEMOGRAPHIC AND VULNERABLE POPULATION

Understanding the demographic composition and vulnerable population groups is essential for pandemic preparedness. Children, elderly, economically deprived families, migrant workers, and socially vulnerable groups are at increased risk during public health emergencies due to higher exposure, limited access to services, and dependency on public systems..

Description	Details (in numbers)
DEMOGRAPHIC PROFILE	
Total population	3,121,200
Male	1,480,763

Description		Details (in numbers)
DEMOGRAPHIC PROFILE		
Female		1,640,437
Transgender		487
Children under 5		2,63,889
Adolescent		5,80,000
Elderly (>60)		4,20,000
SOCIAL/LIVELIHOOD VULNERABILITY		
Previous EPEP family		8,000
BPL family		239548
Tribal communities		31,000
Migration	Immigrant	1,20,000
	Emigrant	2,00,000
Socio-economically deprived		3,00,000(Unemployed / informal workers – 30%, daily wage labourers – 23.3%, differently abled – 13.3%, elderly living alone – 10%, single women / widows – 8.3%, chronic illness / bedridden – 6.7%, migrant labourers (low income) – 5%, homeless / destitute – 3.3%.)
Fisherfolk		85,000
SC Community		3,24,350 (10.4%)
ST Community		9,430 (0.3%)

Graphs: Population pyramid

CLINICAL VULNERABILITY

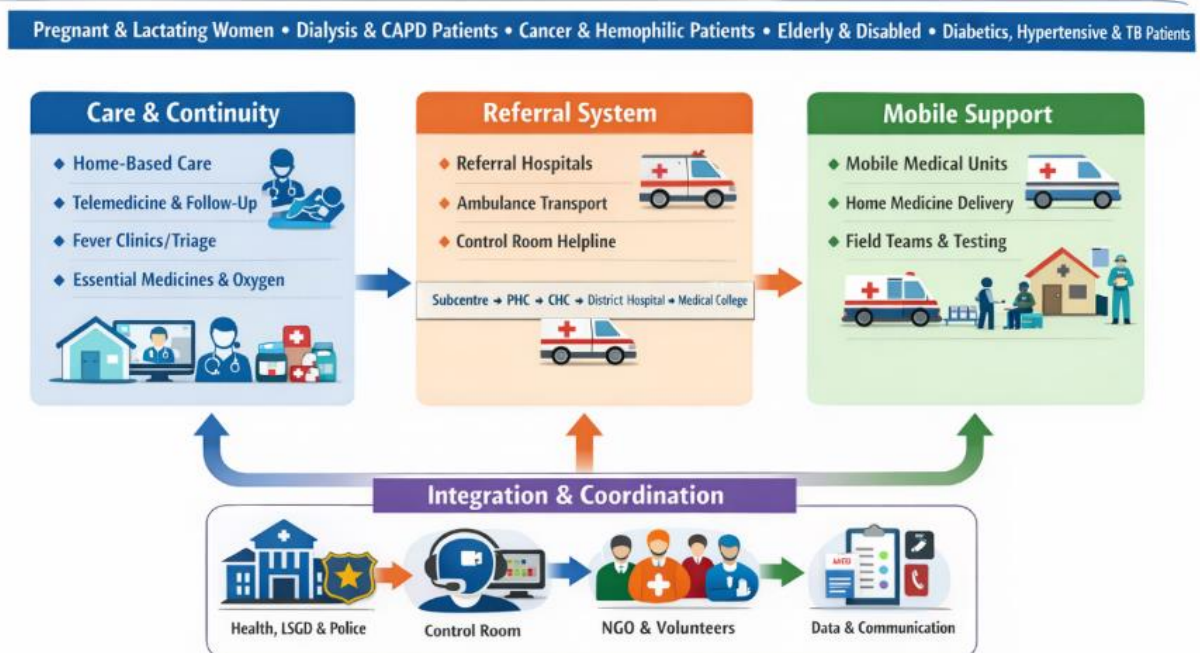

Certain population groups need priority healthcare & are at higher risk of severe illness, complications, and mortality during pandemics. Patients with chronic diseases, those requiring regular medical care, and individuals with mobility or functional limitations face challenges in accessing timely care during emergencies. Mapping these groups helps in prioritising continuity of treatment, medicine stock planning, oxygen support, referral transport, and targeted home-based care.

Description	Details in numbers
Pregnant women	19859
Lactating mothers	21500
Bedbound patients	8500
Patients under palliative care other than bedbound	14000
Patients on Haemodialysis	2200
Patients on CAPD	180

Description	Details in numbers
Cancer patients (currently on treatment)	6500
Haemophilic patients	120
Mentally challenged	9500
Differently abled	40000
Diabetic patients	280000
Hypertensive patients	320000
TB patients	1200

VULNERABILITY FOCUSED CARE

Vulnerability-Focused Care, Referral & Mobile Support in Pandemic Preparedness

MAJOR FESTIVALS & EVENTS SPECIFIC TO THE DISTRICT

Festival Risk Summary – Thrissur District

- Peak Season:** February–May (maximum festivals & crowd density)

- **High-Risk Events:** Thrissur Pooram, Kodungallur Bharani, Guruvayur Ekadasi
- **Hotspot LSGDs:** Thrissur Corp., Kodungallur, Guruvayur, Irinjalakuda
- **Key Risks:** Mass gatherings, disease transmission, service burden
- **PPP Focus:** Surveillance, LSGD microplanning, medical preparedness

MAJOR FESTIVALS & EVENTS – THRISSUR DISTRICT

Sl. No.	Name of Festival	Month detailing the periodicity
1	Thrissur Pooram	April–May
2	Kodungallur Bharani	March–April
3	Guruvayur Ekadasi	November–December
4	Arattupuzha Pooram	March–April
5	Peruvanam Pooram	March–April
6	Koodalmanikyam Utsavam (Irinjalakuda)	April–May
7	Machad Mamangam	February–March
8	Pulikali (Onam Festival)	August–September
9	Buon Natale	December

LOCALISED FESTIVALS & EVENTS – THRISSUR DISTRICT

Sl. No.	Name of Festival	Month detailing the periodicity
1	Thiruvullakkavu Pooram	February–March
2	Paramekkavu Utsavam	April–May

3	Thiruvambady Utsavam	April–May
4	Chembukkavu Pooram	April–May
5	Kanimangalam Pooram	April–May
6	Laloor Pooram	April–May
7	Ayyanthole Pooram	April–May
8	Mammiyoor Utsavam (Guruvayur)	February–March
9	Tripprayar Ekadasi	November–December
10	Ollur Church Feast (St. Raphael)	July
11	Palayur Church Feast (St. Thomas)	July

INFRASTRUCTURE & RESOURCE INVENTORY

HEALTH FACILITY DIRECTORY & BASIC CAPACITY IN THE DISTRICT

This section provides an overview of the healthcare infrastructure available within the DISTRICT area. It outlines the distribution and basic capacity of health facilities that form the backbone of service delivery during routine times and public health emergencies.

Family Health Centres (FHCs) and Community Health Centres (CHCs) generally function as the first point of contact for the community, providing essential outpatient and inpatient services. General Hospitals (GH) and Medical College Hospitals (MCH), where accessible, serve as the main referral centres for advanced diagnostics, specialist care, and critical services during public health emergencies. This inventory helps identify existing strengths, gaps, and potential surge capacity that can be mobilised during a pandemic or disaster.

Thrissur district has a well-structured multi-tier healthcare system comprising Sub Centres (SCs), FHCs, CHCs, Taluk/General Hospitals, and tertiary care institutions. At the peripheral level, primary care facilities play a critical role in disease surveillance, early case detection, screening, triaging, and community-level management during pandemics. Secondary care facilities provide inpatient care and stabilization for moderate cases, while tertiary care centres, including Government Medical College Thrissur, act as apex referral centres for severe and critical cases requiring intensive care and advanced treatment.

Maintaining an updated directory of health facilities across Thrissur District supports effective planning by enabling assessment of service availability, identification of infrastructure and human resource gaps, estimation of bed strength and critical care capacity, and strengthening of referral systems. This facilitates efficient surge capacity planning and enhances the district's ability to respond to pandemics and other public health emergencies.

Health Facility Resource Summary

Care Level	Facility Type	Count
Primary Care	HWC / JAK	471
	FHC	86
	UHWC	27
Secondary Care	BFHC	17
	Taluk Hospitals (TH)	3
	Taluk HQ Hospitals (THQH)	3
Tertiary Care	District Hospital (DH)	1
	General Hospitals (GH)	2
Specialized	Specialty Hospitals (MHC, DTC, Dermatology)	3

Support	Govt Dispensaries	3
TOTAL		616

PRIVATE CLINICS

Private clinics are an essential part of pandemic preparedness, as they are often the first-place people seek care when symptoms begin. In many communities, private clinics manage a significant share of outpatient visits and therefore play a critical role in early case detection, timely referrals, and disease surveillance. Having an up-to-date understanding of where these clinics are located, the services they provide, and how

they are linked to the public health system helps ensure that no cases are missed during an outbreak. It also allows health authorities to engage private practitioners more effectively for reporting, risk communication, and coordinated response, strengthening the overall capacity of the health system to manage public health emergencies.

Private Clinic Resource Summary

Sl No.	Name of Clinic	Address	Contact Number	Diagnostic Facility (Y/N)	Ambulance Linkage (Y/N)

HEALTHCARE EDUCATION & TRAINING INSTITUTIONS

This section tracks the educational infrastructure available, which is vital for human resource planning in the health sector.

Category of Institution	Govt	Private	AYUSH	Total
Medical Colleges	1	2	1	4
Nursing Colleges	1	10	0	11
Dental Colleges	1	1	0	2
Para-medical / Allied Health	1	12	0	13
Pharmacy Colleges	0	4	0	4

SPECIALISED SERVICES & EMERGENCY INVENTORY

This section provides a detailed view of the specialized medical resources available to the community, focusing on emergency response and critical care capabilities. This table tracks the vital assets required for managing severe illnesses and emergencies across the Government, Private, and AYUSH sectors.

Item	Govt	Private	AYUSH	Total
Hospital beds	3538	4838	373	10124
Oxygen-generating systems(Y/N)	Y	Y	N	
Oxygen-supported beds (Numbers)	1138	84	0	1222
Ventilator-supported beds	245	116	0	361
ICU beds	745	537	0	1282

Item	Govt	Private	AYUSH	Total
Burns units	1	2	0	3
Blood centres	14	17	0	31
BLS ambulances	49	19	0	68
ALS ambulances	18	9	0	27
Dialysis facilities	1	4	0	5
Dispensaries	2	73	225	300
Medical store	425	450	0	875
Industrial establishments (Medium-scale industries/small-scale industries establishments to whom we can depend in a worst-case scenario)	27,575	11200	0	38775

OXYGEN & DIAGNOSTIC CAPACITY

Monitoring **oxygen and diagnostic capacity** is a critical component of public health preparedness, ensuring that the DISTRICT can handle both chronic care and sudden surges in respiratory or infectious diseases.

Name of Health Facility	Oxygen-generating System (Y/N)	Backup Oxygen Source (Y/N)	Diagnostic Facilities Available(Y/N)				
			Lab	USG	X-ray	CT/MRI	RT-PCR
Government Healthcare Facilities							
GMCH THRISSUR	Y	Y	1	1	1	1	1

Name of Health Facility	Oxygen-generating System (Y/N)	Backup Oxygen Source (Y/N)	Diagnostic Facilities Available(Y/N)				
			Lab	USG	X-ray	CT/MRI	RT-PCR
DH WADAKANCHE RY	Y	Y	1	1	1	1	1
G.H THRISSUR	Y	Y	1	1	1	1	1
G.H IRINJALAKUDA	Y	Y	1	1	1	1	1
Private Government Healthcare Facilities							
Jubilee Mission Medical College & Research Institute (JMMCRI)	Y	Y	1	1	1	1	1
Amala Institute of Medical Sciences	Y	Y	1	1	1	1	1

DIAGNOSTICS FACILITY MAPPING AT THE DISTRICT LEVEL

The diagnostic capacity of Thrissur District represents the “intelligence network” of the healthcare system. The speed, accuracy, and timeliness of disease identification depend on the availability, accessibility, and technical capability of diagnostic facilities across all levels of care.

Item	Govt	Private	AYUSH	Total
General labs	113	180	25	318
Microbiology labs	1	12	0	13
RT-PCR labs	1	5	0	6

USG units	35	120	5	160
CT/MRI units	10	35	0	45
Research labs	2	6	0	8
Labs of other departments that can be repurposed	5	10	0	15

DISTRICT MAJOR GOVT LAB FACILITY DETAILS

SOCIAL AND COMMUNITY INFRASTRUCTURE FOR THE SURGE PLAN

This table serves as our **logistics and shelter inventory**. By mapping these locations, we can quickly identify where to house displaced citizens, where to set up temporary medical clinics, and how to manage the deceased with dignity during a crisis.

Category	Total Count	LSGD	Est. Capacity (Persons)	Contact details

HUMAN RESOURCES

This section focuses on the **human capital** available within the DISTRICT. In any emergency—be it a pandemic, flood, or industrial accident—infrastructure is only as effective as the people operating it.

MEDICAL & CLINICAL PERSONNEL

This table tracks the "Frontline" providers responsible for diagnosis, treatment, and clinical management. Narrative sentence: eg., "Total health workforce: 450 personnel, with 60% in government facilities serving as primary surge capacity." A detailed directory with the contact numbers of all workers is maintained (**Annexure in 1**).

Major Category / Cadre	Sanctioned	In Position	Vacancy
Administrative Cadre Doctors	15	14	1

Field Workers (Vector Control)	30	15	15
Filaria Inspectors	2	2	0
TOTAL (PUBLIC HEALTH STAFF)	942	857	85

COMMUNITY & SUPPORT CADRE

Thrissur District demonstrates strong community resilience and surge capacity through a well-established network of frontline workers, volunteers, and community-based organizations. With the support of ASHA and Anganwadi workers, a large pool of trained volunteers (NCC/NSS, Civil Defence, Red Cross), and extensive grassroots platforms like Kudumbashree and MNREGS, the district is capable of rapid mobilization for emergency response, logistics, and public health interventions. Additionally, the presence of numerous NGOs, religious institutions, youth clubs, and residential associations ensures effective last-mile connectivity, community engagement, and resource distribution, making the district well-prepared to manage public health emergencies and disaster situations efficiently.

Cadre	Number
ASHA Workers	2,600
AWW (Anganwadi Workers)	3,017
Emergency Medical Volunteers (Trained)	400
Kudumbashree	4.5 lakh members
MNREGS	1.8 lakh registered workers
Purusha Swayam Sahaya Sangham	1,200 groups

Cadre	Number
Ex-Servicemen	5,500
Retired Police Officers	800
NCC/NSS Volunteers	15,000 (college & school units)
Red Cross volunteers	1,200
One Health Community Volunteers	500
One Health Community Mentors	100

COMMUNITY ORGANIZATIONS

This section details the presence of community-based organisations (CBOs), non-governmental organisations (NGOs), faith-based organisations (FBOs), Kudumbashree Self-Help Groups (SHGs), and Ayalkootams within the Local Self-Government Institution (DISTRICT). These groups enhance grassroots mobilization, resource distribution, and support networks crucial for pandemic response and community resilience.

Category	Total Count
NGOs	400
Religious based organizations	2200
Foreign based organizations	30
Sports Club/youth clubs	3000
Kudumbashree SHGs	20000
Ayalkootams	1000

Category	Total Count
Political organizations	1200
Residential organizations	1500

ADMINISTRATIVE & EMERGENCY SERVICES

This section outlines the availability of key non-health emergency support services and infrastructure within the DISTRICT, which are essential for effective pandemic preparedness and response. These facilities support law enforcement, disaster response, water supply, logistics, mobility, and community-level interventions during public health emergencies.

Category	Total Count	Contact details
Police Stations	24 (under Thrissur City Police Commissionerate)	District Police Office (Thrissur City): 0487-2336100
Fire & Rescue Stations	6 major stations (Thrissur, Chalakudy, Guruvayur, Irinjalakuda, Kunnampulam, Nattika)	District Fire Office (Thrissur): 0487-2382000
Water Pumping Points	20 stations	Kerala Water Authority (PH Division, Thrissur): 0487-2333070
Public Distribution System (PDS)	1,196 ration shops	District Supply Office (Civil Supplies): 0487-2333280

INFORMATION REGARDING RESOURCES

The availability of essential transport and support resources plays a quiet but critical role in saving lives. Equipment such as ambulances, mobile mortuaries, amphibian ambulances, and motorized boats ensures that patients, samples, and healthcare teams can move swiftly—even in flooded, remote, or difficult terrains. Heavy vehicles like JCBs, cranes, tractors, and torus lorries support logistics, waste management, emergency infrastructure, and rapid conversion of spaces into care or isolation facilities. Taxis, four-wheel-drive vehicles, and trucks help maintain continuity of essential services, reach vulnerable populations, and support home-based care and supply delivery.

Means of transportation	Total Count
JCB	3
Heavy Duty Cranes	40
Four Wheel Drive vehicles	13
Ambulances	66
Boats	9

Note: For specific details regarding vehicle owners and contact information, please refer to **Annexure [X]**.

The One Health method integrates environmental, animal, and human health to enable proactive pandemic preparedness. Panchayat-level surveillance needs to be improved to detect and treat zoonotic and environmentally transmitted diseases early. Surveillance is strengthened through systematic assessment of animal populations, veterinary infrastructure, poultry and slaughter facilities, intersectoral coordination, and specialised tools, such as GIS-based avian influenza seasonality mapping from previous outbreaks to enable predictive alerts and ward-specific sampling to support effective pandemic preparedness in high-risk areas like the Kole wetlands (Ponnani–Thrissur Kole region), coastal belt areas of Chavakkad–Kodungallur, poultry-dense clusters across central Thrissur, and migratory bird habitats and wetland ecosystems.

ANIMAL & BIRD POPULATION

Mapping animal and bird populations at the Panchayat level is essential for identifying and prioritising zoonotic disease hazards such as rabies, avian influenza (H5N1), leptospirosis, anthrax, and Nipah-like spillover events. Risk classification, targeted surveillance, vaccination planning, and early epidemic detection made feasible by comprehensive population mapping all enhance One Health-based pandemic preparedness.

Category	Item	Estimated Population	Wards
Animal Population	Livestock (Cattle/Goats/Buffalo)	1,58,754	All wards
	Pet Animals (Dogs/Cats)	87,781	All wards
	Stray Dog Population	30,000	All wards
	Pig Farms (Number of heads)	11,334	Selected wards
	Small Units (Sheep / Goats – clustered)	71,408	Rural wards

The main risk of zoonotic diseases in Thrissur district is concentrated in LSGs such as Pariyaram, Pazhuvil, Chazhoor, Engandiyur, Kattoor, Cheruthiruthy, and Vellangallur, where there is a high density of livestock farms, poultry units, and mixed animal husbandry activities. These areas also have active agricultural landscapes and wetland ecosystems which increase the interface between humans, animals, and the environment. The stray dog population in market areas, fish landing sites, and bus stations remains a substantial challenge for rabies surveillance and bite prevention. There is a considerable risk of avian influenza introduction and amplification during November–December due to the seasonal presence of migratory and resident water birds near ponds, canals, rivers, backwaters, and paddy fields, particularly in and around the Kole Wetlands. Clusters of livestock farms and animal shelters located in low-lying and flood-prone areas further raise the risk of leptospirosis and other environmentally mediated zoonotic diseases, especially during the monsoon season when flooding and water contamination are common across several parts of the district.

VETERINARY INFRASTRUCTURE

Veterinary institutions are a core pillar of One Health surveillance, enabling early detection of zoonotic diseases through vaccination, investigation of unusual animal illnesses or deaths, sample collection, and timely outbreak reporting. A well-mapped and responsive veterinary network strengthens coordination with human health and DISTRICT systems, ensuring rapid response during zoonotic events and pandemics.

Thrissur District, covering 3,032 sq. km and bordering Palakkad, Malappuram, Ernakulam, and Idukki, is one of Kerala’s most livestock-dense districts. With 226 veterinary institutions serving diverse agro-ecological zones — coastal, urban, and highland — the district holds significant capacity for animal disease surveillance and response.

Thrissur District is served by a total of 226 veterinary institutions distributed across all 17 blocks.

VETERINARY & ANIMAL HEALTH FACILITY DIRECTORY — THRISSUR DISTRICT

Total Vet. Institutions	Govt Hospitals	Dispensaries	Polyclinics
226 (District Total)	22 Veterinary Hospitals	89 Dispensaries	6 Polyclinics
Sub-Centres	24-Hr Services	Mobile Vet Units	Night Block Services
96 Sub-Centres	Anthikad & Kodungallur Polyclinics	Pazhayannur & Mathilakam Blocks	All 16 Blocks covered

Institution Type	Count	Key Function

Institution Type	Count	Key Function
Veterinary Hospitals	22	Full clinical services, emergency care, zoonotic screening
Veterinary Dispensaries	89	Routine treatment, vaccination, sample collection
Veterinary Sub-Centres	96	Primary care, passive surveillance, farmer advisory
Veterinary Polyclinics	6	Specialist referral, diagnostics, advanced procedures
Regional Animal Husbandry Offices	4	Administrative coordination, outbreak reporting
District Veterinary Centre	1	District-level disease control hub
Animal Disease Control Project	1	Disease monitoring and eradication
Clinical Lab (Mathilakam)	1	Diagnostic support for field units
Central Veterinary Store	1	Medicines, vaccines, PPE stockpile
Artificial Insemination Centres	2	Breeding; secondary biosecurity points
Pig Breeding Unit	1	Swine biosurveillance (ASF risk)
Special Livestock Breeding Programme	1	Genetic improvement; also surveillance node
Rinderpest Mobile Unit	1	Rapid response / mobile surveillance
TOTAL	226	District-wide network

Academic & Research Infrastructure

Thrissur hosts a critical concentration of veterinary academic and research institutions that significantly enhance pandemic preparedness capacity:

Institution	Location	Pandemic Preparedness Role
College of Veterinary & Animal Sciences	Mannuthy, Thrissur – 680 651	Teaching hospital, disease research, epidemiology training
Veterinary Biological Institute (VBI)	Mannuthy, Thrissur	Vaccine production (viral & bacterial); emergency biologicals
State Institute of Animal Diseases (SIAD)	Mannuthy, Thrissur	PCR, ELISA, FAT diagnostics; AI/bird flu surveillance; national referral lab network
Dept. of Veterinary Public Health & Epidemiology (KVASU)	Mannuthy, Thrissur	Zoonotic surveillance research; One Health studies; epidemiology support

The Veterinary Biological Institute campus (46.526 acres) produces four Freeze Dried Attenuated Viral vaccines and played a decisive role in eradicating Rinderpest from Kerala by 1997 — a benchmark of rapid vaccine-led pandemic response.

19. Rinderpest Mobile Unit (DAHO)	Rinderpest Mobile Unit, Thrissur	Govt	District-wide — deployed from DAHO, Civil Station	0487-2361216 On-call disease response unit

VETERINARY DOCTORS & WORKFORCE

Early detection, diagnosis, reporting, and reaction to animal illness epidemics depend on the availability and accessibility of qualified veterinary specialists. By identifying unusual animal morbidity or mortality promptly, collecting samples promptly, and coordinating efficiently with human health and DISTRICT systems—especially during

zoonotic outbreaks and pandemic-prone situations—a clearly defined veterinary workforce enhances One Health surveillance.

Category	Number Available	Type (Govt/Pvt)	Contact number
Government Veterinary Doctors	38	Govt	0487-2360180 (District Vet Office)
Private Veterinary Doctors	55	Private	District Animal Husbandry Office (Ayyanthol): 0487-236121
Livestock Inspectors	62	Govt	District Animal Husbandry Office (Thrissur): 0487-2361216
Para-veterinary Staff / Attenders	90	Govt	0487-2360180 (District Vet Office)
Contract / On-call Veterinary Support (if any)	12	Contract / NHM	District Animal Husbandry Office (Thrissur): 0487-2361216

HIGH-RISK INTERFACE POINTS (SURVEILLANCE SITES)

High-risk interface points for Thrissur District include the Kole wetlands (RAMSAR site), Chalakudy River floodplain, backyard poultry clusters in Irinjalakuda and Mala taluks, live animal markets, and Thrissur Pooram-linked slaughter sites. These are primary zoonotic spillover locations.

Type of Habitat	Type of High-risk interface	Geographical vulnerability
Wetlands & Backwaters	Kole wetlands (Ramsar site), Chalakudy River	HIGH – seasonal flooding spreads leptospira; Nov–

	wetlands, Peechi reservoir, Kodungallur backwaters – livestock-human contact zones	Feb migratory bird congregation raises avian influenza risk
Backyard Poultry Farms	Clustered backyard poultry & duck units in Irinjalakuda, Mala, Chalakudy, Vellangallur taluks near Kole belt	HIGH – unregulated human-poultry-wild bird contact; AI (H5N1/H5N8) and Newcastle disease spillover risk
Cattle Sheds near Water Bodies	Cattle sheds along Chalakudy River banks, Bharathapuzha floodplain, Kole paddy-field cattle rearing zones	HIGH – leptospira shedding into surface water during monsoon; direct human contact with contaminated flood soil
Fish & Meat Markets	Thrissur city (Shakthan Thampuran market), Irinjalakuda, Kodungallur, Guruvayur, Kunnamkulam wet markets	MODERATE-HIGH – poor cold chain & hygiene; zoonotic spillover from fresh fish, live poultry handling
Community Slaughter Sites	Festival slaughter during Thrissur Pooram season; informal slaughter in rural panchayath wards; Eid/Bakrid sites	HIGH – seasonal peak risk; unregulated carcass handling, blood/waste disposal near water sources
Migratory Bird Congregation Areas	Kole wetlands (RAMSAR, Thrissur–Malappuram border), Peechi reservoir, Thiruvilvamala; 200+ bird species recorded	HIGH – Nov–Feb: avian influenza introduction via migratory waterfowl; direct contact with backyard flocks
Rodent-Infested Grain Storage	Paddy storage yards in Kole belt; FCI godowns near Thrissur town; rice mills in Irinjalakuda, Chalakudy	MODERATE – leptospirosis & scrub typhus risk; rodent urine contaminates grain, water and farm soil

Category	Total Count	Key Locations (LSGs)
Poultry Farms	320	Irinjalakuda, Mala, Chalakudy, Kodungallur, Vellangallur taluks
Backyard / Clustered Poultry Units	2,400	Kole belt villages, Guruvayur, Mala, Vellangallur, Irinjalakuda panchayaths
Duck Rearing Units (open water access)	180	Kole wetland periphery, Chalakudy riverine panchayaths, Kodungallur coastal zone
Slaughterhouses/ Slaughter Points	12 licensed; 30 unlicensed	Thrissur Corp., Irinjalakuda, Kodungallur, Chalakudy, Kunnamkulam, Guruvayur
Meat/Fish Markets	85	Thrissur city, Irinjalakuda, Kodungallur, Chalakudy, Kunnamkulam, Guruvayur
Live Bird Sale Points	40	Thrissur city market, Irinjalakuda, Guruvayur, Kodungallur, Chalakudy
Cattle Markets / Weekly Animal Fairs	8 weekly	Irinjalakuda, Chalakudy, Kunnamkulam, Kodungallur, Mala

Pet Shops / Breeders	35	Thrissur city, Guruvayur, Chalakudy, Kunnankulam, Irinjalakuda
Animal Shelters / Pet Homes	4	Thrissur city (Blue Cross, SPCA), Guruvayur (Punnathur Kotta)
Waste Disposal Sites near Animal Units	18	Kole belt panchayaths, Chalakudy industrial zone, Irinjalakuda outskirts

ENVIRONMENTAL RISK MAPPING

Environmental risk mapping identifies monsoon- and flood-prone hotspots for vector-borne (dengue, chikungunya) and waterborne (leptospirosis, diarrhoea) diseases, as well as zoonotic diseases, in Kerala's wetlands. Systematic surveillance supports early warnings, targeted interventions, and Panchayat pandemic preparedness.

Waterborne exposure: Flood-prone areas and stagnant water bodies facilitate *leptospira survival*, raising leptospirosis risk.

Traditional practices: Informal slaughter and fish markets lack standardized hygiene, creating *spillover opportunities*.

Risk Factor	High-Risk Wards	Key Locations	Risk Level (High/Med/Low)
Flood-prone areas	Kodungallur, Mala, Chalakudy, Irinjalakuda, Kole belt panchayaths	Chalakudy River floodplain, Kole paddy fields, Bharathapuzha banks, Kodungallur coastal zone	HIGH
Water bodies/wetlands	Kole wetland fringe wards	Kole wetlands (RAMSAR), Peechi	HIGH

Risk Factor	High-Risk Wards	Key Locations	Risk Level (High/Med/Low)
	(Thrissur–Malappuram border), Peechi, Vazhachal, Sholayar	reservoir, Chalakudy River, Periyar tributaries, Kodungallur backwaters	
Solid waste accumulation	Thrissur Corporation (Wards 1–55), Irinjalakuda, Kodungallur municipalities	Thrissur city outskirts (Punkunnam, Ayyanthole), Kodungallur town, Irinjalakuda NH bypass	MODERATE
Animal waste disposal issues	Kole belt agricultural wards, poultry-dense wards in Mala, Chalakudy, Irinjalakuda	Poultry clusters in Irinjalakuda taluk; dairy farms near Peechi reservoir; Kole belt cattle zones	HIGH
Rodent infestation zones	Paddy storage wards in Kole region, Thrissur market wards, Irinjalakuda grain mill zones	Kole belt paddy fields, FCI warehouse zones near Thrissur city, Irinjalakuda rice mill area	MOD-HIGH
Industrial effluent discharge	Chalakudy industrial corridor wards, riverine wards downstream of KSIDC	KSIDC Chalakudy industrial estate; rubber processing units along Chalakudy River	MODERATE

Risk Factor	High-Risk Wards	Key Locations	Risk Level (High/Med/Low)
Construction sites / abandoned buildings	Urban expansion wards – Thrissur Corp., Guruvayur periphery, Irinjalakuda bypass	NH-544 corridor, Thrissur ring road, Guruvayur Smart City project sites	LOW-MOD
Poor drainage/blocked canals	Low-lying wards in Thrissur Corp. (Wards 22, 38, 43), Kodungallur, Kole belt canal areas	Kole irrigation canals, Thrissur city storm drains, Kodungallur tidal zone	HIGH
Drinking water source contamination risk	Flood-adjacent wards in Chalakudy, Kodungallur, Kole belt fringe villages	Open wells near Kole belt, Chalakudy River intake zones, Peechi dam supply villages	MOD-HIGH

DISEASE SEASONALITY MAPPING

Thrissur's disease burden is strongly seasonal: the Kole paddy flooding season (June–September) peaks leptospirosis risk; the migratory bird season (November–February) elevates avian influenza risk at Kole wetlands; and the post-monsoon period (July–November) drives dengue and chikungunya transmission in urban areas.

- 1, **Flooding & waterlogging** → amplifies leptospirosis, malaria, diarrheal diseases.
- 2, **Migratory bird influx (Nov–Feb)** → avian influenza risk.
- 3, **Mosquito breeding cycles** → vector-borne disease peaks in monsoon.
- 4, **Agricultural practices** → close human–animal contact in paddy fields.

Disease	Peak Risk Season	Key Drivers	High-Risk Locations	Surveillance Focus
Avian Influenza	Nov – Feb (migratory season)	Migratory waterfowl at Kole wetlands; backyard poultry-wild bird contact; open duck rearing	Kole wetlands, Irinjalakuda-Mala poultry belt, Kodungallur wetlands, Chalakudy riverine farms	Live bird market surveillance; dead bird rapid reporting; Kole wetland active monitoring
Leptospirosis	June – Sep (SW Monsoon peak)	Flooding of Kole paddy fields; cattle/rodent urine contamination ; barefoot paddy farming	Kole belt panchayaths (Thrissur–Malappuram border), Chalakudy River villages, low-lying wards	Fever surveillance in Kole belt; rodent control; farmer awareness; RDT-based rapid diagnosis

Dengue/Chikungunya ^a	Jul – Nov (post-monsoon peak)	Stagnant water in urban areas, construction sites, rubber plantations; Aedes breeding	Thrissur city wards, Guruvayur, Irinjalakuda, Chalakudy urban zones, rubber plantation areas	Weekly larval index surveys; cluster outbreak investigation; source reduction drives
Acute Diarrheal Diseases	Apr – Jun (pre-monsoon) & flood events	Contaminated water post-flooding; open defecation near water bodies; failed chlorination	Kole belt villages, Kodungallur coastal wards, flood-prone wards along Chalakudy River	Weekly water quality testing; ORS supply chain; ASHA-level rapid reporting
Rabies	Year-round (peak Feb–Mar)	High stray dog density in urban areas; inadequate PEP access in remote taluks; festival gatherings	Thrissur Corp. wards, Guruvayur pilgrimage zone, Kodungallur, rural Kunnampalam wards	Animal bite case registry; ARV/RIG stock assurance; stray dog mass vaccination drives
Anthrax (rare)	Apr – Jun (hot dry season)	Soil disturbance exposing B. anthracis spores; unvaccinated cattle in eastern hilly taluks	Forest-fringe villages – Vazhachal, Sholayar, Athirappilly (Chalakudy taluk eastern ranges)	Annual cattle vaccination; farmer sensitization; soil sample surveillance in eastern ranges

Vulnerability mapping pinpoints high-risk populations, occupations, and areas exposed via environment, livelihoods, socio-economics, and poor service access. Paired with environmental/seasonality mapping, it enables risk-based surveillance, targeted actions, and optimal resource use in One Health and pandemic planning.

Vulnerability Factor	High-Risk LSGs / Locations (Thrissur District)	Key Groups / Specific Exposure	Risk Level
 Flood-prone households	• Chalakudy Municipality & Taluk — worst-hit 2018 • Mala Grama Panchayat (Mambra, Cheruvaloor wards) • Athirappilly, Pariyaram, Kodassery GPs • Meloor, Kadukutty, Annamanada, Kuzhoor GPs • Mukundapuram Taluk (Kodungallur periphery) • Irinjalakuda Municipality (Karuvannur basin) • Kodungallur Municipality (Periyar delta) • Mulankunnathukavu, Peechi canal belt (Thrissur Taluk)	• Riverbank households along Chalakudy, Karuvannur, Bharatapuzha • Kole wetland-adjacent low-lying paddy farming families • BPL households in flood-plain panchayats • Families in kutcha/semi-pucca structures (726 households in district living without permanent roof — Census 2011) • Elderly & disabled residents who cannot self-evacuate • ~1.2 lakh persons displaced in Thrissur district during 2018 Kerala floods • NH 544 (Thrissur–Chalakudy) corridor: periodic road isolation cuts off medical supply chains	VERY HIGH
 Wetland-adjacent communities	• Thrissur–Ponnani Kole Wetlands (Ramsar Site) — 29 panchayats cultivate paddy in Kole lands • Kole lands: Thrissur, Mukundapuram, Kodungallur, Chavakkad Taluks (11,460 ha Kole land) • Poyya GP (Shrimp Farm & Training Centre, Prawn Hatchery Kaipamangalam) • Vadanappally,	• Duck-rearing and paddy-farming households in Kole wetland belt • Communities dependent on backwater fisheries (inland fishing) • Families in tidal backwater-flooded zones — high leptospirosis + zoonotic risk • Seasonal agriculture workers who wade flooded paddy fields barefoot • Ramsar Kole wetlands support migratory birds — avian influenza surveillance zone	HIGH

Vulnerability Factor	High-Risk LSGs / Locations (Thrissur District)	Key Groups / Specific Exposure	Risk Level
	Edavilangu, Chavakkad coastal-wetland fringe GPs • Chettuva, Kodungallur backwater communities	• Aquaculture (prawn/shrimp) workers — direct contact with contaminated water bodies	
 Backyard poultry / duck rearing households	• Mukundapuram Taluk (high backyard poultry density — paddy belt) • Kodungallur, Chavakkad Taluks (duck rearing integral to Kole wetland farming) • Chalakudy, Irinjalakuda, Kunnamkulam rural panchayats • KVASU Mannuthy (University Poultry & Duck Farm, Thrissur — research & supply node) • All 86 Grama Panchayats — backyard poultry present across district	• Backyard poultry rearers (significant contributor to household protein & income in rural panchayats) • Duck herders — traditional layer duck foraging in post-harvest paddy fields (Thrissur model documented by KVASU) • Families with mixed poultry-livestock systems (shared housing in rural areas) • Women-led backyard units linked to Kudumbashree micro-enterprise schemes • Live bird market workers in Thrissur city, Irinjalakuda, Chalakudy • Risk: Avian Influenza (H5N1/H5N8) — bird-human interface; Newcastle disease; Salmonellosis	HIGH
 Livestock-rearing households	• Thalappilly Taluk — largest cattle-rearing area (eastern agrarian belt) • Chalakudy Taluk (Athirappilly–Vazhachal forest fringe — wildlife-livestock interface) • Mukundapuram Taluk (mixed farming with bovine cattle) • Kunnamkulam, Wadakkanchery rural panchayats	• Cattle/buffalo farmers — risk of Brucellosis, Q fever, leptospirosis (occupational exposure) • Goat rearers — Peste des petits ruminants (PPR), Orf, possible MERS-CoV interface • Pig farmers (1 Pig Breeding Unit in district) — influenza H1N1 spillover risk • ST tribal communities in Vazhachal, Sholayar with free-ranging livestock near wildlife • Elephant mahouts / handlers	HIGH

Vulnerability Factor	High-Risk LSGs / Locations (Thrissur District)	Key Groups / Specific Exposure	Risk Level
	• All taluks: goat rearing common in SC/ST households	(Thrissur has 521+ captive elephants, highest in Kerala) — herpes virus, tuberculosis • Slaughterhouse-supply chain farmers: regular animal transport across district boundaries	
 Slaughterhouse & meat market workers	• Thrissur Municipal Corporation (Corporation Slaughterhouse) • Irinjalakuda Municipality Slaughterhouse • Chalakudy Municipality Slaughterhouse • Kunnamkulam, Kodungallur, Guruvayur, Chavakkad Municipal Slaughterhouses • Major meat markets: Thrissur Round, Irinjalakuda, Chalakudy town	• Slaughterhouse workers (ante-mortem & post-mortem handlers) — daily zoonotic exposure • Meat cutters, handlers, transporters in wholesale and retail markets • Poultry slaughter line workers — highest H5N1 and respiratory pathogen exposure risk • Informal roadside meat vendors — no PPE, low hygiene compliance • Market cleaning staff and waste disposal workers at abattoirs • Disease risk • No systematic occupational health screening programme currently exists at district level	HIGH
 Fisherfolk & fish market workers	• Chavakkad Municipality & Taluk (major marine fishing coast — ~40 km coastline) • Kodungallur Municipality (fish landing centre, historical port) • Guruvayur Taluk coastal panchayats: Kadappuram, Poyya, Valappad, Anchuthengu • Thrissur Corporation — Kadappuram Government Fish Farm	• Marine fisherfolk (Mukkuva, Arayan, Dheevara caste communities) — occupational exposure during seasonal congregation • Inland fisheries workers — Kole wetland fish catch, river fishermen (Chalakudy, Karuvannur rivers) • Fish market vendors (Thrissur, Irinjalakuda, Chalakudy, Kodungallur markets) • Fish processing workers (filleting, drying, salting) — respiratory and skin disease risk	HIGH

Vulnerability Factor	High-Risk LSGs / Locations (Thrissur District)	Key Groups / Specific Exposure	Risk Level
	• Chettuva, Edavilangu, Mathilakam — inland & coastal fisheries	• Matsyafed workers at Freshwater Prawn Hatchery, Kaipamangalam • Risk: <i>Vibrio cholerae</i>, Hepatitis A/E (waterborne), fish-borne trematodes, skin infections • Seasonal crowding in fishing hamlets and harbours — high disease amplification potential	
🔧 Sanitation workers	• Thrissur Municipal Corporation (52 wards, 78,336+ households) • All 6 Municipalities: Chalakudy, Chavakkad, Guruvayur, Irinjalakuda, Kodungallur, Kunnamkulam • All 86 Grama Panchayats (LSGDs) • Hospitals — Govt. Medical College, District Hospital, Taluk Hospitals	• Solid waste collection workers (daily municipal sanitation crew) • Sewer/drain cleaners and manual sanitation workers • Hospital sanitation staff (highest pathogen exposure during pandemics) • Biomedical waste handlers across healthcare facilities • Contract sanitation workers (many are inter-state migrants with no occupational health cover) • Risk: Leptospirosis, Hepatitis B/C, respiratory infections, direct contact pathogen exposure • During pandemics: sanitation staff are critical frontline workers with high exposure and low PPE access	VERY HIGH
👷 Daily wage / migrant workers	• Thrissur Municipal Corporation (construction boom — jewellery & gold sector) • Irinjalakuda, Chalakudy — industrial and construction zones • All major urban LSGs: Guruvayur, Kunnamkulam,	• Inter-state migrant workers (~2–3 lakh; mainly from Odisha, West Bengal, Bihar, Assam, UP) • Construction labourers (crowded dormitory/labour camp housing — high disease transmission) • Agricultural daily-wage workers (seasonal, no social protection or sick leave) • Gulf returnees (Thrissur has	HIGH

Vulnerability Factor	High-Risk LSGs / Locations (Thrissur District)	Key Groups / Specific Exposure	Risk Level
	Kodungallur • Thalappilly Taluk agricultural belt (seasonal farm labour) • Major construction sites: NH 544, infrastructure development projects	highest NRI remittance dependency in Kerala) — repatriation spikes disease importation risk • Kudumbashree members employed in daily-wage services (caterers, cleaners, helpers) • No paid sick leave = forced to work while symptomatic during outbreaks • Incomplete LSGD-level migrant registry = contact tracing gap during pandemics	
👴 Elderly & chronically ill populations	• District-wide — all LSGs (Kerala has highest elderly proportion in India due to Gulf migration of working-age adults) • Highest concentration: Guruvayur, Thrissur city, Irinjalakuda (larger residential areas) • Rural panchayats with high out-migration: Thalappilly, Kunnamkulam Taluks	• Persons aged >60 years (high proportion due to Gulf migration; 2011 Census: ~15%+ elderly population) • Diabetes patients (Kerala has one of India's highest NCD burdens; ~20% adult prevalence in Thrissur) • Hypertension and CVD patients (comorbidity dramatically increases pandemic CFR) • COPD / chronic respiratory disease patients • CKD patients (dialysis-dependent — critical if healthcare disrupted) • Cancer patients on active treatment • Institutionalised elderly (old age homes, care centres) — cluster outbreak risk • Homebound elderly with no caregivers (single-person households)	VERY HIGH
👶 Pregnant women	• All LSGs — District-wide • Priority LSGs: Chalakudy, Mala,	• All pregnant women (currently registered with JSSY/PMSMA at PHCs/CHCs)	HIGH

Vulnerability Factor	High-Risk LSGs / Locations (Thrissur District)	Key Groups / Specific Exposure	Risk Level
	Kodungallur (flood risk adds obstetric emergency access concern) • Eastern belt panchayats (Athirappilly, Vazhachal) — road cut-off risk during delivery emergencies • Areas near animal-rearing clusters (zoonotic exposure risk)	• High-risk pregnancies (gestational diabetes, pre-eclampsia, anaemia) — increased pandemic CFR • Tribal pregnant women in Vazhachal, Sholayar — no obstetric facility within 60 km if roads cut off • Women in Q fever / Brucellosis-endemic zones (near slaughterhouses, livestock farms) • Pregnant migrant women — may lack documentation and antenatal registration • Neonates and post-partum women — vulnerable to respiratory and vaccine-preventable diseases	
 Children (schools, Anganwadis)	• All LSGs — 92 panchayats + 6 municipalities (district-wide school & Anganwadi network) • Thrissur Corporation (52 wards — dense school clusters) • Guruvayur — pilgrimage area schools (high visitor footfall) • Chalakudy Taluk (schools in flood-isolated zones — Athirappilly, Annamanada)	• Children 0–6 years (3,03,950 as per 2011 Census — 9.74% of district population) • Anganwadi children (under-5) — ICDS centres district-wide (primary nutrition & health node) • School children (UP/LP/HS) — high-density contact transmission settings • Children with malnutrition or immunodeficiency (especially SC/ST children in eastern belt) • Children in areas with poor sanitation — diarrhoeal disease risk post-flood compounds pandemic burden • Children of migrant workers (unregistered, may miss school immunisation) • Vaccination coverage gaps: children of migrant families and nomadic communities	HIGH

Vulnerability Factor	High-Risk LSGs / Locations (Thrissur District)	Key Groups / Specific Exposure	Risk Level
 Limited access to safe water & sanitation	• Athirappilly, Vazhachal, Sholayar forest fringe panchayats (stream water dependency; no piped supply in tribal hamlets) • Flood-affected panchayats post-monsoon: Mala, Meloor, Annamanada, Kodassery (contaminated open wells) • Coastal panchayats with saline intrusion: Chavakkad, Kodungallur, Vadanappally (WASH crisis post-storm surge) • Densely populated informal settlements in Thrissur city periphery • Labour camps / migrant worker dormitories (minimal sanitation infrastructure)	• Tribal communities in Vazhachal, Sholayar range (Mudugar, Kadar, Malasar) — stream-dependent drinking water • Households with open wells (contaminated post-flood) — Mukundapuram, Mala, Chalakudy blocks • Communities without functioning toilets post-disaster (ODF status reversal risk after floods) • Migrant workers in construction sites with shared/inadequate latrine facilities • Coastal fishing hamlets with no protected water supply (Chavakkad, Kodungallur) • Risk: Cholera, typhoid, Hepatitis A/E, diarrhoeal disease outbreaks concurrent with pandemic • WASH degradation during floods = direct amplifier of disease burden, compounding pandemic response capacity	HIGH-MEDIUM

EPIDEMIOLOGICAL TRENDS (2021–2025)

Disease surveillance is the systematic collection, analysis, and interpretation of health data for planning, implementation, and evaluation of public health practice. This section presents the disease surveillance profile of the DISTRICT based on routine reporting systems and outbreak investigations to identify priority diseases, seasonal patterns, and emerging public health threats.

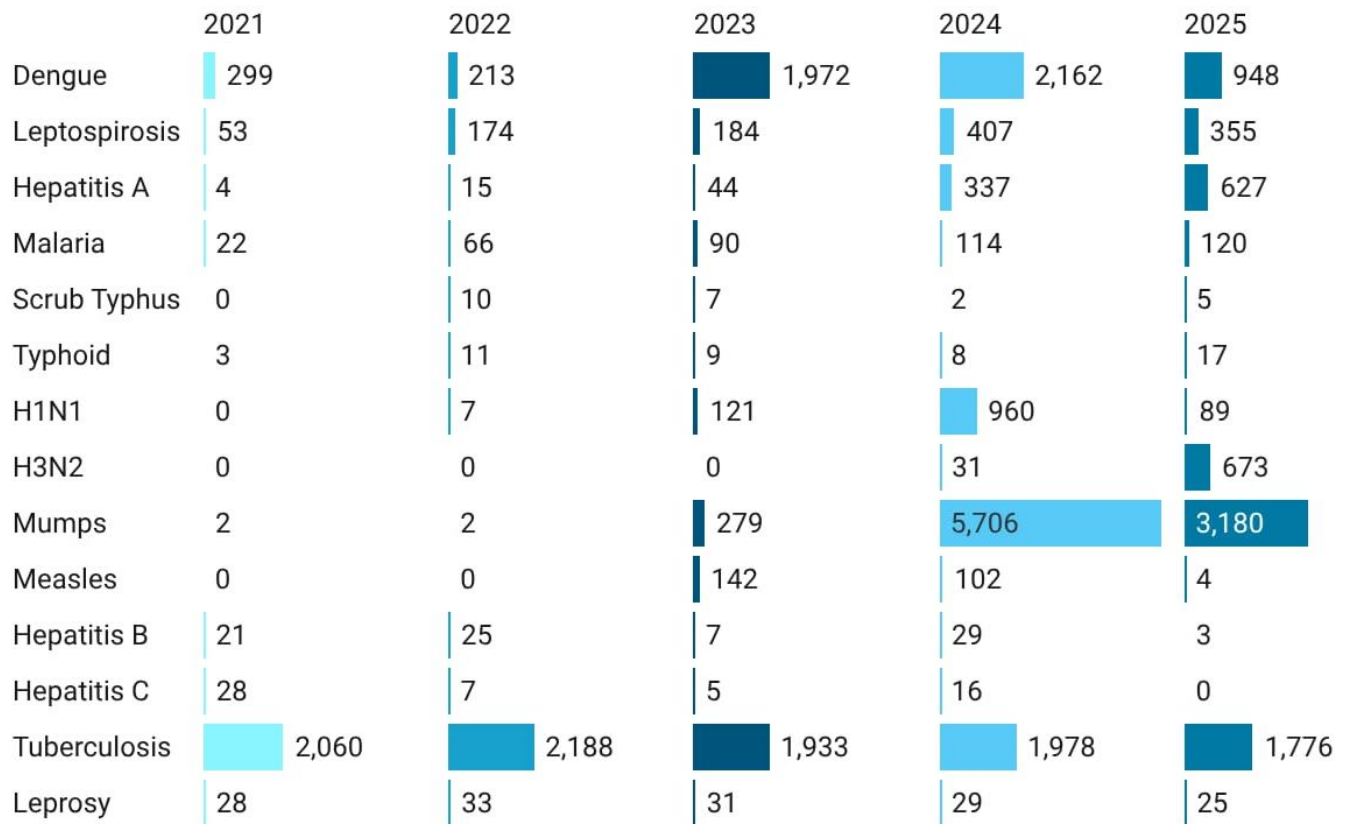

DISEASE BURDEN AMONG HUMAN BEINGS(LAST 5 YEARS)

Analysis of disease-wise data for the last five years helps identify persistent public health problems, emerging diseases, and changes in disease burden. This information supports prioritisation of prevention, preparedness, and response activities at the Panchayat level.

Disease	2021	2022	2023	2024	2025	Trend(Increasing/Stable/Decreasing)
Dengue	299	213	1972	2162	948	Increasing
Leptospirosis	53	174	184	407	355	Increasing
Hepatitis A	4	15	44	337	627	Rapidly Increasing
Malaria	22	66	90	114	120	Increasing
Scrub Typhus	0	10	7	2	5	Stable
Typhoid	3	11	9	8	17	Slight Increase
H1N1	0	7	121	960	89	Spike then Decrease
H3N2	0	0	0	31	673	Emerging Increase
ADD	15583	37432	37209	51891	60683	Strongly Increasing
Mumps	2	2	279	5706	3180	Increased then declining
Measles	0	0	142	102	4	Controlled

Hepatitis B	21	25	7	29	3	Stable
Hepatitis C	28	7	5	16	0	Decreasing
Tuberculosis	2060	2188	1933	1978	1776	Decreasing (with fluctuation)
Leprosy	28	33	31	29	25	Gradual decline
COVID-19	475753	139722	4878	489	254	Decreasing

Major communicable disease burden

SEASONAL TREND ANALYSIS

Seasonal analysis helps anticipate surges (e.g. dengue in monsoon, leptospirosis after floods, influenza in cooler months) and plan pre-emptive vector control, stockpiling of IV fluids, and awareness campaigns at Panchayat level.

DENGUE

Dengue is a major seasonal vector-borne disease strongly associated with rainfall, water stagnation, and increased mosquito breeding during the monsoon period.

Peak: July–November

DENGUE – HEALTH BLO CK-WISE YEARLY DISTRIBUTION (2021–2025)

OUTCOME-BASED TREND ANALYSIS- 2025

DENGUE

Month-wise Trend of Confirmed Dengue Cases – Thrissur District, 2023–2025

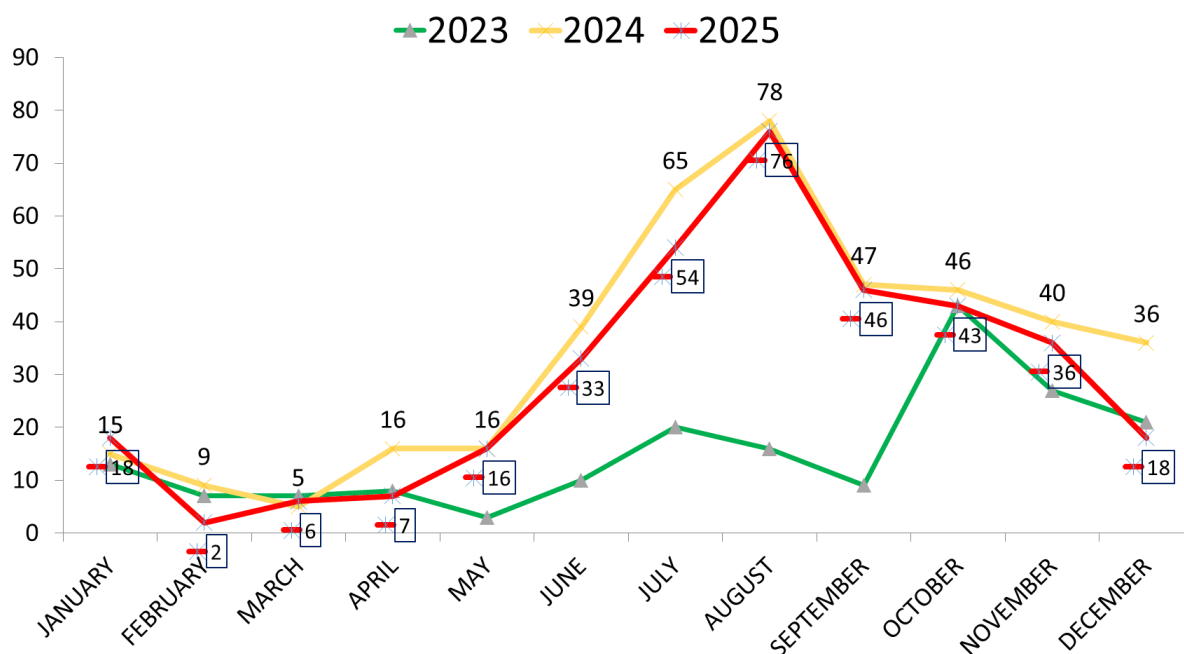

Dengue trends in Thrissur District show a clear seasonal and area-wise pattern, with low transmission during the early months of the year followed by a steady increase from the pre-monsoon period and a sharp rise during the monsoon months (June–September), when the disease reaches its peak due to favourable conditions for mosquito breeding. High case loads are observed in major blocks such as Ollur, Vellanikkara, and Tholur. Although cases begin to decline after the monsoon, transmission persists into the post-monsoon months, suggesting continued breeding in stagnant water sources. Overall, the pattern reflects a predictable monsoon-driven surge with clustering in high-risk areas,

emphasizing the need for intensified pre-monsoon vector control and sustained post-monsoon surveillance.

LEPTOSPIROSIS

Year Wise Comparison of Confirmed Leptospirosis

Leptospirosis trends in Thrissur District show a pronounced seasonal pattern with relatively low incidence in the early part of the year, followed by a sharp rise during the monsoon period, when cases increase significantly due to exposure to contaminated water and flood conditions. The data indicates a steady increase from 2021 (53 cases) to a peak in 2024 (413 cases), before a slight decline in 2025 (355 cases), though levels remain high. Block-wise distribution shows consistently higher burden in areas such as Ollur, Pazhanji, Erumapetty, Matathur, and Vatanapilly, reflecting vulnerability linked to waterlogging, agricultural exposure, and flooding. The pattern highlights leptospirosis as a monsoon-driven disease with widespread distribution across blocks, emphasizing the need for strengthened pre-monsoon prophylaxis, public awareness, and protective measures for high-risk populations.

HEPATITIS A

Hepatitis A trends in Thrissur District show a clear outbreak pattern with very low incidence during the initial years (2021–2022), followed by a gradual rise in 2023 and a sharp increase from 2024, culminating in a major surge in 2025. The disease demonstrates a post-monsoon amplification, likely linked to contamination of drinking

water sources and sanitation issues. Block-wise distribution indicates widespread transmission across the district rather than localization, with higher case loads observed in blocks such as Erumapetty, Pazhanji, Tholur, Ollur, and Matathur. The rapid escalation in recent years highlights an emerging public health concern, emphasizing the need for strengthened water quality monitoring, sanitation interventions, and early outbreak detection systems.

Trend of Confirmed Hepatitis A Cases by Month – Thrissur District, 2024–2025

TRANSMISSION TREND- 2025

For effective management of public health issues, it is important to track the trend of disease transmission mode. It helps identify the population or place at high risk that can be used to predict outbreaks and implement targeted interventions as quickly as possible. Understanding these kinds of trends enables authorities to allocate resources efficiently and change the strategies adequately based on the trend that follows.

Mode of Transmission	No. of cases	No. of Deaths

CHC Pazhayanur	28	9	35
CHC Alappad	52	24	26
TOTAL (ALL BLOCKS)	948	355	627

By overlaying five years of epidemiological data, we have identified multiple **‘Red Zone’ LSGs** across Thrissur district. These are areas where **two or more communicable diseases (particularly Dengue and Leptospirosis)** have shown recurrent occurrence over consecutive years, indicating persistent environmental and epidemiological vulnerability.

High-burden LSGs such as **Thrissur Corporation, Puthur, Pananchery, Nadathara, Nenmanikkara, and Kaiparambu** have consistently reported elevated dengue cases along with moderate to high leptospirosis incidence. These areas are characterized by **high population density, urban/peri-urban settings, poor drainage systems, and frequent water stagnation**, creating favorable conditions for vector breeding and disease transmission.

In addition, coastal and flood-prone LSGs such as **Chavakkad, Kodungallur, Kadappuram, and Vadanappilly**, along with low-lying areas including the **Kole wetland regions**, show a **dual burden of leptospirosis and Hepatitis A**, primarily due to **water contamination during monsoon and post-flood periods**.

The analysis clearly indicates that **disease clustering is strongly associated with environmental risk factors such as flooding, poor sanitation, water stagnation, and high human mobility**. Therefore, targeted interventions focusing on these high-risk LSGs are essential for effective disease prevention and control.

In this context, **installation of R.O. (Reverse Osmosis) water purification systems** and strengthening of safe drinking water supply should be prioritized in **coastal areas (Chavakkad, Kadappuram, Vadanappilly), flood-prone regions (Kodungallur, Kole belt), and identified hotspot LSGs (Pananchery, Nadathara, Puthur)** to reduce the burden of water-borne diseases.

INSTITUTIONAL FRAMEWORK & RESPONSE COORDINATION

EXISTING PLANS AND INSTITUTIONAL MAPPING

Thrissur is one of Kerala's most operationally complex districts for public health emergency management. Its risk profile combines three distinct layers: urban density around Thrissur Corporation; pilgrimage and mass-gathering hubs at Guruvayur, Vadakkunnathan, and Cheraman Juma Mosque; and flood-prone, zoonotic-disease-endemic coastal and wetland zones along the Chalakudy and Karuvannur rivers. Any institutional framework for pandemic response must reflect this geography.

The district already operates under several active governance instruments — the Thrissur District Disaster Management Plan (DDMP) administered by DDMA, the Epidemic Contingency Protocol of the District Medical Office, Block Public Health Emergency Plans at each of the 12 block PHUs, and Ward-level Health Surveillance Committees under respective LSGs. The pandemic preparedness framework consolidates these into a single, tiered command structure centred on the District Pandemic Emergency Operations Centre (EOC).

ESTABLISHING THE DISTRICT PANDEMIC EMERGENCY OPERATIONS CENTRE (EOC)

The EOC for Thrissur district is anchored at the Collectorate and functions as the single command point integrating health, administration, police, revenue, local self-government, and civil society response. Unlike routine inter-departmental coordination, the EOC activates with defined authority levels and pre-assigned functional roles that do not require fresh orders during an emergency.

Thrissur's EOC design accounts for three operational realities unique to the district: (i) the need to simultaneously manage pilgrimage-site health surveillance and general community surveillance; (ii) the coastal and inland flood risk that can compound a pandemic with a secondary emergency; and (iii) the volume of daily commuters and tourists passing through NH-544 and the Kuthiran Tunnel who can accelerate inter-district disease spread.

Core Functions of the Thrissur District EOC

- Round-the-clock situation monitoring integrating IHIP, IDSP feeds, and block-level daily reports
- Real-time coordination between the District Collector, DMO, DDMA, NHM District Office, all 17 Block Medical Officers, and LSGD representatives
- Escalation channel to State EOC (SEOC) with standardised daily situation reports
- Centralised requisition and dispatch of PPE, oxygen, essential medicines, and ambulances
- Authority to activate quarantine zones, CFLTC facilities, and movement restrictions under the Epidemic Diseases Act

Sl.	EOC Position	Officer – Thrissur	Operational Responsibilities
1	EOC Director	District Collector, Thrissur	Command authority; escalation to state; media strategy approvals
2	Health Operations Lead	District Medical Officer (DMO)	Clinical protocols, surveillance oversight, health sector deployment
3	Field Operations Coordinator	District Disaster Management Officer	Inter-department field coordination, CFLTC activation
4	Surveillance & Data Officer	District Surveillance Officer + Block Epidemiologists	IDSP/IHIP integration, case tracking, outbreak analytics, situation reports
5	Logistics & Supply Chain Coordinator	Deputy Collector (General) + Store Superintendent, DMO + Drug Inspector	Emergency procurement, KMSCL indent management, district storage oversight

Sl.	EOC Position	Officer – Thrissur	Operational Responsibilities
6	Public Communication Officer	District Information Officer	Press briefings, AIR/DD Thrissur coordination, social media oversight
7	Security & Enforcement Coordinator	Superintendent of Police, Thrissur City/Rural	Containment zone policing, ambulance corridor clearance, quarantine enforcement
8	Community & Volunteer Lead	Kudumbashree District Mission Coordinator + NGO Rep	Volunteer mobilisation, community kitchen activation, household support coordination
9	Essential Services Coordinator	District Supply Officer (Civil Supplies)	Ration distribution, PDS monitoring, food security during restrictions
10	Documentation Officer	District Planning Officer	Official minutes, daily activity logs, final situation reports

INCIDENT COMMAND SYSTEM (ICS) FOR THRISSUR DISTRICT

Thrissur district adopts the Incident Command System to provide an unambiguous chain of authority during pandemic activation. The ICS structure eliminates the ambiguity of parallel chains of command by placing all response actions under a single Incident Commander. The system has been pre-adapted for Thrissur's specific institutional landscape.

Operational Objectives of the ICS – Thrissur

1. Rapid detection and field-level confirmation of disease signals across all 94 LSGs
2. Containment of identified clusters within 48 hours of confirmation through coordinated block response
3. Uninterrupted delivery of essential health services (dialysis, ART, DOTS, maternal care) throughout the pandemic period
4. Protection of vulnerable ward populations — coastal communities, pilgrimage site workers, migrant labourers, elderly living alone
5. Structured command for mass gathering events — applying to Thrissur Pooram, Guruvayur festivals, and Basilica celebrations

ICS Level	Designation – Thrissur	ICS Title	Primary Authority
1	District Collector	Incident Commander	All pandemic response decisions; state liaison; declaration authority
2	District Medical Officer	Technical Lead —	Clinical strategy, surveillance

ICS Level	Designation – Thrissur	ICS Title	Primary Authority
		Health	direction, health sector operations
3	Additional District Magistrate / RDO	Deputy Incident Commander	Day-to-day multi-department operational oversight
4	District Information Officer	Public Information Officer	All official communications; crisis messaging; media management
5	Superintendent of Police	Safety & Security Officer	Movement restrictions, containment perimeter, law enforcement support
6	DDMO / Deputy Collector (DM)	External Liaison Officer	DDMA interface, NGO coordination, external resource requests

ICS Section	Section Chief – Thrissur	Key Operational Functions
Operations	District Medical Officer with Block MOs	Active case management, surveillance, isolation facility operations, quarantine centres
Planning	District Planning Officer + District Epidemiologist	Situation forecasting, resource projections, SOP maintenance, after-action documentation
Logistics	Deputy Collector (General) + KMSCL Depot Manager	Procurement, transport, warehouse management, cold-chain, biomedical waste logistics
Finance & Admin	District Treasury Officer + Finance Officer, DMO	Emergency budget disbursement, expenditure audit, staff welfare, documentation control

LOCAL SELF-GOVERNMENT DISASTER MANAGEMENT COMMITTEE (LDMC)

All 94 LSGs in Thrissur — 86 gram panchayats, 7 municipalities, Thrissur Corporation, — are required to maintain an active LDMC. The LDMC is not a consultative body; it is the operational unit that executes preparedness and first-response measures at the community level before district-level teams are deployed.

Given Thrissur's variation in LSG character — from urban Corporation wards to coastal panchayats to forest-edge panchayats near Athirappilly — LDMC composition is standardised but implementation is contextualised to local risk.

- Chairperson: Elected President (Panchayat / Municipality) or Mayor (Corporation / Guruvayur)
- Member Secretary: Medical Officer of the primary health institution serving the LSG
- Standing members: Ward Member, Health Inspector, JPHN Supervisor, ASHA Supervisor, Kudumbashree CDS Chairperson, Anganwadi Supervisor, local NGO lead
- Special technical invitees: Veterinary Surgeon (One Health coordination), Revenue Inspector, Sub-Inspector of Police, Fisheries Extension Officer (coastal panchayats)
-

HEALTH SIGNAL ESCALATION AND HEOC COMMUNICATION FLOW

Thrissur's Health Emergency Operations Centre (HEOC) operates within the DMO office and handles incoming surveillance signals from 94 LSGs, 17 block PHUs, and over 64 registered private health institutions. The escalation pathway is non-negotiable during outbreak periods — any ward-level signal must reach the HEOC within 24 hours of detection.

Step	Actor	Specific Action
1	Community, ASHA, Ward Volunteer, Private Clinic	Detects unusual illness cluster, fever surge, animal deaths, or school absenteeism spike; reports to JHI/JPHN within 6 hours
2	Junior Health Inspector / JPHN at Sub-Centre	Conducts initial field verification; fills IDSP S or P form; notifies Block Epidemiologist
3	Block Epidemiologist / Block Medical Officer	Reviews signal, classifies (routine / alert / outbreak), submits to District Surveillance Unit via IHIP; deputes RRT if needed
4	District Surveillance Officer	Analyses multi-block pattern; confirms outbreak; issues district alert; notifies DMO
5	District Medical Officer / EOC	Activates disease-specific response protocol; informs State HEOC; mobilises resources
6	State HEOC / DHS Kerala	Provides technical guidance, laboratory support, state resources; issues state-level advisory if warranted

PATIENT CARE PATHWAY — THRISSUR DISTRICT

Thrissur's clinical care cascade for pandemic patients uses a four-level severity-matched system. The system relies on the district's broad facility network — from community sub-centres to the Government Medical College Hospital — to distribute clinical load and prevent facility overcrowding.

Level	Severity	Setting — Thrissur	Clinical Standard
1	Mild (asymptomatic / minor symptoms)	Home isolation with ASHA/JPHN daily monitoring; telemedicine by PHC MO	Symptom tracking, fever management, isolation protocol, family protection guidance
2	Mild-Moderate	CFLTC — community halls, college buildings, block-level	Oxygen saturation monitoring, basic medical care, isolation, daily MO

Level	Severity	Setting — Thrissur	Clinical Standard
		converted spaces	review
3	Moderate	Secondary facilities — CHC, Government District Hospitals at Irinjalakuda, Kodungallur, Chalakudy	Oxygen therapy, IV medications, specialist on-call, ICU escalation pathway
4	Severe / Critical	Government Medical College Hospital Thrissur; empanelled private hospitals with ICU	Ventilator care, ICU management, multi-specialist review, ECMO referral to tertiary if needed

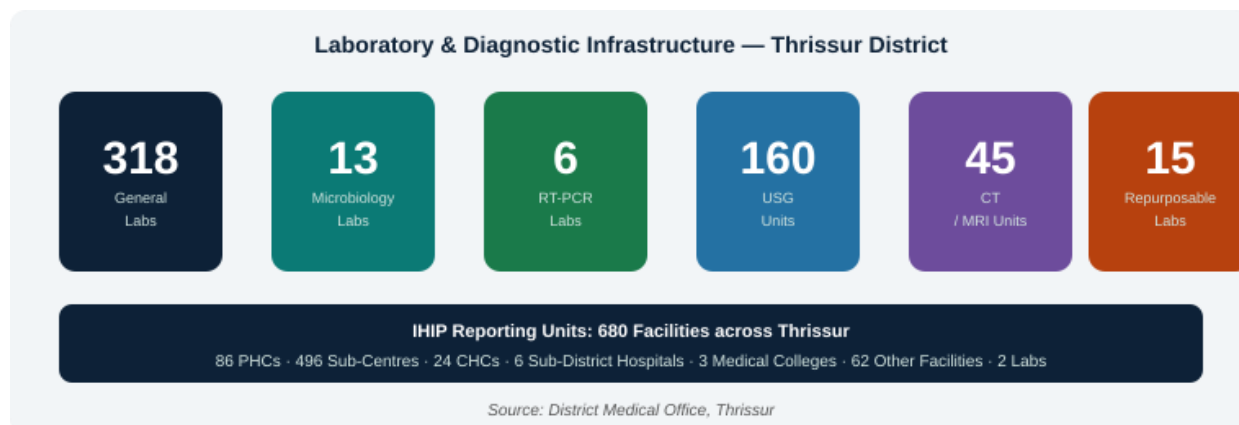

OXYGEN AND LIFE SUPPORT INFRASTRUCTURE — THRISSUR

Thrissur district's oxygen supply chain is built on four tiers: the LMO plant at Government Medical College Hospital (central anchor), manifold systems and cylinder banks at district and sub-district hospitals, PSA plants and concentrators at THQH level, and a cylinder reserve system managed by the DMO store. Mapping of all 64+ private hospitals with oxygen infrastructure has been completed and is maintained in the district health dashboard.

Facility Type	Oxygen Infrastructure	Pandemic ICU / O ₂ Bed Capacity
Govt Medical College Hospital, Thrissur	LMO plant (pipeline distribution to all wards)+ cylinder+ Concentrators	80+ ICU; 150+ O ₂ -supported beds
District Hospital Wdakkancherry	cylinder+ Concentrators	10–20 oxygen-supported beds
Govt General Hospital Thrissur	LMO plant + cylinder+ Concentrators	ICU; 120+ general O ₂ beds
THQH Chalakudy	cylinder+ Concentrators	10–20 oxygen-supported beds
THQH Chavakkad	cylinder+ Concentrators	10–20 oxygen-supported beds
Empanelled Private Hospitals	Variable (cylinder/LMO/concentrator)	Variable; data with DMO

LABORATORY DIAGNOSTICS AND SAMPLE MANAGEMENT

Laboratory diagnostics for Thrissur district are coordinated by the District Surveillance Officer. All specimen collection, packaging, and transport follows IDSP standard operating procedures. A hub-and-spoke model links sub-centre collection to block-level consolidation points, and onward to designated district and reference laboratories.

Major Designated Laboratory Facilities within the District – Thrissur

District	Laboratory / Institution	Diagnostic Services Available
Thrissur	DMO Laboratory, Thrissur	IgM ELISA for Dengue, Leptospirosis, Hepatitis A, B, C, Chikungunya, Scrub Typhus, NS1 ELISA
Thrissur	Govt. Medical College, Thrissur (RFL & SSSL)	IgM ELISA for Dengue, Leptospirosis, Hepatitis A, B, C, Chikungunya, Scrub Typhus, NS1 ELISA Bacterial culture & sensitivity tests (Sputum, Pus, Blood, Stool, etc.) COVID RT-PCR, CB-NAAT PCR for Leptospirosis, Zika, Influenza, RSV Hepatitis B & C Quantitative PCR Monkeypox testing

Designated Reference Laboratories (Outside District) for Advanced Virology & Surveillance Support

Location	Laboratory / Institution	Diagnostic & Testing Capacity
Alappuzha	NIV Alappuzha	IgM ELISA for JE/WN, EBV PCR for Influenza, Leptospirosis, Dengue, HSV, Enterovirus, VZV RT-PCR for Zika, COVID-19, Monkeypox
Thiruvananthapuram	State Public Health Laboratory, Trivandrum (SSH Lab – Apex Lab)	IgM ELISA (Dengue, Leptospirosis, Hepatitis A, B, C, Chikungunya, Scrub Typhus, JE, NS1) Culture (Diphtheria, Pertussis, Tetanus) Bacterial culture & sensitivity (Sputum, Pus, Blood, Stool) PCR (Norovirus, Scrub Typhus, Leptospirosis, Influenza, Enterovirus, COVID-19, Monkeypox, Rabies) Dengue serotyping
Thiruvananthapuram	IAV Thonnakkal	Whole Genome Sequencing (WGS), Spike protein testing (COVID-19) RT-PCR for Influenza A & B, RSV, Bocavirus, Metapneumovirus, Parainfluenza (1–4), Parechovirus, Enterovirus, Adenovirus, Rhinovirus Mycoplasma pneumonia, COVID-19
Thiruvananthapuram	RGCB, TVM	Whole Genome Sequencing (WGS) for COVID-19 positive samples

- All laboratories must submit results within 24 hours of sample receipt to IHIP; critical results (positivity spike, novel pathogen) within 2 hours to DSO
- Sample transport vehicles at block level to be pre-assigned in the LDMC logistics plan

INDUSTRIAL AND PRIVATE SECTOR SUPPORT NETWORK

Thrissur's industrial base at Thrissur Industrial Estate, Irinjalakuda Industrial Area, and the pharmaceutical cluster around the district offers practical emergency production capacity. The District Industries Centre (DIC) and DMO jointly maintain a directory of units with emergency conversion potential.

Category	Available Units in Thrissur	Emergency Role
Sanitiser / Disinfectant Manufacture	Registered pharmaceutical and chemical units (Drug Controller list)	Emergency batch production of hand sanitiser, surface disinfectants
PPE / Mask Production	Textile and polymer units in industrial estates	Mask and cover manufacturing under emergency procurement MoU
Oxygen Supply (Industrial Conversion)	Industrial gas suppliers in coordination with KMSCL	Cylinder refill and concentrator distribution during surge
Food Processing (Community Kitchens)	Kudumbashree bulk catering units + registered FSSAI caterers	Emergency community food production for quarantine facilities

Sl. No	Industry / Company	Location	Products Supplied
1	Kerala State Drugs & Pharmaceuticals Ltd. (KSDP)	Kalavoor, Alappuzha	Alcohol-based hand sanitisers, essential medicines
2	Oushadhi (Kerala Govt. PSU)	Kuttanellur, Thrissur	Hand sanitisers, Ayurvedic formulations
3	HLL Lifecare Ltd. (Govt. of India Enterprise)	Thiruvananthapuram	PPE kits, masks, sanitizers, medical devices
4	Kerala Medical Services Corporation Ltd. (KMSCL)	Thiruvananthapuram	Central procurement & distribution of PPE kits, sanitizers, medicines
5	Kitex Garments Ltd.	Kizhakkambalam, Ernakulam	PPE kits, protective garments (large-scale manufacturing)
6	Rubber Park India Pvt. Ltd. (Cluster Units)	Irapuram, Ernakulam	Medical-grade rubber products, gloves, PPE components
7	Apollo Adlux Hospital (Support Supply Chain during COVID)	Angamaly, Ernakulam	PPE kits, masks, emergency medical consumables (institutional procurement & support)

VOLUNTEER FORCE AND EMERGENCY RESOURCE INVENTORY

Resource	Count / Coverage	Activation Mechanism
ASHA Workers/Anganwadi	2600 across all wards/3017	NHM activation order via Block MO; duty rosters pre-prepared
JHIs/JPHNs / Health Supervisors All Public health work force	857 at CHC/PHC/Sub-Centre level	Redeployment order via DMO; block-level roster
Kudumbashree NHG Members	1,200+ NHGs across 94 LSGs	Kudumbashree District Mission activation; CDS-led coordination
Civil Defence / NDRF Volunteers	Block-wise under DDMA Thrissur	DDMA activation on DC order
108 Ambulances	25+ units in district	1912 / 108 centralised dispatch; pandemic mode activation
Institutional Ambulances (Govt)	15+ vehicles (Medical College + GH + CHCs)	Hospital Superintendent order
Private Ambulances (Empanelled)	50+ on DMO roster	Direct call by Block MO / District EOC
KSRTC Buses (Emergency)	10+ designated routes, Thrissur depot	DC requisition; KSRTC operations manager

EARLY WARNING AND RISK COMMUNICATION SYSTEM

Thrissur's early warning system integrates epidemiological signal intelligence from IHIP/IDSP, environmental triggers (flood, heat), zoonotic alerts from the District Animal Husbandry Office, and media surveillance. The District Medical Office runs a dedicated media monitoring cell during outbreak periods.

Thrissur-Specific Alert Channels

- IHIP weekly disease reporting — mandatory from all 101 government institutions; monthly from registered private facilities
- Block-level ILI/SARI sentinel sites — 3 sentinel sites per block during monsoon and post-monsoon seasons
- Zoonotic alert channel — Veterinary Surgeon to DSO within 24 hours of unusual animal mortality in any ward
- Akashvani Thrissur FM + DD Thrissur — pre-agreed broadcast slot during health emergencies
- Flood early warning integration — Irrigation Dept river gauge data linked to DDMA for compound emergency planning
- WhatsApp broadcast tree: DMO → Block MOs → HIs → ASHA Supervisors — maximum 30-minute cascading time

- Misinformation response SOP: District Information Officer issues counter-brief within 2 hours of verified rumour detection

GOVERNANCE & STRUCTURE

Pandemic governance in Thrissur operates through four interlocked tiers, each with autonomous operational authority within defined scope and mandatory upward reporting. The architecture prevents single-point failure — if block-level coordination is overwhelmed, district EOC directly assumes block functions without requiring re-authorisation.

Tier	Lead Authority — Thrissur	Operational Scope	Reporting Cycle
District	DC (EOC Director) + DMO+DSO=District Epidemiologist	Command, resource allocation, state interface, media, legal orders	Daily during outbreak; weekly in preparedness phase
Block / Taluk	Block MO +HS+ Block Epidemiologist	Multi-LSG coordination, CFLTC, sample transport, HR deployment	Twice daily during outbreak; 3 times weekly otherwise
Panchayat / Municipality / Corporation	President / Mayor + Medical Officer + HI	LDMC operations, ward surveillance, isolation management, IEC	Daily during outbreak; weekly otherwise
Ward	Ward Member + ASHA + JHI+JPHN + Kudumbashree NHG Leader	Household surveillance, contact monitoring, IEC, supply delivery	Daily through ASHA daily call report

INSTITUTIONAL ROLES AND ACCOUNTABILITIES

Institution — Thrissur	Pandemic Preparedness Accountability
District Medical Office (DMO)	Technical lead for all health sector pandemic functions; maintains PPP, CFLTC list, and district health dashboard
DDMA Thrissur	ICS activation authority; EOC infrastructure; inter-department resource coordination; mock drill scheduling
NHM District Office	ASHA/JPHN deployment management; programme-specific continuity (RBSK, RCH, NCD); NHM fund utilisation for pandemic

Institution — Thrissur	Pandemic Preparedness Accountability
Thrissur Corporation	Urban ward surveillance; solid waste and biomedical waste coordination; urban CFLTC; Corporation health centre readiness
7 Municipalities Chalakudy Municipality, Chavakkad Municipality, Guruvayoor Municipality, Irinjalakuda Municipality, Kodungallur Municipality, Kunnamkulam Municipality, Vadakkancherry (Wadakkanchery)	Ward-level surveillance under respective MHO; municipality-level LDMC; urban quarantine management
86 Gram Panchayats	LDMC activation; community quarantine; vulnerable household support; ward-level ASHA coordination
Kerala Police — Thrissur City, Rural, and Irinjalakuda Ranges	Containment enforcement; movement permit issue; ambulance corridor clearance; crowd control at pilgrimage sites during outbreaks
KSRTC Thrissur Division	Emergency patient and staff transport; dedicated bus deployment for mass quarantine movement; supply chain support
Guruvayur Devaswom Board	Temple-area surveillance; pilgrimage crowd management in coordination with Health Department; facilities as quarantine space
Animal Husbandry Department (DAHO Thrissur)	Ward-level animal and poultry surveillance; zoonotic alert generation; participation in One Health Committee and field investigations
KWA Thrissur Circle	Uninterrupted safe water supply; post-flood water quality testing; emergency disinfection of water sources
Kudumbashree Mission Thrissur	Community kitchen activation; NHG-level volunteer coordination; vulnerable household supply delivery; rumour monitoring

WARD-LEVEL HEALTH VIGILANCE COMMITTEE (HVC)

Every ward in Thrissur's 94 LSGs operates a Health Vigilance Committee as the smallest unit of pandemic governance. The HVC is a working group, not merely a nominated list — it meets monthly in non-outbreak periods and activates daily surveillance duties during alerts.

HVC Role	Designated Person	Primary Pandemic Duty
Chairperson	Ward Member	Authorise local resource use; represent ward at LDMC; community leadership during response
Health Focal Point	ASHA Worker / JPHN	Daily household surveillance; contact listing; home isolation monitoring; report to HI/Sub-Centre
Surveillance Coordinator	Junior Health Inspector (JHI)	Field verification of signals; sample collection facilitation; case investigation; daily report to Block Epi
Logistics Focal Point	Kudumbashree NHG Leader	PPE kit distribution; food kit preparation for quarantine households; ward-level stock record
Community Liaison	Elected ward member or local youth volunteer leader	Misinformation counter; community sensitisation; vulnerable household daily check-in

PLANNING PRINCIPLES & LEGAL CONSIDERATIONS

Thrissur district's pandemic preparedness and response powers are grounded in a layered statutory framework spanning central legislation, state-specific enactments, and national programme guidelines — each assigning defined authority to the District Collector, DDMA, District Medical Office, and National Health Mission at the district level. The framework operates through a chain of delegation from the Union Government down to the Local Self-Government institution, ensuring that every pandemic response action — from quarantine orders and containment zone declarations to ASHA deployment and CFLTC activation — has a clear legal basis and an accountable authority at each tier of governance.

Disaster Management Act, 2005 (Sections 25 & 34)	District Collector (chairs DDMA under s.25)	Declaration of district disaster; resource commandeering; inter-agency direction (s.34); multi-hazard district planning mandate	India Code — Official text NDMA reference page
Epidemic Diseases Act, 1897 (as amended by Central Ordinance 5 of 2020, w.e.f. 22 April 2020) ☞ Healthcare worker protection provisions are in the Central Amendment (Ord. 5/2020), not in Kerala's own 2020 regulation	State Government (s.2 powers); empowers District Collector via state-issued regulations. District Collector acts under state direction, not independently under this Act.	Epidemic declaration; inspection & segregation of suspected persons; prescription of temporary public health regulations; penalty for non-compliance (s.3); healthcare worker protection from	India Code — Official text PRS — 2020 Amendment summary

		violence (s.2B, added 2020)	
Kerala Regulation and Prevention of Epidemic and Infectious Organisms Act, 2020 (Replaces EDA 1897 in Kerala from commencement; see s.12 of the Act) ☞ This Act replaced — not supplemented — the 1897 EDA in Kerala. It is not an Ordinance; it is a state Act passed by the Kerala Legislature.	State Government of Kerala / District Collector (under directions issued by State Govt)	Replaces EDA 1897 in Kerala; broader state epidemic declaration powers; restrictions on gatherings, transport & movement; quarantine and isolation authority; enhanced penalty provisions; state border management during epidemic	Kerala Law Reforms Commission — Act text (PDF) DHS Kerala — COVID-19 Regulations 2020
Kerala Disaster Management Policy & NDMA / SDMA Guidelines	DDMA Thrissur (under Kerala SDMA direction)	Multi-hazard planning mandate; LDMC constitution requirement in all 94 LSGs; mock drill obligation as per NDMA/SDMA guidelines; integration of pandemic preparedness into District Disaster Management Plan (DDMP)	Kerala SDMA — Government Orders NDMA official site
NHM Operational Guidelines — Pandemic Preparedness & Health System Strengthening	DMO Thrissur / NHM District Office	ASHA deployment norms & incentives; NHM fund utilisation for pandemic response; CFLTC operational standards; RBSK/RCH/NCD programme continuity during pandemics; NHM HR management norms	NHM India — Official site NHM Kerala
WHO International Health Regulations (IHR), 2005 (entered into force 15 June 2007) ☞ India's National IHR Focal Point is the Director, NCDC — not MoHFW directly. District DSO/DMO are implementation points in the reporting chain.	Central Govt / Director, NCDC (National IHR Focal Point for India); implemented via DHS Kerala → District Surveillance Officer → DMO, Thrissur	International health event communication to WHO within IHR-mandated timelines; notifiable disease reporting up the chain from DSO → NCDC → WHO; event-based surveillance obligations; public health emergency of international concern (PHEIC) response coordination	WHO — IHR 2005 page WHO India — IHR / NCDC Focal Point WHO — National IHR Focal Points

SIX CORE PRINCIPLES OF THRISSUR'S PREPAREDNESS FRAMEWORK

1. **One Health Integration** Human, animal, and environmental health surveillance are treated as inseparable in Thrissur — particularly critical given the Kole wetlands ecosystem, coastal fisheries, and livestock markets.

2. **Equity First** Ward-level response prioritises dialysis patients, persons with disabilities, TB/HIV patients on active treatment, elderly living alone, migrant workers in industrial areas, coastal communities, and pregnant women before general population measures.
3. **Decentralised Authority** Each LSG has pre-delegated operational authority for LDMC activation, isolation facility opening, and community quarantine — no fresh district order required during the first 72 hours of response.
4. **Data-Driven Decision Making** Every resource deployment decision at EOC level is backed by IHIP data, block-level epidemiological reports, and One Health Committee surveillance inputs — no action on rumour alone.
5. **Community Ownership** Thrissur's Kudumbashree network, ASHA programme, and strong civil society base are treated as operational assets, not passive beneficiaries, in every phase of response.
6. **Continuous Improvement** Every mock drill, every outbreak, and every after-action review feeds a formal update cycle for this PPP — minimum annual review by the DDMA and DMO, or immediately following any declared outbreak or public health emergency.

STATE SYSTEMS & EMERGENCY COORDINATION

STATE-LEVEL COORDINATION LINKAGES

State System	District Coordination Point	Function During Pandemic
State EOC / SEOC (SDMA)	DC / DDMO Thrissur	Command escalation above district capacity; state resource requests; inter-district coordination
Directorate of Health Services (DHS)	District Medical Officer	Clinical guideline issuance; specialist deployment orders; medicine supply authorisation
NHM State Mission Directorate	NHM District Programme Manager	ASHA incentives; contractual staff deployment; NHM pandemic funds release
KMSCL (Kerala Medical Services Corporation)	Store Superintendent, DMO + Drug Inspector	Medicine and PPE procurement, supply indent, emergency stock transfer
State IDSP / State HEOC	District Surveillance Officer/Epidemiologist	Outbreak validation; WGS sample submission; situation report submission; state alert protocols
Kerala Police Headquarters	SP Thrissur City / SP Thrissur Rural	Uniform enforcement orders; border control activation; additional police force requests

COMMUNITY PROTECTION & COMMUNICATION— THRISSUR SPECIFIC

- Vulnerable population registers are maintained by ASHAs in every ward and updated at every household visit cycle — covering dialysis patients, TB/HIV patients on treatment, persons with mobility impairment, elderly living alone, pregnant women, and registered migrant workers
- Guruvayur and Thrissur Pooram site health surveillance is treated as a standing special operation — dedicated HI and JPHN assignments, mobile medical units, and coordination with Devaswom/festival authorities exist as year-round operational plans, not emergency activations
- Coastal ward protocol: Chavakkad, Kodungallur, Munambam, and Puthuvypeen-adjacent coastal panchayats have a supplementary protocol covering fishermen community surveillance, boat jetty screening, and coordination with Department of Fisheries
- Migrant worker cluster surveillance: Industrial areas in Thrissur Corporation, Irinjalakuda, and Chalakudy have designated JHI/HI surveillance nodes who liaise with factory HR offices for early illness cluster detection
- DISHA mental health helpline is operationalised as a pandemic support line with 24×7 coverage — counsellors fluent in Malayalam, Tamil, and Hindi to cover diverse communities

CLINICAL CARE & ESSENTIAL SERVICES

Maintaining essential clinical services during a pandemic prevents a secondary mortality wave from delayed chronic care. Thrissur district has mapped all service continuity pathways in advance:

Service	Continuity Mechanism — Thrissur
Dialysis	Ward-wise patient list Maintained; Panchayat vehicle transport arrangements; backup slot allocation at alternate centres
TB (DOTS)	Treatment supporter (ASHA/DOTS provider) continues home delivery; PP Unit JHI supervises uninterrupted supply from block PHU
HIV / ART	ART Centre, Govt Medical College Hospital Thrissur — multi-month dispensing activated; telemedicine follow-up for stable patients
Maternal & Child Health	Delivery care maintained with enhanced IPC at all FRUs; ANC follow-up via PHC and telemedicine; Janani Suraksha Yojana transport activated
NCD (DM / HTN / Cancer)	Monthly drug refills via PHC and Sub-Centre during restrictions; NCD Clinic MO available for teleconsultation; ASHA-assisted home delivery of medicines
Mental Health	DISHA District Cell + MHC Thrissur (Mental Health Centre) — home visit counsellors; ward-level volunteer support; referral pathway for acute psychiatric emergencies
Palliative Care	District Palliative Unit/All peripheral institution team— home visit teams continue with PPE; Pain & Palliative Clinic MO on teleconsultation

HEALTH SYSTEM SURGE

SURGE CAPACITY ASSESSMENT — THRISSUR DISTRICT

Surge capacity in Thrissur has been assessed against a planning scenario of a threefold increase in hospitalisation demand over normal baseline — a scenario drawn from the district's actual COVID-19 peak experience in 2021. The following gaps were identified and are being addressed:

Dimension	Baseline (2025)	Surge Target	Gap Actions
Govt Medical College	1436	1800+ beds	Convert elective wards to pandemic wards; optimize bed turnover; activate additional oxygen-supported beds
Pandemic General Beds (Govt)	2102 beds across GH + CHCs	3477 beds	Activate 6 pre-mapped CFLTCs (approx. 650 additional beds)
Pandemic General Beds (Private)	4838 Bed	8000 Beds	Empanel additional private hospitals; convert general wards for pandemic care; strengthen home isolation monitoring
ICU / HDU Beds (Govt)	85 beds (Medical College + GH Thrissur)	170 beds	Step-down ICU at GH Thrissur; CHC ICU upgrade at Irinjalakuda
Oxygen-Supported Beds	320 across government facilities	640 beds	PSA plant at Irinjalakuda, Kodungallur CHC; concentrator deployment from DMO store
Ventilators (Govt/Private)	42 (Medical College + GH)	84	KMSCL emergency indent list; private hospital ventilator data available for requisition
RT-PCR Tests / Day	500 tests/day (Govt + empanelled)	2,500 tests/day	Activate DPHL surge mode; mobile collection van to 12 blocks; private lab empanelment
Ambulances	60 (108 + institutional)	120+	50+ private ambulances pre-empanelled; KSRTC bus fleet designated for mass patient

Dimension	Baseline (2025)	Surge Target	Gap Actions
			movement

TERTIARY AND SECONDARY CARE AUDIT — THRISSUR

Institution	Category	Pandemic Role	Surge	Key Available Capacity
Govt Medical College Hospital, Thrissur	Tertiary / Teaching Hospital - 1436	District's pandemic centre; critical care hub	primary referral	Pulmonology, Medicine, Paediatrics, O&G, Nephrology, ICU, ventilators, dialysis
District Hospital, Wadakkanchery	Secondary – 117 beds	Peripheral centre; moderate case management; stabilization & referral	referral	General Medicine, O&G, basic ICU/O ₂ support, laboratory services
Govt General Hospital, Thrissur	Secondary – 240 beds	Step-down moderate case management; overflow ICU	care; case management;	General Medicine, O&G, Paediatrics, oxygen-supported beds, limited ICU
Govt District Hospital, Irinjalakuda	Secondary – 216 beds	Northern Thrissur intake; CFLTC base; referral support		Medicine, O&G, laboratory, oxygen-supported beds
THQH, Kodungallur	Secondary – 176 beds	Southern/coastal Thrissur intake; CFLTC base; outbreak containment support		Medicine, O&G, laboratory, oxygen-supported beds
THQH, Chalakudy	Secondary – 144 beds	Eastern Thrissur intake; forest/tribal area coverage; referral support		Medicine, O&G, laboratory, oxygen-supported beds
THQH, Chavakkad	Secondary – 140 beds	Coastal belt intake; moderate case management; referral linkage		Medicine, O&G, laboratory, oxygen-supported beds

Institution	Category	Pandemic Surge Role	Key Available Capacity
17 CHCs (Block level)	Primary / Secondary	First-line pandemic intake; triage; home isolation support	Medical Officers, nursing staff, basic lab, oxygen concentrators

CFLTC (COMMUNITY FIRST-LINE TREATMENT CENTRE) PRE-MAPPING

Six CFLTC locations have been pre-mapped, visited, and assessed for rapid activation. Each location has a designated Block MO as Nodal Officer and a preliminary readiness checklist on file at the DMO.

CFLTC Location	Type	Estimated Capacity	Nodal MO
Government Engineering College, Thrissur	College campus	300+ beds	Block MO, Thrissur Block
Christ College / PRNSS College premises, Irinjalakuda	College auditorium + classrooms	200+ beds	Block MO, Irinjalakuda
Guruvayur Devaswom Pilgrim Centre	Guest house / pilgrim facility	150 beds	MO, Guruvayur Town PHC
Chavakkad Block Panchayat Complex	Community facility	100 beds	Block MO, Chavakkad
Kodungallur Municipal Community Hall	Community hall	120 beds	MO, Kodungallur Municipality
STED Youth Centre / Parish Hall, Chalakudy	Community hall	100 beds	Block MO, Chalakudy

CFLTC (Community First-Line Treatment Centres) – Pre-Mapped Facilities

Sl. No	Facility Name	Location	Type
1	KILA CFLTC Block 1	Thrissur	CFLTC
2	KILA CFLTC Block 2	Thrissur	CFLTC
3	P C Thomas Coaching Centre	Kuttanelloor	CFLTC
4	Lulu Convention Centre	Nattika	CFLTC
5	Lulu Convention Centre	Nattika	CSLTC
6	Muziris Facility	Kodungallur	CFLTC

7	Divine Dhyanakendram	Muringoor	CFLTC
8	Divine Dhyanakendram	Muringoor	CSLTC
9	P C Thomas Centre	Puthur	CFLTC
10	P C Thomas Centre	Puthur	CSLTC
11	Vidhya Block 1	Vallathol Nagar	CFLTC
12	Vidhya Block 1	Vallathol Nagar	CSLTC
13	Vidhya Block 2	Vallathol Nagar	CFLTC
14	Jyothi Facility	Cheruthuruthy	CFLTC

REFERRAL TRANSPORT SYSTEM

Thrissur district's referral transport system is structured as a hub-and-spoke network with Government Medical College Hospital as the apex hub. The system is pre-activated rather than improvised — vehicle lists, driver contacts, and route assignments exist before any emergency.

- 108 Emergency Ambulance Service: 25+ vehicles; pandemic call-to-dispatch target of 15 minutes within Thrissur Urban; 25 minutes for rural blocks
- DISHA (Mental Health Ambulance): 2 vehicles; activated for psychosocial emergencies and special transport needs
- Institutional ambulances: 15+ vehicles across Medical College, General Hospitals, CHCs — on permanent call for inter-facility transfer
- Private ambulances: 50+ pre-empanelled vehicles on DMO roster with contact directory; activated on Block MO or EOC call
- KSRTC Thrissur depot: 10 buses designated for mass patient transport during surge and mass quarantine movement events
- Panchayat vehicles: Each LDMC logistics focal point identifies at least 2 ward-level vehicles for last-mile patient transport

HUMAN RESOURCE SURGE PLAN

Staff Category	Regular Strength — Thrissur	Surge Deployment Strategy
Medical Officers (Govt)	323 MOs including CHC/PHC	Task reassignment protocol; MBBS house surgeons and interns deployed to non-clinical roles; AYUSH MOs to triage and teleconsultation
Specialist Doctors (	129 specialists across departments	Dedicated pandemic ward teams formed; rotational 12-hour ICU duty; specialist teleconsultation for CHC level
Nursing Staff (Government)	1029 nurses across all facilities	12-hour shift protocol; NHM-contracted nurses from non-essential programmes redeployed; private nursing colleges approached for intern support

Staff Category	Regular Strength — Thrissur	Surge Deployment Strategy
Health Inspectors + JHIs	323 HIs/JHIs	Containment and surveillance redeployment; split into field (contact tracing) and facility (IPC monitoring) teams
JPHNs + PHN Supervisors	420 PHNs	Ward-level home isolation monitoring; ASHA supervision; vulnerable household daily call protocol
ASHA Workers	2600	Community surveillance backbone; daily household call report; contact listing support; quarantine kit distribution
Laboratory Technicians	125 at government facilities	Extended duty shifts; additional private lab technicians empanelled for sample processing surge
Pharmacists / Store Staff	193 at government facilities	Extended duty for KMSCL stock management; emergency indent processing

TRIAGE, IPC, AND COHORTING PROTOCOL

All health facilities in Thrissur operate a three-colour triage system during pandemic periods, with physical separation enforced at facility entry:

Triage Category	Clinical Criteria	Facility Destination — Thrissur	IPC Requirement
Green (Mild)	SpO ₂ ≥ 95%; no respiratory distress; normal vitals	Home isolation; CFLTC if social isolation not possible at home	Surgical mask; standard precautions; daily symptom reporting to ASHA
Yellow (Moderate)	SpO ₂ 90–94%; mild respiratory distress; controlled comorbidity	CHC oxygen ward or secondary hospital	N95 mask for staff; contact and droplet precautions; PPE for direct care
Red (Severe/Critical)	SpO ₂ < 90%; respiratory failure; shock; multi-organ risk	Medical College ICU or empanelled private ICU	Full PPE; airborne precautions; dedicated clean/dirty corridors

- Dedicated fever clinic with separate entry and isolated waiting area mandatory at all CHCs and above
- Biomedical waste categorised and collected daily; incineration at designated KSPCB-authorized facility
- IPC audit by Block MO at each facility fortnightly during outbreak; findings to EOC within 48 hours

SUPPLY CHAIN AND BUFFER STOCK MANAGEMENT

Item Category	Minimum Buffer Stock	Storage Point	Responsible Officer
Full PPE Kits (Level 3)	3009 kits	District Store, DMO Thrissur	Store Superintendent, DMO
N95 Respirators	10724 units	District Store + 17 CHC sub-stores	Store Superintendent + Block MOs
Triple-Layer Surgical Masks	5,00,000 units	District + Block stores	Block MOs
Oxygen Cylinders (D-type)	500 charged cylinders	GH Thrissur + Medical College	Hospital Superintendents
Oxygen Concentrators	200 units	CHC level and above	DMO / NHM district coordinator
Essential Antivirals + Antibiotics	3-month treatment courses	KMSCL District Depot	KMSCL Depot Manager
IV Fluids + Consumables	1-month ward supply	District Store + CHC stores	Store Superintendent
Rapid Antigen Test Kits	10,000 kits	District store + Block PHUs	DSO / Block Epidemiologists

- Physical stock verification monthly in preparedness phase; weekly during outbreak alert
- Expiry tracking: all items with <6 months shelf life flagged at each monthly audit
- Contingency indent authority: Block MO can raise emergency indent to DMO store without awaiting district approval during active outbreak

PREPAREDNESS & RESPONSE PROTOCOL AT DISTRICT LEVEL

This section details how Thrissur district transitions from routine surveillance to active pandemic operations. The protocol is structured around two operational phases — Alert/Preparation and Active Response — each with specific activation triggers, team deployments, and monitoring requirements calibrated to Thrissur's geography and institutional landscape.

CONSTITUTION OF ONE HEALTH COMMITTEE

ONE HEALTH COMMITTEE — THRISSUR DISTRICT

The One Health Committee is the district's inter-sectoral pandemic intelligence body. Unlike general coordination meetings, the One Health Committee has specific data inputs (animal surveillance, environmental monitoring, human surveillance) and specific decision outputs (joint investigation triggers, zoonotic alerts, mass gathering risk advisories). It is constituted under the chairmanship of the District Collector with the DMO as its operational lead.

Thrissur's One Health Committee is particularly focused on three endemic interfaces: the Kole wetlands (migratory bird-livestock-human interface for avian influenza and zoonoses); the coastal belt (fishermen community-marine environment-leptospirosis interface); and the festival-pilgrimage circuit (high human density, inter-state visitor flow, food safety risks).

Sl.	Member Designation	Department	Role in Committee
1	District Collector	District Administration	Chairperson; authorises joint investigation; state reporting authority
2	District Medical Officer	Health Department	Member Secretary; coordinates health surveillance inputs and response
3	District Animal Husbandry Officer (DAHO)	Animal Husbandry Department	Animal and poultry surveillance data; zoonotic alert generation
4	Deputy Director, Panchayats	LSGD	LSG-level data flow; community engagement coordination
5	District Agriculture Officer	Agriculture Department	Crop and food system risk monitoring; pesticide and food contamination alerts
6	District Fisheries Officer	Fisheries Department	Coastal community surveillance; marine zoonosis monitoring; fishermen health liaison
7	District Forest Officer	Forest Department	Wildlife-livestock interface; forest fringe

Sl.	Member Designation	Department	Role in Committee
			community health; wildlife mortality alerts
8	District Food Safety Officer	FSSAI / Food Safety Department	Food safety surveillance; market inspection; contamination outbreak investigation
9	District Surveillance Officer	Health Department / IDSP	Epidemiological data integration; outbreak analysis; IHIP oversight
10	NHM District Programme Officer	National Health Mission	Programme health data; community health worker network coordination
11	Representative, Civil Society	NGO / Community Organisation	Community ground-truth data; vulnerable population feedback
12	Veterinary College Representative	Kerala Veterinary University (if present)	Technical support for zoonotic disease diagnosis and research

Standing Agenda of the One Health Committee

- Review of IHIP disease trend data (human surveillance) for the preceding period
- Review of DAHO reports on unusual animal mortality, poultry illness, and livestock disease in the district
- Environmental health update: KWA water quality, post-flood sanitation, Kole wetlands monitoring report
- Risk assessment for upcoming mass gatherings (Thrissur Pooram, Guruvayur festival season, school reopening, etc.)
- Review of action-pending items from previous meeting
- Decision on whether any joint field investigation or outbreak alert is warranted

Meeting Frequency: Quarterly in routine preparedness mode | Weekly during outbreak alert | Daily during active pandemic phase

PANDEMIC RESPONSE WORKFORCE

PANDEMIC RESPONSE WORKFORCE AT LSG LEVEL

All 94 LSGs in Thrissur district constitute a Pandemic Response Workforce at the time of LDMC activation. These teams operate under the LSG Medical Officer and report daily to the Block PHU. Composition reflects local skill availability — panchayats near industrial areas have designated migrant worker liaisons; coastal panchayats include Fisheries Extension Officers in surveillance teams.

Team	Composition — Thrissur	Responsibilities	Team Leader
Surveillance & Contact Tracing	HI, JHI, JPHN, ASHAs, ward volunteers	Case detection, household contact listing, daily field reporting to Block Epi	Health Inspector (HI)
Case Management	PHC/CHC MO, nurses, MLSP, palliative nurse (where available)	Clinical assessment, triage, referral decisions, home isolation prescriptions	Medical Officer
Quarantine & Isolation Management	JHI, Panchayat staff, designated volunteers	CFLTC/quarantine facility day-to-day operations; resident welfare; discharge protocol	Junior Health Inspector (JHI)
Psychosocial Support	DISHA-trained counsellor, trained health volunteer	Mental health first aid for quarantined individuals and families; anxiety/stigma management; referral to DISHA/IMH	Designated counsellor
Logistics & Supply Chain	Panchayat store manager, Kudumbashree logistics volunteer, driver	PPE kit distribution, quarantine food kits, medicine delivery, waste transport	Panchayat Secretary
Communication & IEC	Ward member, Kudumbashree NHG lead, youth club, AWW	Bilingual IEC distribution, ward-level health meetings, rumour monitoring	Ward Member / MO
Patient Transport	KSRTC crew, Panchayat vehicle driver, 108 crew	Referral transport, staff movement, supply delivery, evacuation support	Health Inspector
Intersectoral Coordination	MO, HI, Revenue Officer, Police SI, ICDS Supervisor	Multi-department field coordination; containment zone management; food security	Medical Officer

PANDEMIC RESPONSE WORKFORCE AT DISTRICT LEVEL

Sl.No	Team	Sl.No	Name	Designation

1	HR Management	1	Dr. Flemi Jose	Dy. DMO
		2	Dr.Sajeev Kumar.P	DPM
		3	Sri. Shinekumar A R	AA, DMOH
		4	Sri Anil	SS, DMOH
		5	Smt. Jisha Gabriel	Clerk , A1 Section
		6	Sri Krishnakumar	Clerk , C2 Section
2	Surveillance team-district	1	Dr. Anoop T.K	Dy. DMO,District Surveillance Officer
		2	Dr.Nirmal	JAMO
		3	Smt.Rathikala TP	Epidemiologist, IDSP
		4	Dr. Reeja Bhaskar	Sr. Consultant, General Medicine, GH TSR
		5	Sr. Bharath	Technical Assistant Gr II
		6	Smt. Smitha	Data Manager
		7	Smt. Sumi	DEO
3	Hospital surveillance and Liaison	1	Dr Suja	Dy. DMO
		2	Dr. Anoop T.K	Dy. DMO,District Surveillance Officer
		3	Dr. Pavan (IMA)	Jr. Consultant
		4	Smt.Rathikala TP	Epidemiologist, IDSP
		5	Smt. Smitha	Data Manager
		6	Smt. Sumi	DEO
		7	Sri. Sharon P	DEO
4	Contact Tracing and Cluster Mangement	1	Dr. Anoop T.K	Dy. DMO,District Surveillance Officer
		2	Dr.Nirmal	JAMO
		3	Smt.Rathikala TP	Epidemiologist, IDSP
		4	Smt. Smitha	Data Manager
		5	Smt. Sumi	DEO
5	Sample	1	Dr Pushpa	HOD, Microbiology

	Management Team & Lab Surveillance	2	Dr. Soumya K S	Assistant Surgeon
		3	Sri Jayaprakash	DLT (i/c)
		4	Smt.Rathikala TP	Epidemiologist, IDSP
		5	Nazar Bhasha	Nursing Assistant
6	24*7 Call centre Management	1	Smt.Rathikala TP	Epidemiologist, IDSP
		2	Sri. Padman Velsar	JHI
		1	Dr. Sheena K Vasu	Assistant Surgeon
		3	Sri. Sangeeth M G	Clerk, B7 Section
8	Training and awareness generation	1	Dr. Sheeja	Dy. DMO
		2	Smt.Rathikala TP	Epidemiologist, IDSP
		3	Dr. Jilsho George	DTO
9	Material management	1	Smt.Ashitha	Store Verification Officer
		2	Sri Shyju	KMSCL Manager
		3	Sri. Usha Kumari	PSK
10	Infrastructure management	1	Dr. Flemi Jose	Dy. DMO
		2	Dr.Sajeev Kumar.P	DPM
		3	Dr. Sreejith	Nodal Officer, Ardram
		4	Smt.Paulsy Jose	Jr. Consultant ,Engineer
		5	Smt.Cisy Paul	District PRO
		6	Smt. Smitha	Data Manager
11	Media Surveillance team	1	Smt. Sonniya Johny P	Dy. District Education Media Officer
		2	Smt. Aljo	Dy. District Education Media Officer
		3	Sri. Padman Velsar	JHI
		4	Smt.Danny Priyan	Consultant D&C
12	IEC/BCC & Documentation team	1	Smt. Sonniya Johny P	Dy. District Education Media Officer
		2	Smt. Aljo	Dy. District Education Media Officer

		3	Sri. Padman Velsar	JHI
		4	Smt.Danny Priyan	Consultant D&C
13	Expert coordination team	1	Dr. Anoop T.K	Dy. DMO,District Surveillance Officer
		2	Dr.Sajeev Kumar.P	DPM
14	Mental Health team	1	Dr Baby Lakshmi K.R	Superintendent, Mental Hospital, Thrissur
		3	Dr Subrahmanyam	Senior Consultant, Mental Hospital, Thrissur

PHASE 1 - ALERT / PREPARATION

ACTIVATING THE ONE HEALTH COMMITTEE AND LDMC

- District Collector issues LDMC activation order to all 94 LSGs; LDMCs must convene within 12 hours
- One Health Committee convened at DMO; joint risk assessment completed within 24 hours of alert
- Full contact directory distributed; escalation hierarchy confirmed (Ward → Block → District → State)
- EOC shifts to 12-hour operational mode; 24-hour mode within 48 hours if signal escalates

ENHANCED SURVEILLANCE ACTIVATION — THRISSUR PROTOCOL

Surveillance enhancement begins simultaneously at ward, block, and district levels without waiting for formal outbreak declaration:

Surveillance Type	What is Being Monitored	Who Reports	Reporting Period
Syndromic Surveillance	Fever, ILI, SARI, unexplained rash, acute diarrhoea clusters	JHI/JPHN daily; Field Surveillance via IHIP	Daily during alert phase
Institutional Surveillance(Presumptive and Laboratory)	OPD and IPD case counts at all government + private facilities	Institution MO via IHIP P-form and Lab technician Via Laboratory form	Weekly (daily during alert)
Event-Based Surveillance	School absenteeism spikes, pharmacy purchase surges, workplace clusters	S,P L forms-IHIP Plattform	Within 24 hours of detection
Animal Health Surveillance	Unusual poultry/livestock	Veterinary Surgeon to DAHO to DSO	Within 24 hours of detection

Surveillance Type	What is Being Monitored	Who Reports	Reporting Period
	mortality, wild bird deaths near Kole wetlands		
Environmental Surveillance	Water source contamination, post-flood quality changes, sanitation breakdown	KWA / Sanitation Inspector to LDMC	Weekly; immediately for acute contamination

LOGISTICS READINESS VERIFICATION

- DMO Store Superintendent conducts physical stock count against the buffer stock register; shortfalls flagged to DMO within 48 hours of alert
- Block MOs verify CFLTC site readiness: beds, linen, ventilation, toilets, water supply, power backup, biomedical waste bin placement
- Transport vehicles confirmed: 108 Nodal Officer verifies all 25+ ambulances are operational; private ambulance duty roster activated
- KMSCL emergency indent pre-filed for critical items projected to run below 30-day supply within 60 days at alert-phase consumption rate

IDENTIFICATION OF QUARANTINE AND ISOLATION FACILITIES

- All pre-mapped CFLTC locations receive a physical readiness inspection by the respective Block MO within 72 hours of alert
- Facility management teams (site manager, support staff, security) briefed and duty roster issued
- SOPs for admission, discharge, food service, IPC, and biomedical waste posted at each facility in Malayalam and English
- Backup sites identified for each primary CFLTC in case of school calendar conflict or space unavailability

RISK COMMUNICATION — THRISSUR SPECIFIC PLAN

- DMO issues first public advisory within 6 hours of district-level outbreak confirmation; reviewed and signed by District Collector
- Akashvani Thrissur FM 101.8 and Doordarshan Thrissur receive pre-drafted broadcast scripts for first 48 hours; updated daily
- Block MOs brief all HIs and ASHA Supervisors via WhatsApp group within 2 hours of EOC alert; HIs brief ASHAs at ward level within 4 hours
- Malayalam IEC posters and pamphlets (pre-printed in DMO store) distributed to all LSG offices, ration shops, and places of worship within 72 hours
- Misinformation response protocol: District Information Officer + DMO identify and issue factual counter-brief within 2 hours of verified false information
- Tamil-language communication materials activated for migrant worker clusters in industrial areas

PROTECTION OF VULNERABLE GROUPS

VULNERABLE POPULATION ACTION PLAN

Thrissur's vulnerable population action protocol begins at ward level without awaiting district direction:

Vulnerable Group	Ward-Level Action	Block/District Action
Dialysis patients	ASHA confirms current facility and appointment schedule; transport need assessed within 24 hours	Block MO coordinates with respective dialysis centres; alternate slot booked; transport arranged via Panchayat vehicle
TB/HIV patients	ASHA confirms drug supply status; if <2 weeks stock, requests emergency refill from Sub-Centre	PP Unit JHI expedites drug delivery; ART Centre activates multi-month dispensing
Elderly living alone	Kudumbashree NHG member conducts daily welfare check from Day 1 of alert	District Social Welfare Officer alerted; Panchayat support mechanism activated
Pregnant women	ASHA updates ANC register; confirms institutional delivery plan; identifies transport	FRU medical officer confirms delivery readiness; IPC protocol for maternity ward activated
Persons with disabilities	Ward member confirms mobility status and care support adequacy	Panchayat welfare sub-committee ensures continuous supply of assistive support
Migrant workers	JHI identifies cluster locations in industrial area; welfare officer contact shared	District Labour Officer coordinated; factory HR asked to report workplace illness within 24 hours

PHASE 2 — ACTIVE RESPONSE

CASE IDENTIFICATION AND CONTACT TRACING

- Contact tracing begins within 4 hours of case confirmation; HI is the first field response lead
- Contacts classified as High Risk (same household / prolonged close contact) and Low Risk (casual / brief contact) — managed differently
- High-risk contacts: 14-day institutional or home quarantine with daily ASHA monitoring; RT-PCR test on Day 5
- Contact list submitted to Block Epidemiologist within 24 hours; updated daily until case recovered

STANDARD SCREENING PROTOCOL

Checkpoint Location	Justification	Staff Deployed	Method
Thrissur Railway Station (Main)	Highest inter-district traveller volume in central Kerala	HI + 2 volunteers + IEC material	Non-contact thermometer; symptom questionnaire; IHIP reporting
Thrissur KSRTC Central Bus Station	Primary bus terminus for Thrissur + connecting districts	JHI + 2 ASHAs + volunteer	Thermal screening; quarantine advice card
Kuthiran Tunnel Toll Entry Points	NH-544 corridor linking central Kerala to Palakkad; high truck/tourist volume	JHI + Police + IEC board	Vehicle interception; driver and passenger screening
Guruvayur Bus Stand and Temple Entry Gates	3–10 lakh pilgrims annually; inter-state visitors year-round	HI + JPHN + Devaswom staff	Thermal screening; mandatory symptom declaration form
Irinjalakuda and Chalakudy Bus Stands	Block-level transit hubs serving northern and eastern Thrissur	JHI per location	Thermal screening; referral to local PHC if symptomatic
Chavakkad, Kodungallur, Munambam Boat Jetties	Coastal entry points for fishermen; inter-state fishing vessels	JHI + Fisheries Extension Officer	Health check; vessel-origin documentation

MASS GATHERING HEALTH PROTOCOL — THRISSUR

Thrissur requires a standing mass gathering health protocol that pre-dates any pandemic alert, given the scale and regularity of its public events. The following events require mandatory pre-event health planning coordinated between DMO and event authorities:

Event	Venue	Estimated Footfall	Pre-Event Health Measures
Thrissur Pooram	Thekkinkadu Maidanam	5–10 lakh+ over 36 hours	4 mobile medical units; 8 first aid stations; 6 ambulances on standby;

Event	Venue	Estimated Footfall	Pre-Event Health Measures
			thermal screening at key entry routes; dedicated IEC on health precautions at all Pooram gates
Guruvayur Ekadasi Festival	Guruvayur Temple and surrounding area	2–5 lakh over several days	2 mobile units; dedicated fever clinic at Guruvayur Devaswom Hospital; JPHN deployment at 4 pilgrim rest stops; coordinate with Devaswom for crowd flow management
Christmas / Easter / Onam Celebrations	Basilica of Our Lady of Dolours, Cheraman Juma Mosque, and district-wide	1–3 lakh at peak events	Advance health advisory; coordination with event management committees; pre-positioned ambulance at venue
School Reopening / Institutional Re-entry	District-wide	Students + staff across 2,000+ schools	Mandatory IPC checklist for school HM; Health Inspector visit to all high schools in first week; health advisory to all parents

FLOOD AND COASTAL EMERGENCY HEALTH INTEGRATION

Thrissur's 2018 and 2019 flood history created a validated protocol for managing a concurrent pandemic and flood emergency. The following measures are pre-integrated into both the DDMP and this PPP:

- Pre-monsoon (April–May): ORS, chlorine tablets, and leptospirosis prophylaxis (Doxycycline) pre-positioned at all flood-prone CHCs and sub-centres in Chalakudy, Karuvannur, Kole, and Kodungallur areas
- Flood period (June–September): Mobile medical units deployed to Kole wetlands-adjacent panchayats; enhanced leptospirosis surveillance at all sub-centres in river basin communities; water quality testing every 72 hours at community wells
- Post-flood (October–November): Rapid wound surveillance and leptospirosis case detection drive; environmental cleanup coordination with DDMA; groundwater testing by KWA
- One Health linkage: DAHO and DSO conduct joint leptospirosis reservoir surveillance (rat population in paddy fields + livestock in flood-affected areas) every monsoon

CONTROL ROOM MANDATES

OPERATIONAL TEAMS — PANDEMIC CONTROL ROOM, THRISSUR

Sl.	Team	Team Leader — Thrissur	Core Responsibilities
1	Central	DMO	EOC operations; state reporting; inter-

Sl.	Team	Team Leader — Thrissur	Core Responsibilities
	Coordination		team coordination
2	Epidemiological Surveillance	DSO + Epidemiologists	Case detection, contact tracing oversight, IHIP/IDSP data management
3	DISHA / Call Centre	DISHA District Coordinator	Public helpline; mental health first response; daily enquiry log
4	HR and Staffing	DMO Office / NHM District Coordinator	Duty roster; leave management; staff welfare; redeployment orders
5	Training and Field Orientation	DMO + Block MO designated lead	Rapid in-service training; PPE drills; ASHA refresher calls
6	Material and Logistics	Store Superintendent, DMO	Buffer stock monitoring; KMSCL indents; PHC/CHC supply routing
7	CFLTC / Isolation Infrastructure	Respective Block MO (each CFLTC)	Daily census of CFLTCs; maintenance of site SOPs; discharge coordination
8	Sample Tracing	DSO + Lab Coordinator (DPHL)	Sample collection schedules; cold chain; result turnaround tracking
9	Media Surveillance	District Information Officer + DMO Media Cell	Print, electronic, and social media monitoring; daily misinformation report
10	IEC and Public Communication	District PRD + DMO	IEC production and distribution; Akashvani/DD content; WhatsApp tree
11	Documentation	District Planning Officer	Situation reports; meeting minutes; SOP updates; after-action file
12	Private Facility Integration	HI designated by DMO	Private hospital data collection; empanelment coordination; bed reporting
13	Transport and Ambulance	108 Service Nodal Officer	Vehicle tracking; driver duty; post-trip sanitisation compliance

Sl.	Team	Team Leader — Thrissur	Core Responsibilities
14	Interdepartmental Coordination	DMO + DC Office Nodal Officer	Police, LSGD, KWA, KSRTC, Education daily coordination
15	Community Volunteer Operations	Kudumbashree DM Coordinator	NHG deployment; quarantine kit assembly and distribution; daily volunteer report
16	Psychosocial Support	DISHA District Cell Coordinator	Counsellor deployment; ward-level support visits; severe case referrals
17	Data Compilation and Dashboard	NHM MIS Manager + Block Data Managers	Daily data aggregation; district health dashboard update; state reporting formats
18	Finance and Budget	District Finance Officer, DMO	Emergency fund utilisation; procurement authorisations; weekly expenditure report

DAILY MONITORING INDICATORS — PANDEMIC CONTROL ROOM

Epidemiological Indicators

- New confirmed cases reported in the past 24 hours — by block and by LSG
- Total active cases in home isolation, CFLTC, secondary hospitals, and ICU
- Test Positivity Rate (TPR) for the day and 7-day rolling average
- Case Fatality Rate (CFR) — updated and reviewed at weekly EOC meeting
- Ward-level case clustering map — updated daily; any ward with 5+ linked cases triggers micro-containment review

Surveillance Indicators

- Number of persons under home quarantine (high-risk contacts) — by LSG
- ILI/SARI OPD counts from sentinel sites — compared against seasonal baseline
- Zoonotic alert status — any new animal mortality report from DAHO; status of joint investigation if triggered
- School and workplace cluster reports — count of new events reported in last 24 hours
- Mortality surveillance — unexplained home deaths or brought-in-dead cases flagged

Logistics and Infrastructure Indicators

- Bed occupancy rate at each CFLTC and secondary hospital — with % of O₂ beds occupied
- Oxygen cylinder and concentrator stock at district store and each block — flagged if below 7-day supply
- Ambulance operational status — number available vs. number deployed
- PPE and rapid antigen kit stock at district and block level — flagged if below 14-day supply

Alert Triggers and Immediate Actions — Thrissur

Alert Category	Trigger — Thrissur Specific	Immediate Action
Geographic Cluster	5+ linked cases in a single ward (any ward)	Micro-containment zone declared by Block MO; active case search within 100-household radius; additional testing capacity deployed to ward
Pilgrimage/Mass Gathering Cluster	3+ cases linked to Guruvayur, Pooram, or any festival venue	Immediate coordination with venue authority; RRT deployed; visitor contact tracing initiated
Testing Drop	>20% reduction in district daily test volume	DSO reviews sample collection bottleneck; Block Epidemiologists instructed to increase collection; private labs contacted for surge
Lab TPR Spike	Daily TPR exceeds 10% or rises >5 percentage points in 3 days	Additional testing sites activated in affected block; case management reviewed; state HEOC notified
O ₂ Bed Occupancy	≥80% of government O ₂ beds occupied	CFLTC activated; KMSCL oxygen indent raised; private hospital empanelled O ₂ beds surveyed for availability
Zoonotic Alert	Any confirmed zoonotic spillover or mass poultry/wildlife mortality in district	One Health Committee emergency convened within 6 hours; joint DAHO-IDSP field team deployed; Kole/coastal surveillance intensified
Flood Compound Emergency	Active flood warning (Red/Orange) during pandemic period	DDMA and DMO joint EOC activated; mobile medical units pre-positioned in flood-affected areas; leptospirosis protocol triggered
Variant of Concern (VoC)	WGS report confirming VoC in any Thrissur sample	Micro-containment of index case cluster; clinical protocol update from DHS; state HEOC immediate notification

RECOVERY AND REHABILITATION PHASE

RECOVERY

Recovery in Thrissur begins when active case counts have remained below the district threshold for 14 consecutive days and community transmission is classified as controlled by DHS Kerala. Recovery is structured, time-bound, and documented — not an informal drift back to normal.

- Damage and impact assessment: Health facility audit, HR disruption record, excess mortality data, economic impact survey through District Planning Officer

- Restoration of health services: All elective procedures, ANC/PNC clinics, school health visits, immunisation sessions, and NCD clinics resume on a published schedule within 2 weeks of recovery declaration
- Environmental cleanup: All CFLTC sites decontaminated, certified by Block MO, and handed back to original institutions with written clearance
- Cold chain restoration: Vaccine stocks verified; catch-up immunisation schedule published and communicated to all ASHAs

REHABILITATION

Rehabilitation Component	Thrissur-Specific Action
Dialysis and Chronic Care	Full appointment schedules resumed; transport support continued for 8 weeks post-recovery for patients who lost household income
Mental Health and Psychosocial Recovery	DISHA counsellors continue ward visits for 3 months post-recovery; peer support groups established through Kudumbashree NHGs; IMH Thrissur outpatient load reviewed for post-pandemic trauma cases
Livelihood Rehabilitation	District Employment Exchange + NORKA Roots (for returned emigrants) activated; Kudumbashree micro-enterprise support for NHG members who lost income; MGNREGS activated in rural panchayats
Child Health and Nutrition	Catch-up immunisation drive across all wards; NRC sessions at CHC level for children identified as acutely malnourished during pandemic; school health re-screening after reopening
Healthcare Worker Wellbeing	Mandatory mental health screening for all clinical staff within 4 weeks of recovery declaration; compensatory leave issued; DISHA internal counselling sessions for front-line health workers

SURVEILLANCE DURING RECOVERY

- IHIP reporting continues at normal frequency — not reduced after recovery declaration
- Post-pandemic complication surveillance: weekly review of unusual cardiac events, neurological complications, and long-term respiratory cases at secondary and tertiary level for 12 weeks post-recovery
- One Health Committee continues quarterly meetings; zoonotic surveillance in Kole and coastal areas maintained

SYSTEM STRENGTHENING AND AFTER-ACTION REVIEW

- Formal After-Action Review (AAR) conducted within 30 days of recovery declaration by DMO and DDMA jointly
- District Pandemic Preparedness Plan updated based on AAR findings within 60 days
- Capital investment proposals submitted to DHS: PSA plant gaps, CFLTC infrastructure, digital dashboard upgrades
- Quarterly mock drill schedule reinstated within 3 months of recovery

- Annual PPP review institutionalised — minimum one DDMA-DMO joint PPP workshop each October

RECOVERY MASTER CHECKLIST

Assessment and Infrastructure

- ☐ Multi-sectoral impact assessment completed — health facilities, HR, patient care disruptions, economic indicators
- ☐ All CFLTC sites decontaminated and returned to original use with written clearance from Block MO
- ☐ KMSCL supply chain reverted to routine procurement; emergency indents closed and reconciled
- ☐ All government health facilities certified operationally normal — equipment, utilities, staff

Clinical and Public Health Continuity

- ☐ All elective, ANC/PNC, immunisation, and NCD clinic services fully restored
- ☐ Post-pandemic complication surveillance protocol activated
- ☐ Dialysis and chronic care patient backlogs cleared within 4 weeks
- ☐ Environmental health audit completed for flood-affected zones

Human-Centred Rehabilitation

- ☐ DISHA post-pandemic counselling programme activated — ward-level visits for 3 months
- ☐ Mandatory mental health screening completed for all front-line health workers
- ☐ Livelihood support initiated through Employment Exchange, NORKA, and Kudumbashree
- ☐ Catch-up immunisation drive completed across all wards within 8 weeks

Administrative and System Strengthening

- ☐ After-Action Review conducted with all Block MOs, DDMA, and EOC team within 30 days
- ☐ Emergency expenditure audit completed; KMSCL and procurement records reconciled
- ☐ Lessons Learned report compiled and submitted to DHS Kerala
- ☐ PPP updated based on AAR findings; updated version approved by DDMA

Community Confidence and Policy

- ☐ Public communication issued confirming service resumption and safety — through Akashvani, LSG notice boards, ASHA network
- ☐ Ward sabha session in each LSG to collect community feedback on pandemic response experience
- ☐ Policy recommendations from AAR presented to District Collector for action

CONCLUSION

Thrissur district enters the preparedness era with a clear understanding of its unique vulnerabilities and risk landscape. Public health emergencies in the district do not occur in isolation; they often coincide with floods, large-scale mass gatherings such as Thrissur Pooram and other festivals, seasonal outbreaks like leptospirosis, and the continuous movement of pilgrims, tourists, and migrant populations through major transport corridors. Preparing for pandemics in Thrissur therefore requires preparedness for compounded and concurrent risks.

This Pandemic Preparedness Plan reflects a system designed specifically around the realities of Thrissur district rather than a generic framework. The Emergency Operations Centre (EOC) structure aligns with existing institutional mechanisms. Identified CFLTC sites have been field-verified for rapid activation. The community-level response is strengthened through established networks such as Kudumbashree, ASHA workers, and local self-governments. The integration of a One Health approach ensures coordination across veterinary, agriculture, fisheries, and forest departments, which is essential in a district characterized by wetlands, coastal ecosystems, and active livestock interfaces.

Three key commitments underpin this plan.

First, it is a living document, to be regularly updated based on mock drills, real-time outbreak responses, and periodic reviews by DDMA and the District Medical Office. Preparedness requires continuous revision and adaptation.

Second, it emphasizes last-mile implementation, ensuring that ward-level stakeholders including elected representatives, frontline health workers, and community networks clearly understand and execute their roles. Regular training, simulations, and communication are integral to this process.

Third, it upholds equity in response, ensuring that vulnerable populations—including the elderly, chronically ill patients, migrant workers, and coastal communities—are equally protected and supported.

The District Medical Office, Thrissur, in coordination with DDMA, NHM, all Local Self Government Institutions, and community-based organizations, remains committed to strengthening and sustaining this level of preparedness. This plan serves as a baseline framework, and the processes it outlines will continue to evolve in response to emerging risks and field experiences.

RECOMMENDATIONS

HEALTHCARE INFRASTRUCTURE

- Install Pressure Swing Adsorption (PSA) oxygen plants at the CHCs in Irinjalakuda, Kodungallur, and Chavakkad blocks — these blocks cover the highest-risk coastal and urban fringe populations
- Upgrade the fever clinic and triage space at all 17 block CHCs to include a dedicated screened waiting area, hand washing station, and waste segregation bin before the next monsoon
- Formalise the six pre-mapped CFLTC sites through written MoU with school/college/community hall managements — reduce activation time to under 6 hours
- Establish a dedicated district pandemic warehouse at the DMO premises to hold minimum buffer stocks independent of KMSCL depot supply cycles

COMMUNITY AWARENESS AND COMMUNICATION

- Conduct ward-level pandemic awareness sessions through Kudumbashree NHGs and ASHA monthly meetings — at least one per ward per quarter in non-outbreak periods
- Develop a Thrissur-specific IEC package covering Pooram/festival health precautions, flood and leptospirosis prevention, and pandemic basics — in Malayalam with Tamil supplement for migrant workers
- Designate and train two Community Health Ambassadors (one male, one female) per ward from among Kudumbashree and youth club members
- Activate the Akashvani Thrissur and Doordarshan Thrissur partnership for a monthly pandemic preparedness public service segment

EMERGENCY RESPONSE AND COORDINATION

- Complete formal LDMC constitution and at least one orientation meeting in all 94 LSGs by September 2026; verify and document this at DDMA
- Develop and annually update a Thrissur Pooram Health Preparedness Plan as a standalone document — reviewed each February before the festival
- Conduct a joint tabletop exercise involving DMO, DDMA, Police, KSRTC, and Kudumbashree on a concurrent flood + pandemic scenario — annually from 2026
- Establish a live vulnerable population digital register (dialysis, TB, HIV, elderly alone, persons with disabilities) accessible to Block MOs and updated every ASHA visit cycle

SUPPLY CHAIN AND FOOD SECURITY

- Achieve and maintain 3-month essential medicine buffer stocks at all 17 CHCs by March 2026 — this currently exists only at district store level
- Sign emergency production MoUs with at least three local manufacturers (sanitiser, mask, PPE) in Thrissur and Irinjalakuda industrial areas
- Identify and formally list Kudumbashree bulk catering units as community kitchen operators in each block — activate with clear food safety and hygiene protocols
- Conduct a joint FSSAI–DMO food safety inspection at all major pilgrimage site food stalls before festival season each year

DIGITAL HEALTH AND DATA SYSTEMS

- Achieve 100% IHIP enrolment and active weekly reporting from all 146 government health institutions by June 2026 — currently at approximately 98%
- Launch a district pandemic health dashboard accessible to DMO, all Block MOs, and DDMA — showing live bed occupancy, O₂ stock, and case data — before the 2026 monsoon
- Activate telemedicine services at all PHCs for home-isolated pandemic patients and NCD follow-up — coordinates with the NHM e-Sanjeevani rollout
- Deploy digital contact tracing tools (ICMR/DHS-approved platform) during the next outbreak alert — pre-train all Block Epidemiologists before September 2026

TRAINING AND CAPACITY BUILDING

- Conduct an annual full-scale district pandemic mock drill covering at all blocks and 20+ LSGs — next scheduled for September 2026, including a coastal/flood scenario element
- Deliver IPC and PPE donning/doffing competency training to all clinical staff (government and empanelled private) twice yearly — January and July
- Organise an annual One Health field exercise involving DAHO, DSO, District Forest Officer, and Fisheries Department — focusing on Kole wetlands and coastal surveillance
- Build a certified pandemic preparedness e-learning module for HIs, JHIs, Block Epidemiologists, and Data Managers accessible on NHM Kerala's LMS platform

LONG-TERM RESILIENCE

- Integrate pandemic preparedness as a standing agenda item in the Thrissur District Development Plan with a dedicated annual health emergency budget line
- Formalise inter-district mutual aid agreements with Ernakulam and Palakkad districts for surge resource sharing — oxygen, ambulances, PPE, and specialist staff
- Invest in building research and genomic surveillance capacity at Thrissur Medical College in partnership with ICMR and KSCSTE — making it a regional reference point for central Kerala
- Review and formally update this District Pandemic Preparedness Plan every two years through a structured DDMA-DMO workshop — or immediately following any declared outbreak or public health emergency

MOCK DRILL SCENARIOS

Mock drills in Thrissur are not generic exercises — they are calibrated to the district's actual risk profile. Each scenario below reflects a realistic emergency combination that Thrissur has historically faced or is structurally exposed to. Drills are conducted at district, block, and ward levels on a quarterly rotation, with an annual full-scale district exercise.

COMMUNICATION

Communication protocols are tested in every drill as a primary performance metric — not as an afterthought. The communication chain from ward ASHA to Block MO to DMO to State HEOC must be completed within defined time targets, and any gap is recorded in the drill evaluation report.

Communication Testing Targets in All Thrissur Drills

Communication Link	Target Time	Method Tested
ASHA to JHI/Sub-Centre	Within 30 minutes of detecting alert signal	Phone call + WhatsApp message with symptom details
JHI to Block Epidemiologist	Within 1 hour of field verification	IDSP S-form + WhatsApp notification to Block group
Block MO to DMO / DSO	Within 2 hours of block-level alert confirmation	Phone + written situation update via WhatsApp and email
DMO to District Collector / EOC	Within 1 hour of district-level alert confirmation	Phone call; EOC activation message to all coordinators
DMO to State HEOC (DHS Kerala)	Within 4 hours of outbreak confirmation	IHIP entry + phone call to State Surveillance Officer
DMO to Public (First Advisory)	Within 6 hours of outbreak confirmation	Press release; Akashvani broadcast; LSG WhatsApp network

- Every drill records actual vs. target times at each communication link — this data drives the next refresher training agenda

- Multilingual communication drill element: Tamil-language advisory to industrial area tested annually
- Misinformation response drill: A planted false rumour on social media is introduced mid-drill; DIO + DMO response time and quality evaluated

FIVE CORE DRILL SCENARIOS FOR THRISSUR DISTRICT

Scenario	Setting	What is Drilled	Key Metrics Evaluated
Scenario 1: Respiratory Illness Cluster at Educational Institution	Ward in Thrissur Urban or Corporation area; school or college setting	Alert detection, case isolation, parental communication, school closure decision, media briefing, CFLTC notification	Signal-to-EOC time; parent communication quality; media advisory accuracy; school health protocol compliance
Scenario 2: Compound Flood + Leptospirosis Surge	Chalakydy or Karuvannur river basin panchayat during simulated flood event	DDMA-HEOC joint activation, mobile unit deployment, leptospirosis prophylaxis distribution, evacuation camp health surveillance	DDMA-DMO coordination time; prophylaxis coverage rate in drill zone; camp surveillance data completeness
Scenario 3: Mass Casualty at Thrissur Pooram	Thekkinkadu Maidanam and surrounding urban wards	Multi-agency coordination: Health, Police, KSRTC, Devaswom; mass triage; ambulance corridor management; crowd IEC	Triage throughput rate; ambulance response time; inter-agency coordination score; public communication clarity
Scenario 4: Zoonotic Spillover from Kole Wetlands	Kole wetlands-adjacent panchayat; unusual bird mortality reported	One Health Committee activation, joint DAHO-DSO field team, environment sampling, human surveillance enhancement, media response	One Health Committee convening time; joint investigation report turnaround; media misinformation prevention score
Scenario 5: High-Risk Traveller Cluster — Kuthiran Tunnel Entry	Simulated screening checkpoint at Kuthiran Tunnel or Thrissur Railway Station	Checkpoint activation, symptomatic traveller identification, institutional quarantine initiation, inter-district coordination with Palakkad	Checkpoint setup time; quarantine initiation turnaround; inter-district coordination log accuracy

12.3 CAPACITY BUILDING AND TRAINING PLAN

OBJECTIVES

- Train every tier of the pandemic response system — from ASHA and ward volunteer to District Collector-chaired EOC — to execute their role with confidence and without requiring real-time direction for pre-defined actions
- Ensure that the most current clinical protocols (IPC, triage, oxygen management, sample handling) are known at the point of care, not just at district headquarters
- Build multi-sector fluency: every drill must include Police, LSGD, and KSRTC alongside health sector participants — pandemic response is not a health department solo exercise
- Generate institutional memory through documentation: every training event and drill produces a written output (attendance record, evaluation score, gaps identified) that informs the next planning cycle

TARGET AUDIENCES AND TRAINING TOPICS

Target Group	Core Training Topics	Recommended Frequency
Medical Officers (Govt and Private)	Clinical pandemic protocols; ICU surge management; triage criteria; specimen collection; IHIP reporting; IPC for clinical staff	Annually + after each major guideline update
Health Inspectors and JHIs	Field surveillance; contact tracing SOP; sample collection; quarantine management; containment zone procedures; LDMC role	Twice yearly (pre-monsoon and pre-winter)
JPHNs, ASHA Supervisors, ASHAs	Household surveillance; home isolation monitoring; vulnerable group registers; IEC delivery; referral triggers; daily reporting	Quarterly — cascaded through Block MO to Sub-Centre to ward
Block Epidemiologists and Data Managers	IHIP data quality; outbreak investigation; situation report writing; cluster analysis; IDSP line list management	Twice yearly + on new IHIP feature deployment
LDMC Members (elected reps + panchayat staff)	LDMC roles and activation protocol; CFLTC management basics; vulnerable group response; IEC coordination; media interaction during emergencies	Annually (pre-monsoon workshop at Block PHU)
Police and Civil Defence	Containment zone enforcement; ambulance corridor clearance; crowd management at pilgrimage sites; quarantine violation response	Annually — joint exercise with Health Department
Kudumbashree NHG	Household monitoring; food kit	Twice yearly — through

Target Group	Core Training Topics	Recommended Frequency
Leaders and Volunteers	assembly and delivery; quarantine support; rumour monitoring; ASHA coordination	Kudumbashree NHG monthly meeting circuit
KSRTC Operations Staff	Emergency patient transport protocol; ambulance bus operations; decontamination of vehicles post-trip; driver PPE use	Annually — joint session with DMO transport team

SEASONAL TRAINING CALENDAR — THRISSUR DISTRICT

Quarter	Disease/Climate Context	Training Priority	Lead Organiser
January–March	Post-flood recovery; cool season; ILI risk; pre-Pooram period	IPC refresher; Thrissur Pooram health protocol; mass gathering IEC training	DMO + Block MOs + District Information Officer
April–June	Summer; heat illness; Hepatitis A risk; school closure period	Heat emergency response; water-borne disease surveillance; CFLTC readiness verification	DMO + DDMA + Block MOs
July–September	Monsoon; flood alert; leptospirosis peak; dengue; avian flu watch	Flood-pandemic compound drill; leptospirosis field protocol; One Health training; full district mock drill (September)	DMO + DDMA + DAHO + DSO
October–December	Post-monsoon; avian flu risk at Kole; cold season ILI; Onam–Christmas season	Zoonotic surveillance training; IPC for seasonal respiratory illness; LDMC annual review; PPP update workshop	DMO + DAHO + DDMA + NHM District

MONITORING AND EVALUATION OF PREPAREDNESS ACTIVITIES

Activity	How It is Evaluated	Responsible Party	Output
Training sessions	Pre- and post-test; trainer observation checklist; participant feedback form	Block MO / DMO Training Coordinator	Training report with competency gap list for follow-

Activity	How It is Evaluated	Responsible Party	Output
			up
Mock drills	Drill evaluation sheet (timing, communication, IPC compliance, inter-agency coordination, documentation)	DDMA Evaluation Team + DMO Observer	Drill evaluation report shared with DC and DHS within 7 days
LDMC activation exercises	Time from order to first LDMC meeting; completeness of contact directory; CFLTC site visit record	Block MO + DDMA	Block-level LDMC readiness report — quarterly to DMO
Buffer stock audits	Physical count vs. register vs. KMSCL delivery record	Store Superintendent, DMO; verified by Drug Inspector	Monthly stock audit report; discrepancies reported to DMO within 24 hours
PPP annual review	Structured review against WHO, NDMA, and DHS PPP checklist criteria	DMO + DDMA joint workshop	Updated PPP version approved and submitted to DHS Kerala

EXPECTED OUTCOMES OF THE PREPAREDNESS PROGRAMME

- Every Health Inspector and ASHA in Thrissur can state their first three actions upon receiving a pandemic alert without referring to any document
- Every CFLTC can be operationally activated within 6 hours of DMO order — verified through at least one annual activation drill
- The district EOC achieves full 24-hour operational status within 48 hours of any state-level outbreak alert declaration
- No ward-level contact tracing report takes more than 24 hours to reach the Block Epidemiologist during active outbreak response
- 100% of dialysis, ART, and DOTS patients receive uninterrupted treatment within any 30-day pandemic period through the continuity mechanisms described in this plan
- Community trust in health messaging, measured through district KAP surveys, improves measurably after each preparedness cycle

ANNEXURE

1. IMPORTANT PHONE NUMBERS

Phone numbers and particulars of persons responsible for providing guidance, assistance, and support for pandemic preparedness operations may be provided here in a manner that allows easy reference at a glance. The information recorded here could be exhibited elsewhere at the time of emergencies. LSG institutions shall give special attention to collect and record the above data of persons and institutions who/which are supposed to give technical and co-ordination support to reduce the impact of pandemic.
